# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

#### 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report includes the separate financial statements of the Company and the consolidated financial statements of the Group. Although not required by law, the Company's financial statements have been disclosed to assist members make informed decisions on the performance of the Group.

Accounting Standards include Australian equivalents to International Financial Reporting Standards ("A-IFRS"). Compliance with A-IFRS ensures that the financial statements and notes of the Company and the Group comply with International Financial Reporting Standards ("IFRS").

The financial statements were authorised for issue by the Directors on 15 September 2015.

#### **Basis of Preparation**

The financial report has not been prepared on a going concern basis, as the necessary financial support from the ultimate holding company has only been guaranteed up to the external liabilities, net of cash and cash equivalents, of the Group, which amount to \$63,778 (2014: \$31,256). The financial report has been prepared on the basis that all assets have been assessed and are recorded at their net realisable value.

The accounting policies set out below have been consistently applied to all years presented. Lasseters Corporation Limited is a listed public company incorporated and domiciled in Australia.

#### Reporting Basis and Conventions

For the purposes for preparing the financial statements, the Group is a for-profit-entity.

The financial report has been prepared on an accruals basis and all assets have been recorded at their net realisable value. All amounts are presented in Australian dollars, unless otherwise stated.

## **Accounting Policies**

# (a) Principles of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including special purpose entities) controlled by the Company (its subsidiaries) (referred to as 'the Group' in these financial statements). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its actitivies.

All inter-company balances and transactions between entities in the Consolidated Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the Company.

# (b) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors who make strategic decisions.

# (c) Income Tax

The income tax expense for the year comprises current income tax expense and deferred tax expense.

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities are therefore measured at the amounts expected to be paid to the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

# 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# (c) Income Tax (Continued)

Current and deferred income tax expense is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

# Tax consolidation

Lasseters Corporation Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated Group under tax consolidation legislation. Each entity in the Group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The Group notified the Australian Tax Office that it had formed an income tax consolidated Group to apply from 1 July 2009. The tax consolidated Group has entered a tax funding arrangement whereby each company in the Group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income. Differences between the amounts of net tax assets and liabilities derecognised and the net amounts recognised pursuant to the funding arrangement are recognised as either a contribution by, or distribution to the head entity.

# Nature of tax funding arrangements and tax sharing arrangements

The head entity, in conjunction with other members of the tax consolidated Group, has entered into a tax funding arrangement which sets out the funding obligations of members of the tax consolidated Group in respect of tax amounts. The tax funding arrangements require payments to/from the head entity equal to the current tax liability/(asset) assumed by the head entity and any tax loss deferred tax asset assumed by the head entity receivable/(payable) equal in the amount to the tax liability/(asset) assumed. The inter-entity receivables/(payables) are at call.

Contributions to fund the current tax liabilities are payable as per the tax funding arrangement and reflect the timing of the head entity's obligation to make payments for tax liabilities to the relevant tax authorities.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

# 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# (d) Impairment of Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

## (e) Financial Instruments

#### Recognition and Initial Measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

Financial instruments are initially measure at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit and loss immediately. Financial instruments are classified and measured as set out below.

# Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the assets is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

# Classification and Subsequent Measurement

# (i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost using the effective interest rate method.

## (ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated as such or that are not classified in any of the other categories. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

# Fair Value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

# Impairment

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a significant or prolonged decline in the value of the instrument is considered to determine whether any impairment has arisen. Impairment losses are recognised in the profit or loss.

# 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# (f) Foreign Currency Transactions and Balances

# **Functional and Presentation Currency**

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the Company's functional and presentation currency.

#### Transactions and Balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

## (g) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainty surrounding the obligation.

# (h) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash, which are subject to an insignificant risk of changes in value and have a maturity of three months or less at the date of acquisition.

Bank overdrafts are shown in current liabilities in the statements of financial position.

## (i) Revenue

# Interest Revenue

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

All revenue is stated net of the amount of goods and services tax.

## (i) Finance Costs

Finance costs are recognised in the profit or loss in the period in which they are incurred.

# (k) Goods and Services Tax ("GST")

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statements of financial position are shown inclusive of GST.

Cash flows are presented in the statements of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

# 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# (I) Trade and other payables

Liabilities are recognised as amounts to be paid in the future for goods or services received and are measured at amortised cost using the effective interest rate method.

# (m) Financial instruments - Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities.

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over an applied period.

### (n) Contributed Equity

Ordinary shares are classified as equity.

Costs directly attributable to the issue of new shares or options are shown as a deduction from the equity proceeds, net of any income tax benefit.

# (o) Comparative Figures

Where required by Accounting Standards comparative figures have been adjusted to conform to changes in presentation for the current year.

# (p) Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume the occurrence of future events and are based on current trends and economic data, obtained both externally and within the Group.

#### Key Estimates - Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

The recoverable amount of an asset is determined as the higher of fair value less costs to sell, and value in use. In determining the value in use, projected future cashflows are discounted using a risk adjusted pre-tax discount rate and impairment is assessed for the individual asset or at the cash generating unit.

# (q) Adoption of New and Revised Accounting Standards and interpretations

The Company has adopted all of the new standards effective from 1 July 2014. The adoption of the new standards does not have any material impact to the financial statements.

# (a) Market Risk

#### (i) Currency Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market rate risk exposure within acceptable parameters while optimising return.

The Group is exposed to foreign exchange risk principally through the provision of the online gaming services in US Dollars, Euros, Great British Pounds, New Zealand Dollars, Canadian Dollars, Singapore Dollars, Thai Baht, Malaysian Ringgit and Chinese Renminbi. The Group has payables in the above currencies. The following summarises the percentage exposure for other currencies that the Group transacts in:

|          | SGD   | NZD   | CAD   | ТНВ   | MYR   | CNY   | GBP    | EURO  | USD   |

The Board of Directors is responsible for the foreign exchange risk policies of the Group. This involves reviewing on a regular basis foreign currency exposures and identifying procedures to minimise any risks including reviewing monthly reports that show the balance of player purse funds that are held in foreign currencies. The Group monitors daily exchange rates to ensure where possible that foreign currency transactions are only conducted when the exchange rate is favourable. The Group's exposure to foreign currencies expressed in Australian dollars is as follows:

The following table shows the Group's sensitivity to a 10% increase and decrease in the Australian Dollar against the relevant foreign currencies. 10% represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign exchange rates. A positive number indicates an increase in profit where the Australian Dollar strengthens against the respective currency. For a weakening of the Australian Dollar against the respective currency there would be an equal and opposite impact on profit and the balances below would be negative.

This analysis assumes that all other variables, including interest rates remain constant. The analysis is performed on the same basis as the prior year.

No new Australian Accounting Standards that have been issued but are not yet effective have been applied in the preparation of this financial report. Such standards are not expected to have a material impact on the financial report on initial application as the consolidated entity is dormant.

# 22. CONTINUATION OF BUSINESS

The consolidated entity has a net asset deficiency of \$9,343,874 (2014: \$9,263,124). Also, the current liabilities of the consolidated entity exceed current assets by \$9,343,874 (2014: \$9,263,124).

The financial report has not been prepared on a going concern basis, as the necessary financial support from the ultimate holding company has, at the date of signing the financial report, only been guaranteed up to the external liabilities, net of cash and cash equivalents, of the Group, which amount to \$63,778 (2014: \$31,256).

The financial report has been prepared on the basis that assets have been recorded at their net realisable value. Where the Directors believe assets will be converted into cash within the next 12 months, these balances have been reported as current.

Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Lasseters Corporation Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

**BDO Audit Pty Ltd** 

P A Gallagher

Director

Brisbane, 15 September 2015

The Corporate Governance statement as set out below has been prepared and presented in a format consistent with the third edition of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations released in March 2014.

The Board is committed to maintaining the highest standards of corporate governance and during the year many of the Company's governance practices and policies were reviewed and where required updated to conform with the ASX Corporate Governance Principles. This statement is current as at 15 September 2015 and has been approved by the Board.

# PRINCIPLE 1 LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

# Role of the Board

The Board has the responsibility of protecting the rights and interests of members and increase value to all shareholders.

Key tasks undertaken by the Board include:

- Approval of the goals, strategies and longterm plans for the Company's continued development and operation and that the Company maximises its opportunities;
- Monitoring of the implementation of these goals, strategies and long-term plans to ensure the Company delivers shareholder value:
- Responsible for the Corporate Governance of the Company;
- Approval of the annual and half-year financial reports;
- Ensuring that the Company has implemented adequate systems and internal controls together with appropriate monitoring of compliance activities;
- Monitoring of the Company's overall performance and financial results; and
- Overseeing the Company's process for making timely and balanced disclosure of all material information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities.

# PRINCIPLE 2 STRUCTURE THE BOARD TO ADD VALUE

## **Board Composition**

The composition of the Board is determined using the following principles:

- Board should comprise at least five Directors;
- Board should where possible be made up of at least four Non-Executive and one Executive Director;

- Chairman of the Board should be a Non-Executive Director;
- Directors should possess a broad range of skills, qualifications and experience both nationally and internationally;
- Directors appointed by the Board are subject to election by shareholders at the following annual general meeting;
- While Directors are not appointed for a fixed term, under the Company's Constitution and the ASX Listing Rules, at least one third of the Directors (excluding the Managing Director) must retire by rotation each year and submit themselves for re-election by shareholders;
- The tenure for Executive Directors is linked to their holding of executive office.

Details, qualifications and information on Committee memberships and other Directorships held by each member of the Board can be found in the Directors' Report on pages 2 to 3.

# **Directors Independence**

An Independent Director is a Director who is not a member of management (a Non-Executive Director) and who:

- Is not a substantial shareholder of the Company or an officer of, or otherwise associated, directly or indirectly, with a substantial shareholder of the Company;
- Has not within the last three years been employed in an executive capacity by the Company;
- Is not a principal of a material professional adviser to the Company;
- Is not a significant supplier or customer of the Company or an officer of or otherwise associated, directly or indirectly, with a significant supplier or customer;
- Has no significant contractual relationship with the Company other than as a Director of the Company; and
- Is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company.

At the date of the Directors' Report, the Board consisted of four Non-Executive Directors. Details of the Directors are set out in the Directors' Report on pages 2 to 3.

While the ASX "Corporate Governance Principles and Recommendations" recommends that the majority of the Board should be independent, the Board believes the current Board composition is appropriate due to the skills provided by the current Directors and for the current shareholder structure.

The Board distinguishes between the concept of independence and the issues of conflict of interest or material personal interests that may arise from time-to-time. Whenever there is an actual or potential conflict of interest or material personal interest, the Constitution ensures that:

- The interest is fully disclosed and the disclosure is recorded in the Board minutes; and
- The relevant Director or Directors are excluded from all consideration of the matter by the Board.

# Chairman should be independent

The Chairman, Dato' Jaya J B Tan is not considered an Independent Director. The Board believes that Dato' Jaya J B Tan brings relevant skills and practical experience as Chairman; and as majority shareholder has a significant vested interest in ensuring proper governance.

# **Independent Professional Advice**

With the prior approval of the Chairman, each Director has the right to seek independent legal and other professional advice at the Company's expense concerning any aspect of the Company's operations or undertakings in order to fulfil their duties and responsibilities as Directors.

# CORPORATE GOVERNANCE STATEMENT

The Company has ceased operations since 2008, hence does not have any employees.

Directors did not adhere to the diversity policy as there was no change to the structure.

# **Directors and Staff Dealing in Company Shares**

The constitution does not preclude Directors or staff from acquiring shares in the Company or disposing of those shares.

Notwithstanding the Company's constitution, the Corporations Act 2001 specifically prohibits Directors or staff with any non-public information from purchasing or disposing of Company shares.

The Company share trading policy requires that Directors and staff do not trade in shares in the period one month prior to the expected announcement of the half yearly and preliminary final financial results, or when they are aware of price sensitive information that has not been released to the market. All Directors and Senior Executives must give at least 2 business days notice to the Company Secretary of an intended purchase or sale.

# PRINCIPLE 4 SAFEGUARD INTEGRITY IN CORPORATE REPORTING

# **Certifications from the Operating Officer**

# PRINCIPLE 5 MAKE TIMELY AND BALANCED DISCLOSURE

The Company complies with relevant disclosure obligations and responsibilities under the ASX Listing rules and the *Corporations Act 2001*.

The Company has in place procedures to immediately advise the ASX of any information which a reasonable person would expect to have a material effect on the price of the Company's securities subject to the exceptions set out in Listing Rule 3.1. A formal signoff policy is followed for all intended announcements.

# PRINCIPLE 6 RESPECT THE RIGHTS OF SECURITY HOLDERS

#### Role of Shareholders

The Shareholders of the Company are responsible for setting the aggregate maximum Non-Executive Directors' remuneration and voting on the election of Directors at the Annual General Meeting in accordance with the constitution. Shareholders vote on the granting of options and shares to Directors and changes to the constitution.

All Directors are subject to re-election by rotation every three years. Should a vacancy arise, the remaining Directors will select a new Director. Shareholders will be asked to consider the appointment at the next General Meeting.

The board aims to keep shareholders informed of all material developments affecting the Company. This occurs through distribution of the annual report, the half-yearly report, and the Chairman's address at the Annual General Meeting as well as through announcements to the Australian Stock Exchange and releases to the media.

The Board encourages full participation of shareholders at the Annual General Meeting to ensure a high level of accountability and identification with the Company's strategy and goals. Important issues are presented to the Shareholders as single resolutions.

The Company's auditors are requested to attend the Annual General Meeting and answer shareholder questions relating to the audit of the Company.

# PRINCIPLE 7 RECOGNISE AND MANAGE RISK

The Company operates in major regions of the world, significantly Asia and Europe. The Board accepts that risk exists in all aspects of the Company's business activities. The Company's major risks include (but are not limited to) increased regulation by Governments, foreign currency fluctuations, actions by competitors and operational processes.

The Board is responsible for the Company's system of internal controls. The Board constantly monitors the operational and financial aspects of the Company's activities and, through the Audit & Governance Committee, the Board considers the recommendations and advice of external auditors, Risk Management Committee and other external advisers on the operational and financial risks that face the Company.

A formal risk management policy was implemented in the third quarter of 2005 based on Standards Australia AS/NZS 4360 for risk management. Part of the process was to appoint a Risk Management Committee made up of senior managers and key personnel in the business. The Risk Management Committee reports to the Operating Officer and has direct access to the Board and Audit & Governance Committee.

The Board ensures that recommendations made by the external auditors, Risk Management Committee and other external advisers are investigated and, where considered necessary, appropriate action is taken to ensure that the Company has an appropriate internal control environment in place to manage the key risks identified.

In addition, the Board investigates ways of enhancing existing risk management strategies, including appropriate segregation of duties, the employment and training of suitably qualified and experienced personnel, and, in conjunction with the recommendations of the Audit & Governance Committee, the scope and work program of the external auditors.

The Board of Directors have received a written declaration from the Acting Operating Officer that the financial certification given by them on the Company's financial reports:

 Is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board; and  The Company's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.

This declaration provides a reasonable but not absolute level of assurance and it does not in any way imply or guarantee against adverse events or more volatile outcomes from arising.
