

GR ENGINEERING SERVICES
ENGINEERING CONSULTANTS AND CONTRACTORS

ASX RELEASE

2 June 2014

For immediate release to the market

**Contract Award – Rio Tinto
Paraburdoo Moisture Reduction Project**

GR Engineering Services Limited (GNG.ASX) (**GR Engineering**) is pleased to announce that it has been awarded a lump sum turnkey contract by Rio Tinto to undertake engineering design, procurement, construction and commissioning works associated with the Moisture Reduction Project at Rio Tinto's Greater Paraburdoo Operations in Western Australia.

Work under the contract is expected to commence immediately and is scheduled for completion in February 2015. The contract value is approximately \$16.8 million.

Commenting on the contract award, GR Engineering's Managing Director, Mr Geoff Jones said:

"GR Engineering is pleased to have been awarded this contract and looks forward to working with Rio Tinto on the Paraburdoo Moisture Reduction Project. Our strong track record in the successful and safe delivery of brownfield projects leaves us well placed to deliver value accretive project outcomes for Rio Tinto."

Ends.

GR Engineering Services Limited (ASX:GNG) is an engineering, consulting and contracting company specialising in fixed price engineering design and construction services to the resources and mineral processing industry.

Founded in Perth, Western Australia in 2006, GR Engineering has successfully grown through the completion of design and construction projects for a diverse range of clients, including global mining houses, mid-tier miners and junior developers undertaking their first project.

GR Engineering undertakes feasibility studies and consulting engagements on projects globally. These studies play a key role in delivering organic growth opportunities through their conversion into design and construction projects.

GR Engineering directly employs approximately 170 professional and support staff at its offices in Perth and Brisbane in addition to its direct construction workforce and subcontractors.
