

ASX ANNOUNCEMENT

LONG TERM INFANT FORMULA SUPPLY AGREEMENT

Bega Cheese's wholly owned subsidiary, Tatura Milk Industries, has formalised its relationship with Bellamy's Organic with the execution of a six-year infant formula Product Supply Agreement.

The relationship between Bellamy's and Tatura Milk Industries is in its tenth year and the new agreement formalises the existing arrangements and provides the opportunity for both companies to grow.

Tatura Milk Industries' management and long-term experience in the manufacture of organic infant formula provides Bellamy's with the product integrity and quality standards required to meet the growing demand for high quality organic infant formula.

The formalisation of the long-standing relationship between the two companies will provide the security for both organisations to continue to invest in their capacities in the manufacture, value adding, sales and marketing of organic infant formula.
