# Message from the Chairman

Fellow Shareholders,

On behalf of the Board of Directors, I am pleased to present the Annual Report for the financial year ended 31 March 2022 (FY22). The year was a milestone year for PayGroup on many aspects. Our great result was achieved by the continued execution on our strategic priorities of delivering organic growth, expanding Global Partnership Program (GPP) and monetisation opportunities, and realising operating leverage.

Improving the operating performance across the Group was top of mind throughout FY22. This has been reflected by the record organic growth in Annualised Recurring Revenue (ARR) of \$39.1m, an increase of 44% on the prior year (FY21: \$27.2m). Pleasingly, we achieved record statutory income of \$27.2m, up 68% on FY21 (FY21: \$15.6m). This represents 100% of the FY21 exit ARR, demonstrating our ability to convert ARR to statutory revenue. Together with the record ARR, PayGroup's expanding pipeline of opportunities and our rapid implementation processes sets a strong foundation for growth.

The record revenue momentum has driven strong earnings growth across the business. As such, PayGroup reported an improvement in NPAT of \$0.15m in FY22. Additionally, we have achieved significant improvement in our cash flow trajectory over the year, with net cash outflow reducing across the year to just \$(0.2)m in 4Q FY22. We are very proud of this progress, demonstrating PayGroup's focus on prudent cash management while delivering long-term sustainable growth.

In May 2021, PayGroup completed the acquisition of Integrated Workforce Solutions (IWS), a leading cloud-based workforce management platform specialising in solutions for the franchise and retail sector in Australia and New Zealand. Throughout the year, PayGroup successfully integrated the platform with our existing infrastructure, significantly expanding the geographic reach of the franchise and retail platform.

The GPP was a strong contributor to the record growth achieved in FY22. During the year, SD Worx was added to the GPP, significantly expanding PayGroup's pipeline of referrals and sales opportunities. PayGroup will service SD Worx's clients within APAC using existing infrastructure. PayGroup now proudly supports our customer base across 82 geographies, and we expect that the GPP will continue to deliver a strong pipeline of international opportunities as we look to increase our scale across key markets and deliver margin expansion.

During the year, we continued to increase our share of customer wallet, with increased uptake of cross-selling opportunities, and enterprise and payee monetisation initiatives. In FY22, cross-sells and up-sells represented 24% of new contracts signed, demonstrating PayGroup's highly complementary product suite and the Company's ability to execute on opportunities to increase the share of customer wallet across PayGroup's loyal customer base. Further, PayGroup continued to see significant momentum in our monetisation opportunities with the payments offering now annualising at \$2.5m. The latest monetisation solution to be added to our offering, Accessing Wages Earned, was successfully launched in India during the year and is on track to go live in Australia in FY23 as part of the next stage of planned implementation across key markets.

Subsequent to the year end, PayGroup entered into a Scheme Implementation Agreement with Deel, and Deel Australia, a leading global compliance and payroll solution provider that helps businesses hire anyone, anywhere. Under the proposed transaction, Deel will acquire 100% of the ordinary shares in PayGroup by way of a scheme of arrangement for cash consideration of A\$1.00 per PayGroup share, representing a 174.0% premium to the closing price of 22 June 2022, \$0.365. The Board of Directors believe that this transaction is in the best interest of PayGroup shareholders and for PayGroup's stakeholder more broadly. As such, the Board unanimously recommends that shareholders vote in favour of the Scheme.

On behalf of the Board of Directors, I would like to thank Mark and the whole PayGroup team for their hard work and dedication in achieving the record results of FY22. Further, the Board of Directors would like to thank our shareholders for their support as we continue to deliver our strategic priorities.

Yours faithfully,

lan Basser Chairman 30 June 2022 Melbourne

# **Corporate Governance Statement**

The Directors are responsible for the strategic direction of the Company, the identification and implementation of corporate policies and goals, and monitoring of the business and affairs of the Company on behalf of its Shareholders.

The Company is cognisant of the Corporate Governance Principles and Recommendations (3rd edition) as published by ASX Corporate Governance Council and acknowledges that the 8 principles set out therein are fundamental to good corporate governance.

The Board believes that the structure of the Company, its management and business practices provide a basis of governance which meets the essential corporate governance principles articulated by ASX in that publication.

This Corporate Governance Statement sets out the Company's current compliance with the ASX Corporate Governance Council's Principles of Good Corporate Governance and Best Practice Recommendations (Best Practice Recommendations).

The Company's website http://paygrouplimited.com/index.php/corporate-governance/ contains an Investor Section, which details the Company's Corporate Governance Policy. This provides public access to all the information relevant to the Company meeting its corporate governance obligations.

	BEST PRACTICE RECOMMENDATION	COMMENT
1.	Lay solid foundations for management and oversight	
1.1	A listed entity should have a Board Charter setting out:     (a) the respective roles and responsibilities of its board and management; and     (b) those matters expressly reserved to the board and those delegated to management.	Role and Responsibilities of the Board of Management  The Board is responsible for setting the strategic direction of the Company and for overseeing and monitoring its businesses and affairs. Directors are accountable to the shareholders for the Company's performance.  A copy of the Company's Primary Board Charter, which sets out the role and responsibilities of the Board is available on the Company's website in the Corporate Governance section.
1.2	A listed entity should:	Director Appointment and Election
	<ul> <li>(a) undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director; and</li> <li>(b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.</li> </ul>	The Board performs appropriate checks on candidates for the Board including checks as to the candidate's character, experience, education, criminal record and bankruptcy history. Where appropriate, external consultants may be engaged to assist in searching for candidates and undertaking relevant checks.
	elect of re-elect a director.	The Company will continue to provide information to shareholders about Directors seeking re-election or a candidate seeking election to the Board, including but not limited to their relevant qualifications, experience and skills as well as details of any other listed directorships held, whether the Director is considered to be independent and a recommendation by the Board in respect of the re-election or election as a Director.
1.3	A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.	Each Director enters into a written agreement with the Company which outlines the terms of his or her appointment including the Director's duties, obligations, remuneration, expected time commitments and notification of the Company's policies.
		Senior executives including the Managing Director and CFO have a formal services agreement setting out the terms of their employment.
1.4	The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.	Company Secretary  The company secretary is responsible for co-ordination of all Board business, including advising on governance matters, monitoring policies and procedures, board papers, board minutes, communication with regulatory bodies, ASX, ASIC and all statutory and other filings. The company secretary is accountable to the Board and all Directors have access to the company secretary. The decision to appoint or remove the company secretary is made by the Board.

	BEST PRACTICE RECOMMENDATION	COMMENT
1.5	A listed entity should:	Diversity Charter
	<ul> <li>(a) have a diversity policy which includes requirements for the board or a relevant committee of the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them;</li> <li>(b) disclose that policy or a summary of it; and</li> <li>(c) disclose as at the end of each reporting period the measurable objectives for achieving gender diversity set by the board or a relevant committee of the board in accordance with the entity's diversity policy and its progress towards achieving them and either:</li> </ul>	The Company has established a Diversity Charter, which is available on the Company's website. The Diversity Charter outlines requirements for the Board to develop measurable objectives for achieving diversity and annually assess both the objectives and the progress in achieving those objectives. The Board has developed objectives regarding gender diversity and aims to achieve these objectives over the next five years as Director and senior executive positions become vacant and appropriately qualified candidates become available.  The respective proportion of women and men in the Company as at 31 March 2022 is as follows:
	the board, in senior executive positions and across the organisation (including how the entity has defined "senior executive" for these purposes); or	Proportion of women Proportion of men
	(2) if the entity is a "relevant employer" under the	On the Board 0% 100%
	Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.	In senior executive positions 17% 83%
		Across the whole organisation 46% 54%
		For this purpose, the Board defines "a "senior executive" as a person who makes, or participates in the making of, decisions that affect the whole or a substantial part of the business or has the capacity to significantly affect the Company's financial standing. This therefore includes all senior management and senior executive designated positions as well as senior specialised professionals.  The Company's diversity objectives and progress towards achieving them are disclosed on the Company's website in the Corporate Governance section.
1.6	A listed entity should:	Performance Assessment
	<ul><li>(a) have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and</li><li>(b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.</li></ul>	The performance of the Board, Board Committees and individual Directors will be reviewed regularly by the Board under the direction of the Chairman. Given the size of the Board this review is carried out informally. The performance criteria against which Directors are assessed will be set by the Chairman in line with the criteria set out in the Company's Corporate Governance Policy.
1.7	A listed entity should:     (a) have and disclose a process for periodically evaluating the performance of its senior executives; and     (b) disclose, in relation to each reporting period, whether a	The Board has not adopted a formal process whereby it periodically evaluates the performance of the Managing Director. Given the size of the Board, this evaluation is carried out informally.
	performance evaluation was undertaken in the reporting period in accordance with that process.	The Managing Director evaluates the performance of senior management annually against Key Performance Indicators (KPI's), including measuring actual performance against planned performance.

	BEST PRACTICE RECOMMENDATION	COMMENT
2.	Structure the board to add value	
2.1	The board of a listed entity should:  (a) have a nomination committee which:  (1) has at least three members, a majority of whom are independent directors; and  (2) is chaired by an independent director, and disclose:  (3) the charter of the committee;  (4) the members of the committee; and  (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or  (b) if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.	The Board has not established a Nominations Committee. The Board as a whole carries out the functions of a Nominations Committee, and PayGroup believes this is appropriate for a Company of its size and business. The Board seeks to ensure that it has an appropriate mix of skills necessary to fulfil its obligations.
2.2	A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.	Skills Matrix  The Board regularly evaluates the mix of its skills, experience and diversity. The Board considers that collectively its directors have a level of skill, knowledge and experience that enables the Board to effectively discharge its responsibilities and duties (including the activities and industries outlined below). The mix of skills the Board is seeking to maintain, and to build upon, includes:  • Human capital management services and software; • Finance and Tax (e.g. financial management capability including accounting or related financial management qualifications); • Research and development; • Executive leadership; • Risk management understanding and experience; • Commercial acumen; • Strategic capabilities.  Further detail about the skills, experience and expertise held by each Director in office is disclosed in the Director's Report contained in the 2021 Annual Report.
2.3	A listed entity should disclose:  (a) the names of the directors considered by the board to be independent directors;  (b) if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and  (c) the length of service of each director.	Directors of PayGroup are independent when they are independent of management and free from any business or other relationship that could materially interfere with the exercise of their independent judgment. The following Directors are Independent: Mr Ian Basser, Mr David Fagan and Mr Shane Gild.  The date of appointment of each Director is set out in the Directors' Report Section of the 2022 Annual Report.

	BEST PRACTICE RECOMMENDATION	COMMENT
2.4	A majority of the board of a listed entity should be independent directors.	At the date of this report and during the period a majority of directors were independent directors.
2.5	The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.	The Chairman is an independent director. The Chief Executive Officer is not the Chairman.
2.6	A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.	The Company has an induction program for new directors.  The Company has policies and procedures in place to assist Directors in fulfilling their responsibilities. The Company has an informal process to educate new Directors about the nature of the business, including information on the Company's core values, corporate and financial strategy, objectives, as well as its governance framework and operations.
		The Board receives ongoing governance updates as required, including in relation to recent legislative and regulatory changes and developments in corporate governance. All Directors have ongoing access to information on the Company's operations and to the Company's senior management. The Company provides the capacity for any Director to obtain separate professional advice on any matter being discussed by the Board and for the Company to pay the cost incurred.
3.	Instil a culture of acting lawfully, ethically and responsibly	
3.1	A listed entity should articulate and disclose its values.	The Company has articulated it values and published these on its website.
3.2	A listed entity should:  (a) have a code of conduct for its directors, senior executives and employees; and  (b) disclose that code or a summary of it.	The Board has drawn up a formal code of conduct to guide Board members, executives and employees in carrying out their duties and responsibilities, to guide compliance with legal and other obligations and to maintain confidence in the Company's integrity. Executives and employees are encouraged to report to Board members any concerns regarding potentially unethical practices.
		The code of conduct is disclosed on the Company's website in the Corporate Governance Policy.
3.3	A listed entity should:  (a) have and disclose a whistleblower policy; and  (b) ensure that the board or a committee of the board is informed of any material incidents reported under that policy	The Board has adopted a Whistleblower Policy the object of which is to provide a whistleblower reporting regime, and protection for whistle-blowers. The Whistle-blower Policy is disclosed on the Company's website in the Corporate Governance Policy. The CFO monitors incidents under that policy on behalf of the Board.
3.4	A listed entity should:  (a) have and disclose an anti-bribery and corruption policy; and  (b) ensure that the board or a committee of the board is informed of any material breaches of that policy	The Company's Code of Conduct contains Business Ethics, Ant-Bribery and Anti-Corruption sections. The CFO monitors incidents under the Code of Conduct on behalf of the Board.

	BEST PRACTICE RECOMMENDATION	COMMENT
4.	Safeguard integrity in financial reporting	
4.1	The board of a listed entity should:	Audit and Risk Committee
	(a) have an audit committee which:	The Board has established an Audit & Risk Committee
	<ol> <li>has at least three members, all of whom are non- executive directors and a majority of whom are independent directors; and</li> </ol>	however during the period determined that the work of this Committee should be carried out by the full Board.
	<ul><li>(2) is chaired by an independent director, who is not the chair of the board,</li></ul>	The leader of Audit & Risk Committee work at Board level is chaired by David Fagan, who is an independent chairman and who is not chair of the Board.
	and disclose:	The Board carries out the functions of this Committee twice a
	(3) the charter of the committee;	year, represented by one meeting to review each of the full
	<ul><li>(4) the relevant qualifications and experience of the members of the committee; and</li></ul>	year and half year financial reports and make recommendation to the Board. Further meetings may be held
	(5) in relation to each reporting period, the number of times the committee met throughout the period and	for discussion on policies and procedures and risk management matters.
	the individual attendances of the members at those meetings; or	Meetings are attended by the accounting firm audit partner responsible for the Company's audit when appropriate.
	(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.	A copy of the Company's Audit & Risk Committee Charter is available on the Company's website in the Corporate Governance Policy.
4.2	The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.	The Board has obtained the relevant assurances from management.
4.3	A listed entity should disclose its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor	Periodic reports that are not audited are prepared by management and reviewed by the Board prior to being released to ASX. Where necessary, periodic reports are reviewed by the auditor for errors or omissions.
5.	Make timely and balanced disclosure	
5.1	A listed entity should:  (a) have a written policy for complying with its continuous disclosure obligations under the Listing Rules; and  (b) disclose that policy or a summary of it.	The Company's Corporate Governance Policy is designed to promote transparency and investor confidence and ensure that all interested parties have an equal opportunity to obtain information which is issued by the Company. Additionally, the Company is committed to complying with the continuous disclosure obligations contained in the ASX Listing Rules and the Corporations Act 2001.
		A copy of the Company's Corporate Governance Policy is available on the Company's website.
5.2	A listed entity should ensure that its board receives copies of all material market announcements promptly after they have been made	The Board receives copies of all material announcements before they are made
5.3	A listed entity that gives a new and substantive investor or analyst presentation should release a copy of the presentation materials on the ASX Market Announcements Platform ahead of the presentation	New and substantive investor or analyst presentations are released to the ASX Market Announcements Platform ahead of the presentation

	BEST PRACTICE RECOMMENDATIONS	COMMENT
6.	Respect the rights of shareholders	
6.1	A listed entity should provide information about itself and its governance to investors via its website.	The Company provides information about itself and its governance on its website. All policies and charters concerning governance issues are located on a dedicated section headed Corporate Governance.
6.2	A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors.	The Company has in place a Disclosure to the Investment Community Policy, which promotes effective communication with shareholders. The Policy is available in the Corporate Governance Policy.
6.3	A listed entity should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders.	The Board encourages full participation of shareholders at the AGM to ensure a high level of accountability and identification with the Company's strategy and goals.
		The 2022 Notice of Annual General Meeting will be provided to all shareholders and made available on the Company website.
		The external auditor is required to attend the AGM of the Company and is available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.
		Shareholders are able to communicate with the Company electronically and ask questions via the Company's website or by email. Investors are also able to communicate with the Company's share registry electronically, by emailing the share registry or via the share registry's website.
6.4	A listed entity should ensure that all substantive resolutions at a meeting of security holders are decided by a poll rather than by a show of hands	In line with the ASX Listing Rules, all Listing Rule resolutions are determined by way of a poll.
6.5	A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.	The Company gives security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.
7.	Recognise and manage risk	
7.1	The board of a listed entity should:  (a) have a committee or committees to oversee risk, each of which:  (1) has at least three members, a majority of whom are independent directors; and  (2) is chaired by an independent director, and disclose:  (3) the charter of the committee;  (4) the members of the committee; and  (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or  (b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.	The Board is responsible for ensuring that adverse risks and mitigation of these risks are identified on a timely basis and that the Company's objectives and activities are aligned with the risks and opportunities identified.

	BEST PRACTICE RECOMMENDATIONS	COMMENT
7.2	The board or a committee of the board should:  (a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and  (b) disclose, in relation to each reporting period, whether such a review has taken place.	Management undertakes detailed risk assessments of the Company's operations, procedures and processes and reports to the Board on a regular basis. A final review has not taken place in the financial year ended 31 March 2022.
7.4	(a) if it has an internal audit function, how the function is structured and what role it performs; or      (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.  A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.	The Company does not currently have an internal audit function. Management reviews the Company's major business units, organisational structure and accounting controls and processes on a regular basis and reports accordingly to the Board. The Board is satisfied that the processes in place to identify the Company's material business risks are appropriate and that these risks are being effectively managed. The Company's risk management processes are monitored and reported against on an ongoing basis.  The Company does not have any economic, environmental and social sustainability risks over and above those of every commercial organisation, and not already disclosed to security holders.
8.	Remunerate fairly and responsibly	
8.1	The board of a listed entity should:  (a) have a remuneration committee which:  (1) has at least three members, a majority of whom are independent directors; and  (2) is chaired by an independent director,  (3) and disclose:  (4) the charter of the committee;  (5) the members of the committee; and  (6) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or  (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.	The Company does have a Remuneration Committee which is responsible for:  • determining and reviewing compensation arrangements for the Directors and the Managing Director; and  • approving parameters within which the review of the compensation arrangements for the senior executive team can be conducted by the Managing Director.  The Charter for the Committee is in the Corporate Governance Policy.  The members of the Committee, and the number of times the Committee met, are set out in the 2022 Annual Report.

	BEST PRACTICE RECOMMENDATIONS	COMMENT
8.2	A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.	Details of Directors' and key management personnel remuneration for the period ending 31 March 2022 are set out in the Remuneration Report (contained in the 2022 Annual Report).
		The structure of non-executive Directors' remuneration is distinct from that of executives.
		Further details in relation to the Company's remuneration policies (including its equity-based remuneration policies) are contained in the Remuneration Report, within the Directors' report.
8.3	A listed entity which has an equity-based remuneration scheme should:     (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and     (b) disclose that policy or a summary of it.	The Company's Employee Share Plan (ESP) provides an interest free loan to selected senior employees which are subject to escrow for 2 years. The Shares issued under the ESP cannot be dealt with or encumbered in any way during the escrow period.

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as "the Group", "PYG", or "PayGroup") consisting of PayGroup Limited and its controlled entities at the end of, or during, the year ended 31 March 2022.

#### **Directors**

The following persons were directors of PayGroup Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

#### Ian Basser, Non-Executive Director (Independent)

#### **Experience**

Ian was appointed to the Board in July 2017 as an independent Non-Executive Director and Chairman. Ian has over 35 years' experience in starting, running and building service companies around the world including Australia, Hong Kong, China, Singapore, USA, UK and Europe. He was Chief Executive Officer and Managing Director of Chandler Macleod Group Limited until August 2012.

Prior to joining Chandler Macleod, he spent five years establishing and developing the Mettle Group as a strategic leadership and culture consultancy. Prior to Mettle Group, lan was Group Managing Director of Harvey Nash running operations in the UK, Europe and Asia. Prior to Harvey Nash, he was on the global management team of Michael Page International building operations in Australia, Asia and North America.

Directorships held in other listed entities during the three years prior to the current period

None

#### Mark Samlal, Managing Director

#### Experience

Mark co-founded Pay Asia Pte Ltd (PayAsia) in 2006 where he was Non-Executive Chairman until being appointed to the role of Executive Chairman and Managing Director of PayAsia in July 2015. In July 2017, he was appointed to the Board of PayGroup and to the role of Managing Director of the Group.

Mark has over 25 years' experience in leadership roles in Asia Pacific including being a Director and General Manager of ADP in Asia Australia (1999-2003). His previous senior roles included Chief Executive Officer VicPlas Ltd a Singapore Stock Exchange listed company in (2008-2014) and Executive Director of Omni Industries in Singapore (2006-2008). Mark is affiliated with the major shareholder and is based in Singapore. Mark has not held Directorships in other listed entities during the three years prior to the current period.

#### **Special Responsibilities**

Chief Executive Officer

Directorships held in other listed entities during the three years prior to the current period

None

#### David Fagan, Non-Executive Director (Independent) and Chair of Audit Committee

#### Experience

David was appointed to the Board in July 2017 as a Non-Executive Director. He is the chair of the Audit and Risk Committee. David was a commercial lawyer for over 40 years including over 30 years with Clayton Utz culminating in the role of Board Member and National Chief Executive Partner (2001 – 2010).

David holds Non-Executive Director roles in ASX listed Medibank Private Limited (ASX:MPL) (since 2014) including Chair of the Board Risk Management Committee and UBS Grocon Real Estate Investment Management (from March 2014 to December 2020). David is also a Chairman of BDO Group Holdings Limited. David has both a Bachelor and Master of Laws from University of Melbourne.

Directorships held in other listed entities during the three years prior to the current period

Medibank Private Limited (ASX:MPL)

#### (continued)

#### • Franck Neron-Bancel, Executive Director

#### **Directors' Meetings**

The table below sets out the number of meetings held during the 2022 financial year and the number of meetings attended by each Director. During the period, 10 Board meetings were held.

Director	Eligible to attend	Attended
lan Basser	9	9
Mark Samlal	9	9
David Fagan	9	9
Franck Neron-Bancel	9	9
Shane Gild	9	9

The Group has established Audit and Risk Committee and Remuneration committee, with all responsibility held and actions undertaken by the Board. This structure is reviewed annually by the Board.

#### **Operating & Financial Review**

#### **Principal Activities**

PayGroup Limited and its controlled entities (the Group) is headquartered in Melbourne, Australia.

The Group delivers mission critical payroll solutions and scalable Human Capital Management software to companies across over 82 countries.

The Group services the following sectors of the market:

Corporates - employees within multi-national companies as well as the small to medium enterprises

Workforce Management - contractors and contingent labour workforce

Franchises – staff on flexible rostering

The core activity of the Group is payroll, delivered through a combination of software and service, and includes the complex calculations of gross-to-net pay for employees, contractors and franchise staff across over 82 countries, as well as the mandatory lodgement of statutory information along with the payments of salaries and statutory monies directly associated with payroll.

Beyond payroll, the Group also delivers core and strategic HCM modules to all sectors of the market including onboarding, rostering, timesheets, leave management, expense management, talent management, learning and development, and most recently, to accommodate for Covid-19 work conditions, the inclusion of facial recognition and temperature checks.

The Group services over 2,800 clients across multiple industry sectors.

#### Financial performance

	FY22	FY21	FY22 vs FY21
	\$	\$	%
Operating revenue	\$26,232,825	\$15,627,285	68%
EBITDA	\$1,007,708	\$1,635,534	(38%)
Cash flow from operating activities	\$494,718	\$1,594,103	(69%)
Net profit (loss) after tax	(\$357,804)	(\$510,697)	30%
	FY22	FY21	FY22 vs FY21
	Cents per share	Cents per share	%
Earnings per share			
Basic earnings per share	(0.32)	(0.68)	53%
Diluted earnings per share	(0.32)	(0.68)	53%

PayGroup reported a net loss after tax for the year ended 31 March 2022 of \$357,804 against a net loss of \$510,697 in the prior comparable period.

Statutory revenue reported for the year was \$26.2 million. PayAsia (inclusive of TalentOz) and PayAsia Management contributed \$13 million (31 March 2021: \$8 million), AstuteOne contributed \$8.1 million (31 March 2021: \$7 million) and IWS contributed \$5.1 million (31 March 2021: nil).

(continued)

Reported statutory EBITDA of \$1 million for the year ended 31 March 2022 against EBITDA of \$1.6 million for the year ended 31 March 2021.

The statutory result includes one-off costs associated with the acquisitions of \$172K and one-off legal and advisory fees associated with the Astute performance earn-out and settlement as well as the Deel acquisition advisory fees

#### Statement of Financial Position

Cash on hand as at 31 March 2022 was \$6.2 million.

Uplift of \$14.4 million in intangible assets against the 31 March 2021 reported balance were mainly driven by \$13 million recognised as the fair value of the intangible assets acquired from the purchase of the IWS and remaining for the continued software productive development of the AstuteOne and HROnline SaaS platform.

#### Share Placement

PayGroup has issued 26.8 million new fully paid ordinary shares in the Company ("New Shares"). The Placement was completed in two tranches as follows:

- the issue of 20.3 million New Shares raised approximately \$11.4m under the Company's available ASX listing rule 7.1
  (12,071,619 shares) and 7.1A (8,228,381 shares) placement capacity, with settlement date on 9 April 2021 ("Tranche 1");
  and
- the issue of 6.5 million New Shares to raise approximately \$3.6 million, the shareholders approved the resolutions at a general meeting of the Company, held on 13 May 2021 ("Tranche 2").

New Shares have been issued under the Placement and will rank pari passu with existing shares in the Company.

PayGroup also offered a non-underwritten share purchase plan ("SPP") to existing, eligible shareholders. The SPP raised \$0.65 million with 1.16 million shares was allotted and issued on 5 May 2021.

#### **Acquisition of IWS**

PayGroup acquired 100% of the issued capital of Integrated Workforce Solutions Pty Ltd (IWS) effective 1 May 2021. IWS provides a leading cloud-based platform delivering rostering, payroll and accounting services specialising in solutions for the franchise sector in Australia and New Zealand. IWS's purpose built proprietary platform simplifies complex payroll administration and includes high margin modules for rostering, time and attendance, award interpretation, KPI and benchmarking tools, and bookkeeping. IWS has a large and captive client base of more than 1,000 customers, for which it processes in excess of 400,000 pay slips per annum. IWS has an established position as the provider for new franchise locations and preferred supplier to existing sites, and a customer retention rate in excess of 94%.

The total transaction consideration of \$12.5 million payable partially in cash (\$8.7m) and the balance in payable in PayGroup shares (\$3.8m). In addition to the total consideration, the Performance Earn-out is also payable based on the achievement of key performance metrics in FY22 and FY23 – based on minimum revenue targets (95% of \$6.2 million in FY22 and \$7.4 million in FY23) and minimum gross margin targets (70%) for each earn-out period (FY22 and FY23 to June year-end). The maximum Performance Earn-out is calculated at 10% of the Initial Consideration for each earn-out period. All shares issued in consideration for IWS will be subject to a 24-month escrow period.

The IWS Acquisition will expand PayGroup's offering into a new high-margin franchise vertical, strengthening the core payroll business, providing substantial cross-sell opportunities, and is expected to make a material contribution to PayGroup's annualised recurring revenue (ARR).

#### Acquisition of PayAsia Japan

PayGroup acquired 100% of the issued capital of FF Partners Co., Ltd (PayAsia Japan) effective 1 July 2021. FFP is headquartered in Tokyo (Japan) and provides the complex payroll and social insurance management services to organisations in Japan. The total transaction consideration of \$109k was paid partially in cash (\$60k) and the balance in payable in PayGroup shares (\$49k). FFP was an existing partner of PayAsia in Japan.

(continued)

#### Business Strategies, Prospects and Risks for the Future Financial Years

FY22 was a milestone year for PayGroup as we continued to deliver record financial performance. Throughout the year, PayGroup has continued to grow the scale of its core payroll business and now serves over 2800 enterprise clients, up from 2200 in FY21, with a 95% client retention rate and an average lifetime of 9 years. This has set a strong foundation for continued growth in FY23, as the Group maintains its focus on sustainable long-term revenue and earnings growth.

During the year, PayGroup expanded their product offering to the franchise and retail sector across APAC through the acquisition of Integrated Workforce Solutions (IWS). PayGroup has now completely integrated the IWS platform with its existing product suite, enabling the Group to expand its offering to the franchise and retail sectors and leverage PayGroup's existing international infrastructure to expand IWS reach to new international markets outside of Australia and New Zealand.

PayGroup has successfully begun to generate material revenues from both enterprise and payee monetisation streams. During the year, the Group launched Accessing Wages Earned, a financial well-being tool, which is expected to drive additional high margin revenue in FY23. The current labour market conditions are expected to drive an uptick in the number of payees, presenting opportunities for further growth.

The Global Partnership Program (GPP) contributed 31% of the new contracts signed in FY22. Throughout the year, the Company has invested in building the GPP through foundational investments in in-country partners and is now well positioned to serve its fast-growing customer base across 82 geographies. The GPP is a highly attractive stream of referrals and new contracts free of direct customer acquisition costs and discounted rates. As such, PayGroup expects higher GPP contribution margins from this sales channel, accelerating PayGroup's trajectory towards realising further operating leverage. Additionally, a number of large partners were added to the GPP network during the year with SD Worx being the most notable addition. PayGroup will serve SD Worx entire customer base in APAC using its existing infrastructure, strengthening the strong pipeline of opportunities.

In FY22, we achieved significant improvements in our cash flow position as we continued our trajectory towards achieving self-sustainability. PayGroup achieved net cash outflow of \$(0.2)m in 4Q FY22, down from \$(6.2)m in 1Q FY22, demonstrating a significant evolution in the Company's financial profile. Additionally, over the year PayGroup invested in enhancing its technology and platform capabilities. The Company is well positioned to deliver strong organic growth and accelerate its pathway to cash flow breakeven.

#### Significant changes in the state of affairs

The Group successfully completed institutional placement of shares for \$15 million in April and May along with \$0.65 million raised in share purchase plan ("SPP") to existing eligible shareholders.

Apart from the matters referred to above and within the subsequent event note, there were no other significant changes in the state of affairs of the Group other than that referred to in the financial statements or notes thereto.

#### **Subsequent Events**

On Thursday, 23 June 2022, PayGroup announced that it has entered into a Scheme Implementation Agreement ("SIA") with leading global compliance and payroll company, Deel, and Deel Australia, to acquire 100% of the ordinary shares in PayGroup by way of a scheme of arrangement for cash consideration of A\$1.00 per PayGroup share. Following consideration of the terms of the offer, including its view of the intrinsic value of PayGroup and the certainty for shareholders of the all-cash offer, the Board unanimously recommends that PayGroup shareholders vote in favour of the Scheme.

Additionally, on Friday, 24 June 2022, 1,205,643 options exercisable at \$1.10 expiring on 14 July 2023 and 1,205,643 options exercisable at \$1.20 expiring on 14 July 2023 were cancelled.

There has been no other matters or circumstances that have arisen since the end of the financial period, that has significantly affected, or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

#### **Environmental Factors**

PayGroup is not subject to any significant environmental regulation under Australian Commonwealth or State law. PayGroup recognises its obligations to its stakeholders (customers, shareholders, employees and the community) to operate in a way that minimises the impact it has on the environment.

#### **Dividends**

No dividends were paid during the year ended 31 March 2022 and 31 March 2021.

(continued)

#### Indemnification of Directors, Officers and Auditors

The Directors of PayGroup Limited are indemnified against liabilities pursuant to agreements with PayGroup Limited. PayGroup Limited has entered into insurance contracts with a third-party insurance provider, in accordance with normal commercial practices. Under the terms of the insurance contract, the nature of the liabilities insured against and the amount of premiums paid are confidential. The Group is not aware of any liability that arose under these indemnities as at the date of this report.

During or since the end of financial year, the Group has not indemnified or made a relevant agreement to indemnify the auditor against a liability incurred as auditor.

#### **Proceedings on Behalf of Company**

No person has applied for leave of court to bring proceedings on behalf of the company or intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

The company was not a party to any such proceedings during the period.

#### Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on the following pages.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

lan Basser Chairman 30 June 2022

Melbourne

This remuneration report provides details of PayGroup's remuneration policy and practice for Key Management Personnel (KMP) for the year ended 31 March 2022. The information presented in this report has been audited as required under section 308(3C) of the Corporations Act 2001 and forms part of the Director's report.

#### **Remuneration Policy**

The Directors present the consolidated entity's 2022 audited remuneration report which details the remuneration information for PayGroup Limited's executive directors, non-executive directors, and other key management personnel.

For the purposes of this report, Key Management Personnel (KMP) are defined as those persons having authority and responsibility for planning, directing, and controlling the major activities of the business, directly or indirectly, as an executive.

The names and positions of KMP in the Group during the whole of the financial year unless otherwise stated are:

KMP	Position	Term as KMP
Executive Directors (ED)		
Mark Samlal	Managing Director and Chief Executive Officer (CEO)	Full year
Franck Neron-Bancel	Chief Strategy Officer	Full year
Non-executive Directors (NED)		
lan Basser	Non-executive Chairman	Full year
David Fagan	Non-executive Director	Full year
Shane Gild	Non-executive Director	Full year
Executive		
Elise Nguyen	Chief Financial Officer	Full year

#### Principles used to determine nature and amount of remuneration

The Directors agreed that, due to the size and structure of the Group and Board, that remuneration responsibility would be held by the

An annual review will be undertaken by the Board with changes made as deemed appropriate to the size, structure and needs of the Group.

The Board can obtain professional advice where necessary to ensure that the Group attracts and retains talented and motivated directors and employees who can enhance performance through their contribution and leadership. During the year, the Board has engaged Korn Ferry to review the remuneration structure for KMP. The Group paid a consulting fee of \$34,608 to Korn Ferry for the remuneration review, there were no other services provided by Korn Ferry. The board is satisfied that the remuneration recommendation was free from any undue influence of the KMPs.

The guiding principles for determining the nature and amount of remuneration for KMP of the Group is as follows:

- remuneration should include an appropriate mix of fixed and performance-based components,
- components of remuneration should be understandable, transparent, and easy to communicate; and
- Remuneration Committee / Board to review KMP packages annually by reference to the Group's performance, executive
  performance and comparable information from industry sectors.

The Board sets out to link remuneration polices with the achievement of financial and personal objectives.

Results from the renumeration benchmark and framework study were reviewed by the Board confirming that PayGroup's employees are paid within the industry spread for their role, responsibility, and seniority relative to the country with which they are employed in.

#### **Group financial performance**

FY 22 results demonstrates the Group's ability to grow without compromising cash or margins.

The table below summarises the Company's financial performance over past three financial years:

	FY22	FY21	FY20
	\$m	\$m	\$m
Operating revenue	26.2	15.6	10.2
EBITDA	1.0	1.6	(0.6)
Cash flow from operating activities	0.5	1.6	0.6
Net profit loss after tax	(0.4)	(0.5)	(0.5)

	FY22	FY21	FY20
	Cents per share	Cents per share	Cents per share
Earnings per share			
Basic earnings per share	(0.32)	(0.68)	(3.57)
Diluted earnings per share	(0.32)	(0.68)	(3.57)

The Group has broadly retained the remuneration structure as outlined in the prospectus for the Directors.

#### Components of remuneration

Performance measurement	The executive directors and other KMP are remunerated based upon market value of the position and the range of skills and experience they bring to the Group and, it is split between fixed and performance linked remuneration.							
Remuneration components	Base salary	Performance linked renumeration	Directors' fee					
	Fixed remuneration will consist of base remuneration and employer contributions to superannuation /or its equivalent in other jurisdictions.	Performance linked renumeration consists of Short-term Incentives (STI) and Long-term Incentives (LTI) via Employee Share Plan with key performance metrics tied to group objectives.	Non-executive directors are remunerated with fees within the aggregate limit as approved by shareholders, noted as follows:  lan Basser- \$100,000 David Fagan- \$85,000 Shane Gild- \$70,000					

#### **Employee Share plan**

On 30 June 2021, 181,272 shares at fair value of \$45,318 (\$0.25 per share) were issued to director Shane Gild under an employee share plan. A limited recourse loan was provided to allow the employee to purchase the Plan Shares at the Company's Offering price of \$0.615 per share, pursuant to the terms of the loan agreement. The Plan aims to recognise long-term performance by rewarding the Directors and key management with Performance Shares which will allow them to share in the growth in value of the Company. The Plan Shares are subject to voluntary escrow conditions of 24 months from date of issues and vest on issue.

The fair value of share-based payment transactions was determined using a Black Scholes pricing model. The model requires certain inputs in order to determine an appropriate fair value. These inputs include share price at grant date, risk free rate, volatility factor, exercise price, time to maturity and expected dividend yield.

The above fair value calculation was based upon the following inputs:

Share price at grant date	\$0.45
Risk free rate	2.85%
Volatility factor	75%
Exercise price	\$0.615
Time to maturity	5 years
Expected dividend yield	0%

Cash and cash equivalents at end of the year <sup>(1)</sup>	6,172,714	3,096,029

The consolidated statement of cash flows should be read in conjunction with the accompanying notes.

<sup>(1)</sup> The cash and cash equivalents disclosed above do not include \$19,139,930 (31 March 2021: \$8,888,009) which are held in separate bank accounts held by the Group. These client monies are restricted for the purpose of payment of salaries to their employees, as part of payroll processing services and are therefore not available for general use by the Group. Refer to note 7c for the corresponding liability account. The client money is not included in the statement of cash flows.

## For the year ended 31 March 2022

#### Note 1. Nature of operations

PayGroup Limited and its controlled entities (the Group) is headquartered in Melbourne, Australia.

The Group delivers mission critical payroll solutions and scalable Human Capital Management software to companies across over 82 countries.

The Group services the following sectors of the market:

- Corporates employees within multi-national companies as well as the small to medium enterprises
- Workforce Management contractors and contingent labour workforce
- Franchises staff on flexible rostering

The core activity of the Group is payroll, delivered through a combination of software and service, and includes the complex calculations of gross-to-net pay for employees, contractors and franchise staff across over 82 countries, as well as the mandatory lodgement of statutory information along with the payments of salaries and statutory monies directly associated with payroll.

Beyond payroll, the Group also delivers core and strategic HCM modules to all sectors of the market including onboarding, rostering, timesheets, leave management, expense management, talent management, learning and development, and most recently, to accommodate for Covid-19 work conditions, the inclusion of facial recognition and temperature checks.

The Group services over 2,800 clients across multiple industry sectors.

#### Note 2. General information and basis of preparation

#### Introduction

The consolidated financial statements of the Group are for the year ended 31 March 2022 and are presented in Australian Dollars (\$AUD), which is the functional currency of the parent company. PayGroup is a company limited by shares whose shares are traded on the Australian Securities Exchange (ASX). PayGroup is incorporated and domiciled in Australia.

#### Principles of consolidation

The consolidated financial report incorporates the assets and liabilities of all subsidiaries of PayGroup Ltd ('Group' or 'parent entity') as at 31 March 2022. PayGroup Ltd and its subsidiaries together are referred to in this financial report as the 'Group'.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the assets transferred. Accounting policies of the subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

#### Basis of preparation

PayGroup Limited (the 'Company') is a for profit company domiciled in Australia. The full year financial report is a general purpose financial report comprising the Company and its subsidiaries (collectively referred to as the 'Group' or 'PayGroup') for the year ended 31 March 2022. The full year financial statements:

- have been prepared in accordance with the Corporations Act 2001 (Cth), Australian Accounting Standards and interpretations, and International Financial Reporting Standards (IFRS);
- were authorised for issue by the Directors on 30 June 2022;
- have been prepared on a historical cost basis, except for derivative financial instruments and investments in financial assets which have been measured at fair value; and
- have all amounts presented in Australian dollars, unless otherwise stated.

For the year ended 31 March 2022

#### New standards adopted as at 1 April 2021

In the current period, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for annual reporting periods commencing on or after 1 April 2021 including the following:

- AASB 2020-8 Amendments to Australian Accounting Standards Interest rate benchmark reform – Phase 2
- AASB 2021-4 Amendments to Australian Accounting Standards COVID-19 related rent concessions

None of these standards have had a material impact on the Group in the current period and are not expected to have a material impact in future reporting periods or on foreseeable future transactions.

#### Standards in issue but not yet effective

At the date of authorisation of the financial report, the following new accounting standards, amendments and interpretations have been published that are not mandatory for 31 March 2022 reporting periods and have not yet been applied by the Group within this financial report:

- AASB 2014-10 Consolidated Financial Statements and AASB 128 Investments in Associates (amendments)
   Sale or contribution of assets between an investor and its associate or joint venture
- AASB 2020-1 Amendments to Australian Accounting Standards Classification of liabilities as current or non-current
- AASB 2020-2 Amendments to Australian Accounting Standards
   Disclosure of Accounting Policies and Definition of Accounting Estimates
- AASB 2020-3 Amendments to Australian Accounting Standards Annual improvements 2018-2020 and other amendments

The Group does not believe these new accounting standards, amendments and interpretations will have a material impact on the financial statements of the Group in future periods.

#### Critical accounting judgements, estimates and assumptions

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

In the process of applying the Group's accounting policies, the Group is of the opinion that there are no instances of application of judgement which are expected to have a significant effect on the amounts recognised in the financial report, except from those involving estimate and as follows:

Capitalisation of intangibles

Costs directly attributable to the development of computer software are capitalised as intangible assets when the Group judges that the technical feasibility of the project is demonstrated, the Group has the intention and ability to complete and use the software and the cost can be measured reliably. Such costs include purchases of materials and services and payroll related costs of employees directly involved in the project. Research costs are recognised as an expense when incurred.

Determination of functional currency of the entities in the Group

The effects of changes in foreign exchange rates requires the company and the entities in the Group to determine its functional currency to prepare the financial statements. When determining its functional currency, the company and the entities in the Group consider the primary economic environment in which it operates, i.e., the one in which it primarily generates and expends cash. The company and the entities in the Group may also consider the funding sources. Management applied its judgment and determined that the functional currency of the company is Australian dollars.

The Group believes that there are no key assumptions made concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, except as disclosed within the notes to the financial statements.

## For the year ended 31 March 2022

#### Note 3. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial information are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### a. Going concern

In preparing the financial report, the Directors have made an assessment of the ability of the Group to continue as a going concern, which contemplates the continuity of business operations, realisation of assets and settlement of liabilities in the ordinary course of business and at the amounts stated in the financial report.

The Directors have a reasonable expectation that the Group will have adequate resources to continue to meet its obligations as they fall due.

#### b. Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

#### Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value are used, maximising the use of relevant observable inputs, and minimising the use of unobservable inputs.

#### d. Financial instruments

#### Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

#### Subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets, other than those designated and effective as hedging instruments, are classified into the following four categories:

- 1. Financial assets at amortised cost
- 2. Financial assets at fair value through profit or loss (FVTPL)
- 3. Debt instruments at fair value through other comprehensive income (FVTOCI)
- 4. Equity instruments at FVTOCI

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented separately.

#### Trade and other receivables

The Group makes use of a simplified approach in accounting for trade and other receivables and records the loss allowance at the amount equal to the expected lifetime credit losses. In using this practical expedient, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses.

#### Classification and measurement of financial liabilities

The Group's financial liabilities include borrowings, leases, trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at fair value through profit or loss.

## For the year ended 31 March 2022

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for financial liabilities designated at FVPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

#### e. Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition date fair values of the asset transferred, equity instruments issued, all liabilities incurred by the acquirer to former owners of the acquiree and the amounts of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss. Payment of acquisition-related transaction costs to be classified under the cash flows used in investing activities in the consolidated statement of cash flows. The group has been previously presenting these costs under operating cash flows. The comparative period balances have been reclassified to conform with the current period presentation.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition date.

Where a business combination is achieved in stages, the Group remeasures its previously held equity interest in the acquiree at the acquisition date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquiree.

#### f. Goods and Services Tax (GST) and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

#### g. Foreign currency translation

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in the statement of profit or loss.

The results and financial position of all the Group entities are translated into Australian dollars (AUD) as follows:

- Assets and liabilities are translated at the closing rates at the date of the statement of financial position.
- Income and expenses are translated at average rates for the year, which approximates the exchange rates at the dates
  of the transactions.
- All resulting exchange differences are recognised in a separate component of equity as foreign currency translation reserve.

On aggregation, currency translation differences arising from the net investment in foreign operations are taken to the currency translation reserve.

# For the year ended 31 March 2022

#### Note 4. Segment reporting

- An operating segment is a component of an entity that engages in business activities from which it may earn revenue and incur expenses, whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker (CODM) in order to effectively allocate Company resources and assess performance.
- The Group has 3 reportable segments: PayAsia, Astute and IWS. In identifying its operating segments, management follows the b) geographical and revenue lines generated under each segment. Each segment performs the following main revenue activities:
  - PayAsia (including TalentOz) delivers predominantly SwaS payroll solutions and HCM platform as well as payroll Treasury, Lodgement and other payroll related services globally. Most of its business is delivered in the APAC region. PayrollHQ provides a full suite of SwaS payroll outsourcing services for its clients across Australia and New Zealand. Payroll HQ was considered as a separate segment as disclosed in the 31 March 2021 annual report. For the year ended 31 March 2022, PayrollHQ was aggregated with PayAsia segment due to similarity in services offered, processing solutions and customer base.
  - Astute provides SaaS payroll and workforce management solutions to Australian and New Zealand clients.
  - IWS provides a leading cloud-based platform delivering rostering, payroll and accounting services specialising in solutions for the franchise sector in Australia and New Zealand.

iv. Segment liabilities		
Total reportable segment liabilities	37,503,447	22,268,111
Corporate <sup>(1)</sup> liabilities	607,366	1,490,397
Elimination and consolidation adjustments	(8,036,682)	(5,420,132)
Total liabilities	30,074,131	18,338,376

<sup>(1)</sup> Comprises of centrally managed costs, assets and liabilities relating to group employee benefits expense, professional and consultancy charges, intangibles, and tax.

#### e) Geographical information:

Revenue from external customers is attributed to geographic location based on the location of customers. The revenue from external customers and non-current assets by geographical location for the year ended 31 March 2022 and 31 March 2021 is set out below;

	2022	2021	2022	2021
	Revenue (\$)	Revenue (\$)	Non-current assets (\$)	Non-current assets (\$)
Australia and New Zealand	15,651,202	7,646,724	31,929,897	16,505,525
Asia	10,581,623	7,980,561	6,002,895	5,613,190
	26,232,825	15,627,285	37,932,792	22,118,715

#### For the year ended 31 March 2022

#### Note 5. Revenue

#### Recognition and measurement

Revenue arises mainly from the sale of outsourced payroll services and workforce management services.

To determine whether to recognise revenue, the Group follows a five-step process:

- a. Identifying the contract with a customer
- b. Identifying the performance obligations
- c. Determining the transaction price
- d. Allocating the transaction price to the performance obligations
- e. Recognising revenue when/as performance obligation(s) are satisfied.

The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as contract liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

#### Implementation Revenue

As part of sale of an outsourced payroll services contract, the Group will invoice for an implementation fee. Typically, the outsourced payroll services contract will be for a period of three years post implementation. The implementation is deemed an unsatisfied service obligation with the satisfaction completed during the term of the contract. On this basis, the invoiced implementation fee is initially recognised in the balance sheet as a contract liability and then recognised in profit and loss over the term of the contract.

#### Payroll Services

The Group provides comprehensive payroll services to its clients, which include the complex calculations of gross-to-net payroll, the calculation of statutory elements of payroll, the lodgement of all mandatory statutory elements related to payroll, as well as the payments related to payroll including salaries and various pension funds. These services are provided by a dedicated team of operational executives of the Group who use multiple payroll engines to produce the pay calculations and the reports on a weekly, fortnightly, and monthly basis. The Group provides all payroll services based on a per payslip fee. Each client is invoiced on a weekly, fortnightly, or monthly basis depending on the contract terms, and the fee is a calculation of the total payslips produced for that client for that billing period. The per payslip fee is a recurring fee from each client and forms part of the revenue recognition upon delivery of the service. There are certain activities which are country specific but all of these form part of the regular and recurring invoicing. All costs associated with the delivery of these payroll services are taken into account when deriving the per payslip fee to each client.

#### SaaS (Software-as-a-Service) revenue

The Group provides its proprietary software solutions, including payroll, onboarding, rostering, timesheets, invoicing, talent management, performance management, learning and development, facial recognition, temperature checks, and others, (herein termed "HCM modules") to its clients. The provision of this service is through a subscription of licence to the software for one or multiple HCM modules. The clients access the Group's software directly. The Group charges a user-based subscription fee, usually invoiced on a monthly basis, and revenue is recognized on delivery of the service. The Group maintains and supports the software and provides support and maintenance as part of its service to clients. Any customisation work required by clients is also supported by the Group and charged separately as a fixed fee, calculated through an estimation of time required to carry out the customisation. This is agreed in advance with each client and forms part of the contract terms.

#### Interest

Interest income is recognised as interest accrues using the effective interest rate method.

#### Government grants

Grants from the government are recognised as a receivable at the fair value when there is reasonable assurance that the grant will be received, and the Group will comply with all the attached conditions.

Government grants receivable are recognised as income over the period necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income. Government grant income included within other income do not include employment-related government grants, these government grants are deducted against employee benefits expense.

Government grants relating to assets are deducted against the carrying amount of the assets.

## For the year ended 31 March 2022

#### Revenue from continuing operations (1)

	2022	2021
	\$	\$
Payroll services	17,908,428	8,497,363
SaaS (Software-as-a-Service) revenue	8,324,397	7,129,922
	26,232,825	15,627,285

<sup>(1)</sup> Revenue from continuing operations is recognized over the period-of-time.

#### Other income

	2022	2021
	\$	\$
Government grant income (1)	250,969	474,583
Gain on fair value adjustment of contingent consideration (2)	551,031	35,144
Other (3)	136,517	74,347
	938,517	584,074

<sup>(1)</sup> Government grant income included within other income do not include employment-related government grants of \$557,651 (31 March 2021: \$1,165,538) which are deducted against the employee benefit expenses. Government grant income also excludes R&D Government Grants of \$451,681 which are offset against the capitalised R&D costs recorded under intangible assets.

#### Contract assets

	2022	2021
	\$	\$
Current		
Contract assets – Deferred customer set-up costs	985,245	486,919
Non-Current		
Contract assets – Deferred customer set-up costs	1,681,144	1,131,721

The contract assets relate primarily to the cost of activities to implement an outsourced payroll services contract but do not result in a transfer of services to the customer. The entity accounts for the initial setup / implementation costs such as costs of the design, migration and testing of technology platform. This resulting asset will be amortised on a systematic basis over the expected average life of the contract period. The entity expects to provide services relating to the technology platform.

#### Contract liabilities

	2022	2021
	\$	\$
Current		
Contract liabilities – advances received	808,724	350,098
Non-Current		
Contract liabilities – advances received	1,257,812	644,971

The contract liabilities primarily relate to the advanced consideration received as initial set up fees from first time customers. Revenue is recognised on a systematic basis over the expected average life of the contract period.

<sup>(2)</sup> Contingent purchase consideration payable pursuant to IWS and PayrollHQ's acquisition were revalued at period end based on their fair value of PYG shares resulting fair value adjustment of \$551,031 (31 March 2021: \$35,144) recorded under other income.

<sup>(3)</sup> Other income in prior year ended 31 March 2021 includes rent concessions of \$62,368 obtained from the landlord, in response to the COVID-19 pandemic. The forgiveness of rent is unconditional and qualifies to be accounted using the practical expedient available in AASB 16 Leases. In applying the practical expedient, the Group recognised this forgiveness of rent as a negative variable lease payment in the consolidated statement of Profit and Loss.

## For the year ended 31 March 2022

### Note 6. Income Tax Expense

#### Recognition and measurement

The income tax expense for the period comprises current tax expense and deferred tax expense.

#### Current tax

Current tax assets/liabilities are measured at the amounts expected to be recovered/to be paid to/from the relevant taxation authority.

PayGroup Ltd and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

#### Deferred tax

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well as unused tax losses.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. With respect to non-depreciable items of property, plant and equipment measured at fair value and items of investment property measured at fair value, the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of the asset will be recovered entirely through sale.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

#### Offsetting balances

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (i) a legally enforceable right of set-off exists; and (ii) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

## Research and development tax incentive

For the year ended 31 March 2021 a research and development tax incentive (R&D claim) was claimed for the first time. This was a refundable R&D claim that was received in cash during the year ended 31 March 2022. This has been accounted for as a government grant with the amount received credited to intangible assets in the year ended 31 March 2022 as this is where the related expenditure was accounted for in year ended 31 March 2021.

For the year ended 31 March 2022 a research and development tax incentive (R&D claim) was also claimed. This is a non-refundable R&D claim that increases the amount of available tax losses. This has been accounted for as income tax.

### Reconciliation of income tax expense to prima facie tax payable

	2022	2021
	\$	\$
Loss from continuing operations before income tax expense	1,910,936	759,081
Prima facie domestic effective tax rate of 25% (2021: 26%)	(477,734)	(197,361)
Adjustment for tax-rate differences in foreign jurisdictions	(411,357)	132,807
(Over)/under-provision of tax in prior year	184,713	(54,970)
Tax effect of amounts which are not deductible/(taxable) in calculating taxable income:		
Other non-deductible expenses	508,306	(2,301,172)
Withholding Tax	-	\$2,603
Prior period tax losses brought to account	(1,684,350)	-
Current period tax losses not recognised	327,290	2,169,709
Income tax (benefit)/expense	(1,553,132)	(248,384)

## For the year ended 31 March 2022

The carry forward losses include capital losses of \$12.3 million within Australia, and revenue losses of \$5.9 million and \$2.7 million within Australia and Singapore jurisdictions, respectively.

Based on the future profitability and expected utilization of carried forward losses, the directors' have formed an opinion to recognize the deferred tax assets on revenue losses. The business will be in a position to satisfy the criteria for recognising these losses as a deferred tax asset. These losses remain available for the Group to use in the future. The directors on a regular basis will assess the recognition of the deferred tax assets.

The benefits of deferred tax losses not brought to account can only be realised in the future if:

- assessable income is derived of a nature, and of an amount sufficient to enable the benefit from the deductions to be realized
- conditions for deductibility imposed by law are complied with; and
- no changes in tax legislation adversely affect the realisation of the benefit from the deductions.

### Franking credits

	2022	2021
	\$	\$
Franked dividends	-	-
Franking credits available for subsequent financial years based on a tax rate of 25%	7,250	7,250
	7,250	7,250

### Key estimate and judgment: Taxation

The Group has exposure to income taxes in the countries where it operates. Significant judgment is involved in determining the Group provision for income taxes. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provision in the financial year in which the determination is made.

### AASB Interpretation 23: Uncertainty over income tax treatments

AASB Interpretation 23 clarifies the application of recognition and measurement requirements of AASB 112: Income Taxes where there is uncertainty over income tax treatments. The Interpretation specifically addresses:

- Whether an entity considers uncertain tax treatments collectively or separately;
- That the entity should assume a tax authority will examine the uncertain tax treatments and have full knowledge of all relevant information:
- That the entity should reflect the uncertainty in its accounts where it concludes that it is not probable that the tax authorities will
  accept the treatment adopted;
- That the impact of the uncertainty should be measured using either the most likely amount or the expected value method, depending on which method best predicts the resolution of the uncertainty; and
- That the judgements and estimates must be re-assessed whenever there is a change in circumstance or new information that affects the judgements.

The Group has assessed the impact of AASB Interpretation 23 on the financial statements. The assessment concluded that the Interpretation did not have a material impact on the financial statements.

#### Note 7. Financial assets and financial liabilities

This note provides information about the group's financial instruments, including:

- an overview of all financial instruments held by the group
- specific information about each type of financial instrument
- accounting policies
- information about determining the fair value of the instruments, including judgements and estimation uncertainty involved.

The group's exposure to various risks associated with the financial instruments is discussed in note 13. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets mentioned below.

For the year ended 31 March 2022

### (a) Cash and cash equivalents

#### Recognition and measurement

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand, deposits with financial institutions which are subject to an insignificant risk of change in value, and bank overdrafts. Bank overdrafts are presented as current borrowings on the balance sheet. For cash subjected to restriction, assessment is made on the economic substance of the restriction and whether they meet the definition of cash and cash equivalents.

	2022	2021
	\$	\$
Cash at bank	6,170,852	3,220,652
Cash on hand	1,862	3,071
Unrestricted cash and cash equivalents	6,172,714	3,223,723
Clients' monies*	19,139,930	8,888,009
	25,312,644	12,111,732

<sup>\*</sup>The cash and cash equivalents disclosed above include \$19,139,930 (31 March 2021: \$8,888,009) which are held in separate bank accounts held by the Group. These client monies are restricted for the purpose of payment of salaries to their employees, as part of payroll processing services and are therefore not available for general use by the Group. Refer to note 7c for the corresponding liability account. The client money is not included in the statement of cash flows.

#### (b) Trade and other receivables

#### Recognition and measurement

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months after the reporting period are classified as current assets. All other receivables are classified as non-current assets. Trade and other receivables are recognised when the Group becomes party to a contractual provision. They are derecognised when the contractual rights to the cash flows from the financial assets expire, or when the financial asset and substantially all the risks and rewards are transferred. Trade and other receivables are subsequently measured at amortised cost using the effective interest rate method, less any loss allowance.

The Group makes use of a simplified approach in accounting for trade and other receivables and records a loss allowance at the amount equal to the expected lifetime credit losses. In using this practical expedient, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses.

### Key estimate and judgment: Trade receivable loss allowance

The Group evaluates whether there is any objective evidence in relation to historical experience, external indicators and forward-looking indicators that indicate a loss allowance is required and determines an appropriate loss allowance. If the financial condition of the customers were to deteriorate over and above the objective evidence obtained, actual write offs would be higher than estimated.

	2022	2021
	\$	\$
CURRENT		
Trade receivables	3,755,392	2,876,984
Less: allowance for credit losses	(11,385)	(111,104)
	3,744,007	2,765,880
Non-trade receivables	-	599,768
Less: Impairment of non-trade receivables	-	(599,768)
Other receivables	894,182	117,603
	4,638,189	2,883,483
NON-CURRENT		
Other receivables	844,682	473,928
	844,682	473,928

### Impairment and risk exposure

The Group applies the AASB 9 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component. In measuring the expected credit losses, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due and also according to the geographical location of customers. The expected loss rates are based on the historical payment profile as well as the corresponding historical credit losses during that period. The historical rates are adjusted to reflect current and forwarding looking macroeconomic factors affecting the customer's ability to settle the amount outstanding. Contract assets were considered for impairment testing as part of the trade and other receivables.

The group has identified gross domestic product (GDP) and unemployment rates of the countries in which the customers are domiciled to be the most relevant factors and accordingly adjusts historical loss rates for expected changes in these factors. However, given the

## For the year ended 31 March 2022

short period exposed to credit risk, the impact of these macroeconomic factors has not been considered significant within the reporting period.

Information about the impairment of trade receivables and the group's exposure to credit risk are tabled below:

#### Past due loans and receivables

	2022	2021
	\$	\$
Past due under 30 days	800,534	494,376
Past due 30 days to under 60 days	89,673	67,503
Past due 60 days to under 90 days	19,138	46,871
Past due 90 days and over	193,602	383,647
Total past due loans and receivables	1,102,947	992,397
Total loans and receivables	5,494,256	3,468,515
Expected credit loss per the allowance for impairment matrix	11,385	111,104
Expected credit loss (%), net	0.2%	3.2%

### Reconciliation of allowance for impairment

## For the year ended 31 March 2022

#### Note 8. Non-financial assets and liabilities

This note provides information about the group's non-financial assets and liabilities, including:

- · specific information about each type of non-financial asset and non-financial liability
  - property, plant and equipment (note 8(a))
  - intangible asset (note 8(b))
  - deferred tax balances (note 8(c))
  - provisions and employee benefit obligations (note 8(d))
- · accounting policies
- · information about determining the fair value of the assets and liabilities, including judgements and estimation uncertainty involved.

#### (a) Property, plant and equipment

#### Recognition and measurement

Plant & equipment are stated at cost, less accumulated depreciation and provision for impairments. Depreciation is calculated on a straight-line basis so as to write off the cost over their expected useful lives. The estimated useful lives are as follows:

Leasehold improvements 5 years or shorter of lease term

Renovation 3 years
Furniture & fittings 3 years
Office equipment 3 - 10 years
Computers 3 years

Fully depreciated plant & equipment are retained in the financial statements until they are no longer in use. The residual values and useful lives of plant & equipment are reviewed at the end of each financial year end and adjusted prospectively, if appropriate. Plant and equipment are tested for impairment whenever there is any objective evidence or indication that these assets maybe impaired.

### Impairment of assets

Plant and equipment are reviewed for impairment wherever there is any indication that these assets may be impaired. If any such indication exists, the recoverable amount (i.e., the higher of the fair value less costs to sell and value in use) of the asset is estimated to determine the amount of impairment loss.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of the asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount.

The impairment loss is recognised in the statement of profit or loss.

An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimate used to determine the assets recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in the statement of profit or loss.

### Key estimation uncertainty: Depreciation

Plant and equipment are depreciated and amortised on a straight-line basis over the estimated useful lives, after taking into account the estimated residual value. The Group reviews the estimated useful lives of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. Any changes in the economic useful lives or residual values could impact the depreciation charges and consequently affect the Group's results.

### Key estimation uncertainty: Impairment of non-financial assets

Plant and equipment are tested for impairment whenever there is any objective evidence or indication that these assets maybe impaired.

The recoverable amount of these assets and, where applicable, cash generating units, have been determined based on value in use calculations. These calculations require the use of estimates. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash generating unit (or group of cash generating units) and also to use many estimates and assumptions such as future market growth, forecast revenue and costs, useful lives and utilisation of the assets, discount rates and other factors.

### (b) Intangible assets

### Recognition and measurement

Intangible assets include the Group's aggregate amount spent on the acquisition of computer software and development costs. Intangible assets with finite useful lives are measured at cost less accumulated amortisation and impairment losses. They are amortised in the profit or loss on a straight-line basis over their estimated useful lives. The Group has adopted an estimated useful life ranging between 5 - 10 years. The useful life is measured from the date on which they are available for use.

Intangible assets with indefinite useful lives are not amortised and are measured at cost less impairment losses.

The useful life is determined by management at the time the software is acquired and brought into use and is regularly reviewed for appropriateness. For computer software licences, the useful life represents management's view of the expected term over which the Group will receive benefits from the software, but not exceeding the licence term. For unique software products controlled by the Group, the life is based on historical experience with similar products as well as anticipation of future events which may impact their life such as changes in technology. Historically changes in useful lives have not resulted in material changes to the Group's amortisation charge.

#### Goodwill

Goodwill on acquisition of subsidiaries or businesses is included in intangible assets.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- i) the consideration transferred;
- ii) any non-controlling interest (determined under either the full goodwill or proportionate interest method); and
- the acquisition date fair value of any previously held equity interest; over the acquisition date fair value of net identifiable assets acquired.

Goodwill and intangible assets with an indefinite useful life are tested for impairment annually and are allocated to the Group's cashgenerating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored and not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of.

### Impairment of assets

Intangibles are reviewed for impairment wherever there is any indication that these assets may be impaired. If any such indication exists, the recoverable amount (i.e., the higher of the fair value less costs to sell and value in use) of the asset is estimated to determine the amount of impairment loss.

## For the year ended 31 March 2022

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of the asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount.

The impairment loss is recognised in the statement of profit or loss.

An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimate used to determine the assets recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in the statement of profit or loss.

### Critical accounting estimates: Capitalisation of intangibles

Costs directly attributable to the development of computer software are capitalised as intangible assets when the Group judges that the technical feasibility of the project is demonstrated, the Group has the intention and ability to complete and use the software and the cost can be measured reliably. Such costs include purchases of materials and services and payroll related costs of employees directly involved in the project. Research costs are recognised as an expense when incurred.

#### Key estimation uncertainty: Amortisation

Intangibles are depreciated and amortised on a straight-line basis over the estimated useful lives, after taking into account the estimated residual value. Changes in the expected level of use and technological developments could impact the economic useful lives and the residual values of these asset, therefore future amortisation charges could be revised.

### Key estimation uncertainty: Impairment of non-financial assets

Intangibles are tested for impairment whenever there is any objective evidence or indication that these assets maybe impaired.

The recoverable amount of these assets and, where applicable, cash generating units, have been determined based on value in use calculations. These calculations require the use of estimates. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash generating unit (or group of cash generating units) and also to use many estimates and assumptions such as future market growth, forecast revenue and costs, useful lives and utilisation of the assets, discount rates and other factors.

Non-refundable carry forward R&D tax offsets	342,829	-
Others	275,688	-
Deferred tax asset/(liability)	1,190,457	77,071

The deferred tax assets are recognized within Australia, Singapore, and India jurisdictions where effective tax rates are 25%, 17% and 30%, respectively.

#### (d) Provisions

### Recognition and measurement

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

As at the reporting date, there were no material claims or disputes of a contingent nature against the Group and its subsidiaries.

### Employee benefit obligations

The current portion of this liability includes all of the accrued annual leave and the unconditional entitlements to long service leave where employees have completed the required period of service.

### Defined contribution plan

The Group contributes to the statutory provident fund as per Pay Asia Management Pvt Ltd's Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and Employee's State Insurance Scheme as per the Employees' State Insurance Act, 1948.

Gratuity

Gratuity is a post-employment benefit and is a defined benefit plan taken up in Pay Asia Management Pvt Ltd. The liability recognised in the Balance Sheet represents the present value of the defined benefit obligation at the Balance Sheet date less the fair value of plan assets (if any), together with adjustment for unrecognised actuarial gains or losses and past service costs. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the plan. Independent actuaries using the Projected unit credit method calculate the defined benefit obligation annually.

Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the Other Comprehensive Income in the year in which such gains or losses arises.

### Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

#### Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured as the present value of expected future payments to be made in respect of services provided by the employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

## For the year ended 31 March 2022

#### Note 9. Goodwill

In accordance with the accounting standard AASB 136 Impairment of Assets, the Group has conducted a review of indicators of impairment during the year for each of the cash generating units (CGUs) to which goodwill has been allocated.

Goodwill is tested for impairment annually or more frequently whenever indicators of impairment are identified. In testing for impairment, the carrying amount of each Cash Generating Unit (CGU) is compared against the recoverable amount.

For each CGU tested, the recoverable amount has been calculated based on the value in use, using a discounted cash flow (DCF) approach. The DCF uses post-tax cash flow projections that are based on the most recent forecast of 5 years updated for current performance and is discounted at an appropriate pre-tax discount rate taking into account the Group's weighted average cost of capital adjusted for any risks specific to the CGU.

Terminal growth rates applied in the DCF are based on estimates of long-term Industry growth in the country in which the CGU primarily operates.

The allocation of goodwill to each cash generating unit and assumptions applied in calculating the recoverable amounts of the goodwill in testing for impairment are as follows:

	Allocated 0	Allocated Goodwill		ount rate	Long term growth rate	
	2022	2021	2022	2021	2022	2021
		(Restated)				
	\$	\$	%	%	%	%
Astute	2,289,938	2,289,938	15%	15.6%	5%	5%
PayAsia	922,214	687,161	15.1%	15.1%	5%	5%
IWS	9,562,746	-	15%	n/a	5%	n/a
Payroll HQ	2,513,944	2,513,944	15%	n/a	5%	n/a

Other significant assumptions in the forecast are noted in the table below:

	Y1	Y2 to Y5
Revenue growth	42%	20%
Cost growth	27%	11%

No impairment of goodwill is recognised in the year to 31 March 2022 (2021: nil).

Management notes that goodwill is not sensitive to changes in any of the above noted assumptions and will yield a similar result if these assumptions are changed adversely by up to 5%.

### Significant estimates made

The continued profitability and growth of the CGUs are dependent on retaining existing client revenue. Loss of existing client revenue would result in reduced headroom or impairment of the goodwill allocated to the CGUs. The cash flow projections also assume an increased number of clients using the software provided by the business over the forecast period. If the business is not able to achieve the increased revenue from new client sales then it will result in reduced headroom or impairment of the goodwill allocated to the CGUs.

### Note 10. Leases

### Recognition and measurement

The leases recognised by the Group under AASB 16 predominantly relate to property leases. The Group recognises all lease liabilities and corresponding right of use assets, with the exception of short-term (12 months or less) and low value leases, on the balance sheet. Lease liabilities are recorded at the present value of fixed payments, variable lease payments that depend on an index or rate, amounts payable under residual value guarantees and extension options expected to be exercised. Where a lease contains an extension option which the Group can exercise without negotiation, lease payments for the extension period are included in the liability if the Group is reasonably certain that it will exercise the option. Variable lease payments not dependent on an index or rate are excluded from the liability. Lease payments are discounted at the incremental borrowing rate of the lessee, unless the rate implicit in the lease can be readily determined. The right of use asset at initial recognition reflects the lease liability adjusted for any lease payments made before the commencement date plus any make good obligations and initial direct costs incurred.

Lease liabilities are remeasured when there is a change in future lease payments resulting from a change in an index or rate, or a change in the assessed lease term. A corresponding adjustment is made to the carrying amount of the right of use asset, or is recorded in profit or loss if the carrying amount has been reduced to zero.

## For the year ended 31 March 2022

The Group applied judgement to determine the incremental borrowing rates as well as the lease term for some lease contracts that include extension or termination options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right of use assets recognised.

The Group recognises depreciation of the right of use assets and interest on the lease liabilities in the income statement over the lease term. Repayments of lease liabilities are separated into a principal portion (presented within financing activities) and interest portion (presented within operating activities) in the cash flow statement.

#### Right-of-use assets

The RoU assets have been measured at the initial lease liability amount, as if the AASB 16 had been applied from the commencement date of the leases. The recognised ROU assets relate to the following assets:

	\$
Balance 1 April 2020	1,622,520
Additions	385,381
Acquired as part of the PHQ acquisition 1 Dec 2020	72,078
Disposal	(3,723)
Depreciation	(614,848)
Balance 31 March 2021	\$1,461,408
Additions	271,552
Acquired as part of the IWS acquisition 1 May 2021	162,192
Disposal	(498,508)
Depreciation	(670,321)
Balance 31 March 2022	726,323

#### Lease liabilities

The movement in lease liabilities from 1 April 2021 to the year ended 31 March 2022 is presented below:

	2022	2021
	\$	\$
Balance 1 April	1,483,623	1,720,779
Additions	250,188	385,381
Disposal	(421,642)	(16,551)
Rent concessions recognized as other income	-	(62,368)
Acquired as part of IWS acquisition 1 May 2021	185,203	_
Acquired as part of PayrollHQ acquisition 1 Dec 2020	-	68,258
Interest expense	73,097	115,724
Foreign exchange loss on translation	(35,572)	(200,320)
Payments on lease liabilities	(759,640)	(527,280)
Balance 31 March	775,257	1,483,623
Lease liabilities – current	602,694	619,750
Lease liabilities – non-current	172,563	863,873

### Note 11. Equity

### (a) Share capital

31 March 2022		31 March 20	021
Shares	\$	Shares	\$
118,327,272	62,519,759	82,522,339	43,672,726

### Recognition and measurement

Ordinary fully paid shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

All issued ordinary shares are fully paid. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Group. All ordinary shares rank equally with regard to the Group's residual assets.

2022

<sup>(1)</sup> Tranche 2 shares issued are contingent purchase consideration which has been recorded as a financial liability. Refer note 7c.

### (b) Reserves

### Recognition and measurement

### Share-based payment reserve

The share-based payment reserve is used to recognise:

- the fair value of options issued to Directors and employees which have not been exercised;
- the fair value of shares issued to Directors and employees; and
- other share-based payment transactions.

The cost of shares and options over shares issued to Directors and employees are measured as set out in the audited remuneration report.

Equity settled share-based compensation benefits are provided to employees and directors.

Equity settled transactions are awards of shares, or employee loan share plans, that are provided to employees and directors in exchange for the rendering of services.

The cost of equity settled transactions are measured at fair value on grant date.

The cost of equity-settled transactions is recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

## For the year ended 31 March 2022

### Foreign currency translation reserve

It comprises foreign currency translation differences arising on the translation of financial statements of the Group's foreign entities into \$AUD.

#### Reserves

	2022	2021
	\$	\$
Share based payment reserve	711,218	216,904
Actuarial (losses)/gains on defined benefit plan	286,028	222,065
Foreign currency translation reserve	(556,379)	(655,592)
Reserves pursuant to share swap acquisition of PayAsia	(16,698,676)	(16,698,676)
	(16,257,809)	(16,915,299)

### Share based payment expense

	2022	2021
	\$	\$
Shares issued to settle supplier payment	37,921	35,387
Shares issued to settle employee entitlements	155,963	29,680
Shares issued under Employee share plan	124,368	78,048
	318,252	143,115

### Note 12. Earnings per share and dividends

### Recognition and measurement

### Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of PayGroup Limited, excluding any cost of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

### Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

### Earnings per share

Reconciliation of earnings used and the weighted average number of shares for the purposes of diluted earnings per share to the weighted average number of ordinary shares used in the calculation of basic earnings per share is as follows:

	2022	2021
	\$	\$
Profit (Loss) after income tax (basic)	(357,804)	(510,697)
Profit (Loss) after income tax (diluted)	(357,804)	(510,697)
Weighted average number of shares used in basic earnings per share	112,795,289	75,261,670
Weighted average number of shares used in diluted earnings per share	112,795,289	75,261,670
Basic earnings / (loss) per share (cents per share)	(0.32)	(0.68)
Diluted earnings / (loss) per share (cents per share)	(0.32)	(0.68)

### Dividends

No dividends were paid during the year ended 31 March 2022 and 31 March 2021.

## For the year ended 31 March 2022

#### Note 13. Financial instrument risk

### Capital and Risk management objectives and policies

The Group's objective when managing capital is to:

- Safeguard their ability to continue as a going concern, so that they can provide returns to shareholders; and
- Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. For the purpose of analysis the Group defines capital as fully paid ordinary shares

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk.

#### (a) Market risk analysis

#### Foreign currency risk

The Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

#### Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

The table below outlines the variable interest rate on cash at bank.

	2022 Weighted average interest rate	2022 Balance \$	2021 Weighted average interest rate	2021 Balance \$
Cash and cash equivalents	0.34%	25,312,644	0.34%	12,111,732
Net exposure to cash flow interest rate risk		25,312,644		12,111,732

### Sensitivity analysis

A change by 10% in existing interest rates at the reporting date would have increased/decreased equity and profit/loss for the period by the amounts shown below. This analysis assumes that all other variables remain constant. The analysis is performed on the same basis for the comparative period.

Impact on profit/loss for the period:

		2022	2021
		\$	\$
Increase in interest rates +10%	0.37%	8,606	4,118
Decrease in interest rates -10%	0.31%	(8,606)	(4,118)

### (b) Credit risk analysis

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date of recognised financial assets is the carrying amount of those assets, net of any provisions for impairment of those assets, as disclosed in the consolidated statement of financial position and notes to the consolidated financial statements.

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposures to customers including receivables and committed transactions.

### Trade receivables

Collectability of trade receivables is reviewed on an ongoing basis through regular review of ageing analysis. Trade receivables are written off when there is no reasonable expectation of recovery. Trade receivables consist of a large number of customers in various industries and geographical areas. The Group does not hold any security on the trade receivables balance.

## For the year ended 31 March 2022

The Group applies the AASB 9 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component. In measuring the expected credit losses, trade receivables have been assessed on a collective basis as they possess shared credit characteristics. They have been grouped based on days past due. Refer to Note 7(b) for further information of impairment and risk exposure.

The Group does not have any significant credit risk to any single counterparty given the large number of customers.

### (c) Liquidity risk analysis

Prudent liquidity risk management requires the Group to maintain sufficient liquid assets and available borrowing facilities to be able to pay debts as and when they become due and payable. The Group manages liquidity risk by maintaining adequate cash reserves and by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities. Amounts presented below represent the future undiscounted principal and interest cash flows.

Maturity	ana	lvsis

maturity analysis	1 year or less	Between 1 and 2	Between 3 and 5	Over 5	Remaining contractual
	\$	years	years	years	maturities
		\$	\$	\$	\$

Balance 31 March 2022	25,608,852	95,624	78,894	-	25,783,370

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

### Note 14. Contingent assets and liabilities

The Company entered into a Performance Rights Agreement with Mr Webb whereby if the AstuteOne Limited group of companies achieved a Profit Before Tax (PBT) of A\$1.5m for the Target Performance Period ended 31 October 2020, Mr Webb would be entitled to be issued shares in the Company worth A\$1.5m. The PBT calculation was furnished to Mr Webb within 45 days of the end of the Target Performance Period. Based on the Company's calculation, the earn-out PBT has not been satisfied and therefore no share based payments were recognised. Mr Webb disputes the Company's calculations and claims he is entitled to shares in the Company worth A\$1.5m.

On 12th November 2021, post mediation, PayGroup signed a settlement deed with Mr Webb where it was agreed that Mr Webb's contractual rights under the Performance Rights Agreement for a further \$1.5 million in shares of PayGroup is subject to achievement of profit threshold (PRA Claim) is to be determined by an independent expert (whose decision will be final and binding on the parties).

IWS' Share Sale Agreement (SSA) stipulates performance earn-out of up to \$2.55m payable in new PayGroup shares, will be paid upon achieving key operational milestones in FY22 and FY23. The Share Sales Agreement specifies that an earn out is payable in an earn-out period if i) the gross profit margin target of 70% is met and ii) 95% or more of the revenue target is met (target = \$6.2m for FY22 and \$7.4m for FY23). An earn out factor between 60% (=> 95% of revenue target) to 100% (=> 100 of revenue target) for each earn out period is to be determined based on a sliding scale range and then to be multiplied by 10% of the initial consideration. Based on the probability of not reaching the minimum revenue targets, the expected value of the earn out is considered to be nil.

There were no other material claims or disputes of a contingent nature against the Company and its subsidiaries as at the reporting date.

For the year ended 31 March 2022

#### Note 15. Business Combinations

#### Current financial year

**IWS** 

Summary of acquisition

The Group acquired 100% of the issued share capital of Integrated Workforce Solutions Pty Ltd and IWS Bookkeeping Australia Pty. Ltd. (combinedly referred as IWS) effective 1 May 2021. IWS provides a leading cloud-based platform delivering rostering, payroll and accounting services specialising in solutions for the franchise sector in Australia and New Zealand. IWS's purpose built proprietary platform simplifies complex payroll administration and includes high margin modules for rostering, time and attendance, award interpretation, KPI and benchmarking tools, and bookkeeping. IWS has a large and captive client base of more than 1,000 customers, for which it processes in excess of 400,000 pay slips per annum. IWS has an established position as the provider for new franchise locations and preferred supplier to existing sites, and a customer retention rate in excess of 94%. The IWS Acquisition has expanded PayGroup's offering into a new high-margin franchise vertical, strengthening the core payroll business, providing substantial cross-sell opportunities, and is expected to make a material contribution to PayGroup's annualised recurring revenue (ARR).

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

	31 March
	2022
	\$
Purchase consideration (refer note below):	
Cash paid	8,521,119
Ordinary shares issued	2,217,686
Contingent purchase consideration payable (recorded as financial liability)	1,712,151
Total purchase consideration	12,450,956

The fair value of the 4,069,150 ordinary shares issued and 2,835,749 contingent shares consideration is taken at \$0.545. The fair value was based on the representing PayGroup's closing share price at the transaction date. The 2,835,749 issued as contingent consideration shares were recorded as a financial liability and were initially valued at \$0.545. Contingent purchase consideration payable pursuant to IWS' acquisition considered were revalued at the date of settlement on their fair value of \$0.43, the resulting fair value adjustment of \$326,111 is recorded under other income. The contingent consideration is treated as a financial liability recognised at fair value and any changes in fair value were recorded through profit or loss.

Further performance earn-out of up to \$2.55m, payable in new PayGroup shares, will be paid upon achieving key operational milestones in FY22 and FY23. The Share Sales Agreement specifies that an earn out is payable in an earn-out period if i) the gross profit margin target of 70% is met and ii) 95% or more of the revenue target is met (target = \$6.2m for FY22 and \$7.4m for FY23). An earn out factor between 60% (=> 95% of revenue target) to 100% (=> 100 of revenue target) for each earn out period is to be determined based on a sliding scale range and then to be multiplied by 10% of the initial consideration. Based on the probability of not reaching the minimum revenue targets, the achievement of performance earn-out is unlikely.

The transaction was undertaken based on the fair value of IWS' assets and liabilities acquired as at 1 May 2021.

The Group had finalised acquisition accounting on the IWS acquisition. The final purchase price allocation did not result in any adjustment to the initial purchase price allocation. The assets and liabilities recognised as a result of the acquisition are as follows:

	31 March
	2022
	\$
Cash and cash equivalents	669,282
Restricted client monies	36,736
Trade and other receivables	262,235
Contract assets	106,206
Contract liabilities	(62,390)
Right-of-use assets	162,192
Lease liabilities	(185,203)
Plant and equipment	17,881
Trade and other payables	(1,067,782)
Advances of clients' monies	(36,736)
Intangible assets:	
Software	830,000
DAYCDOUD LIMITED ANNUAL DEPORT EV22	

## For the year ended 31 March 2022

Add: goodwill	9,562,746
Net identifiable assets acquired	2,888,210
Deferred tax liability	(424,211)
Trademark and tradename	140,000
Customer contracts and relationships	2,440,000

The goodwill is attributable to the workforce and the underlying business capability and operational performance. It will not be deductible for tax purposes.

### (i) Acquisition related costs

Acquisition-related costs of \$140,547 that were not directly attributable to the payment of purchase consideration are included in consulting and professional fees in profit or loss and in investing cash flows in the statement of cash flows.

#### (ii) Acquired receivables

The fair value of acquired trade and other receivables is \$262,235 of which none is expected to be uncollectible.

### (iii) Reconciliation of cash flow used in investing activities

	31 March 2022
	\$
Outflow of cash to acquire subsidiary, net of cash acquired	
Cash consideration	(8,521,119)
Less: Balances acquired	
Cash	669,282
Net inflow/ (outflow) of cash – investing activities	(7,851,837)

### (iv) Revenue and profit contribution

The acquired business contributed revenues of \$5,086,165 and net profit before tax of \$170,914 to the Group for the period from 1 May 2021 to 31 March 2022.

If the acquisition had occurred on 1 April 2021, consolidated pro-forma revenue and net profit before tax for the year ended 31 March 2022 would have been \$5,444,341 and \$167,746 respectively. These amounts have been calculated using the acquiree's results.

### PayAsia Japan

### Summary of acquisition

The Group acquired business of PayAsia Japan Co., Ltd. (PayAsia Japan) (previously referred as FF Partners Co., Ltd. (FFP)) effective 1 July 2021. FFP is headquartered in Tokyo (Japan) and provides the complex payroll and social insurance management services to organisations in Japan.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

	31 March 2022
	\$
Purchase consideration (refer note below):	
Cash paid	120,195
Ordinary shares issued	100,596
Total purchase consideration	220,791

## For the year ended 31 March 2022

The fair value of the initial consideration shares (i.e. 107,834 shares) issued at \$0.45 and contingent consideration shares (i.e. 121,096 shares) issued at \$0.43 as part of the consideration paid for PayAsia Japan's was based on the PayGroup's closing share price at the transaction dates.

The transaction was undertaken based on the fair value of PayAsia Japan's assets and liabilities acquired as at 1 July 2021.

The Group had finalised acquisition accounting on the PayAsia Japan's acquisition. The final purchase price allocation did not result in any adjustment to the initial purchase price allocation. The assets and liabilities recognised as a result of the acquisition are as follows:

	31 March
	2022
	\$
Restricted client monies	744,996
Advances of clients' monies	(744,996)
Trade and other receivables	15,312
Trade and other payables	(29,574)
Net identifiable assets acquired	(14,262)
Add: goodwill	\$235,053
Net assets acquired	220,791

The goodwill is attributable to the workforce and the underlying business capability and operational performance. It will not be deductible for tax purposes.

### (i) Acquisition related costs

Acquisition-related costs of \$31,070 that were not directly attributable to the payment of purchase consideration are included in consulting and professional fees in profit or loss and in investing cash flows in the statement of cash flows.

### (ii) Acquired receivables

The fair value of acquired trade and other receivables is \$15,312 of which none is expected to be uncollectible.

### (iii) Reconciliation of cash flow used in investing activities

	31 March 2022 \$
Outflow of cash to acquire subsidiary, net of cash acquired	
Cash consideration	(120,195)
Net inflow/ (outflow) of cash – investing activities	(120,195)

## (iv) Revenue and profit contribution

The acquired business contributed revenues of \$96,568 and net loss of \$442,355 to the Group for the period from 1 July 2021 to 31 March 2022.

If the acquisition had occurred on 1 April 2021, consolidated pro-forma revenue and loss for the period ended 31 March 2022 would have been \$108,388 and \$469,051 respectively. These amounts have been calculated using the acquiree's results.

### Previous corresponding year

### <u>TalentOz</u>

### Summary of acquisition

The Group acquired the business of TalentOz Sdn Bhd and Forzia Tech Private Limited ("TalentOz") effective 1 July 2020. TalentOz provides comprehensive cloud-based HCM software with Payroll modules in Malaysia and India. It has an innovative SaaS HCM, analytics and payroll product suite with leading end-user functionality, enabling businesses to unlock the full value of their workforce across all devices.

## For the year ended 31 March 2022

Details of the purchase consideration, the net assets acquired, and goodwill are as follows:

	2021
	\$
Purchase consideration (refer note below):	
Cash paid	170,381
Ordinary shares issued	1,534,567
Total purchase consideration	1,704,948

The fair value of the 1,826,865 shares issued at \$0.84 as part of the consideration paid for TalentOz was based on the 5 days value weighted average share price from transaction date.

The Group has finalised acquisition accounting on the TalentOz acquisition. The final purchase price allocation did not result in any adjustment to the initial purchase price allocation. The purchase consideration, assets and liabilities recognised as a result of the acquisition are as follows:

	2021
	\$
Property, plant and equipment	30,875
Intangible assets:	
Software	1,035,445
Employee benefit liability	(48,533)
Net identifiable assets acquired	1,017,787
Add: goodwill	687,161
Net assets acquired	1,704,948

#### **PayrollHQ**

### Summary of acquisition

The acquisition of PayrollHQ effective 1 December 2020 has significantly transformed PayGroup's payroll presence in the Australia and New Zealand markets and increased PayGroup's sales capabilities in Australia. PayrollHQ has an excellent client base and sales pipeline and is led by a group of experienced and high-performing industry experts. The acquisition is underpinned by a highly compelling rationale for PayGroup and is consistent with its strategic plan to grow its revenue and client base and capitalise on the fast-growing outsourced HCM and payroll markets across the Asia Pacific region.

PayrollHQ provides a full suite of payroll outsourcing services for its clients, and processes in excess of 120,000 payslips per annum. PayrollHQ has over 100 current corporate clients and a significant sales funnel, with high client retention.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

	2021
	\$
Purchase consideration (refer note below):	
Ordinary shares issued	2,473,616
Contingent purchase consideration payable (recorded as financial liability)	843,457
Total purchase consideration	3,317,073

The fair value of the 4,122,694 ordinary shares issued and 1,405,762 contingent shares consideration is taken at \$0.60. The fair value was based on the 10 days value weighted average share price from transaction date. The 1,405,762 issued as contingent consideration shares were recorded as a financial liability and were initially valued at \$0.60. Contingent purchase consideration payable pursuant to PayrollHQ's acquisition were revalued at period end based on their fair value of \$0.46, the resulting fair value adjustment of \$231,950 is recorded under other income.

The transaction was undertaken based on the fair value of PayrollHQ's assets and liabilities acquired as at 1 December 2020. The goodwill is attributable to the workforce and the underlying business capability and operational performance.

## For the year ended 31 March 2022

The Group has finalised acquisition accounting on the PayrollHQ acquisition. The final purchase price allocation did not result in any adjustment to the initial purchase price allocation. The purchase consideration, assets and liabilities recognised as a result of the acquisition are as follows:

	2021
	\$
Cash and cash equivalents	52,489
Trade and other receivables	198,498
Contract assets	120,161
Contract liabilities	(57,720)
Right-of-use assets	72,078
Lease liabilities	(68,258)
Plant and equipment	8,616
Trade and other payables	(205,431)
Intangible assets:	
Customer contracts and relationships	900,000
Deferred tax liability	(217,303)
Net identifiable assets acquired	803,130
Add: goodwill	2,513,944
Net assets acquired	3,317,074

### Contingent liabilities of the parent entity

The parent entity did not have any other contingent liabilities as at 31 March 2022 or 2021, except as disclosed in note 14.

#### Guarantees entered into by the parent entity

The parent entity did not have any guarantees as at 31 March 2022 or 2021.

#### Note 20. Events after the reporting period

On Thursday, 23 June 2022, PayGroup announced that it has entered into a Scheme Implementation Agreement ("SIA") with leading global compliance and payroll company, Deel, and Deel Australia, to acquire 100% of the ordinary shares in PayGroup by way of a scheme of arrangement for cash consideration of A\$1.00 per PayGroup share. Following consideration of the terms of the offer, including its view of the intrinsic value of PayGroup and the certainty for shareholders of the all-cash offer, the Board unanimously recommends that PayGroup shareholders vote in favour of the Scheme.

Additionally, on Friday, 24 June 2022, 1,205,643 options exercisable at \$1.10 expiring on 14 July 2023 and 1,205,643 options exercisable at \$1.20 expiring on 14 July 2023 were cancelled.

There has been no other matters or circumstances that have arisen since the end of the financial period, that has significantly affected, or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

# **Directors' declaration**

## For the year ended 31 March 2022

### In the directors' opinion

- The attached financial statements and notes comply with the Accounting Standards and the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- The attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 March 2022 and of its performance for the financial year ended on that date;
- as stated in note 2, the financial statements also comply with International Financial Reporting Standards; and
- There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The Directors have been given the declarations required by section 295A of the Corporations Act 2001 from the Chief Executive Officer and Chief Financial Officer for the financial year ended 31 March 2022.

Signed in accordance with a resolution of the directors made pursuant to section 295(5) of the Corporations Act 2001.

# Independent Auditor's Report

## To the Members of Paygroup Limited

### Report on the audit of the financial report

#### **Opinion**

We have audited the financial report of PayGroup Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 March 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a giving a true and fair view of the Group's financial position as at 31 March 2022 and of its performance for the year ended on that date; and
- b complying with Australian Accounting Standards and the Corporations Regulations 2001.

### **Basis for opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 ACN 127 556 389 and its Australian subsidiaries and related entities. Liability limited by a scheme approved under Professional Standards Legislation.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Key audit matter

#### How our audit addressed the key audit matter

### **Revenue recognition - Note 5**

The Group derives revenue through the rendering of services which are performed under a combination of contractual agreements.

Determining the appropriate revenue recognition methods for multiple contractual agreements can be complex and involves management judgement, which includes determination of each performance obligation within contracts, allocation of the consideration to individual performance obligations and identifying when performance obligations are satisfied so revenue can be recognised.

This area is a key audit matter due to the complexity of the arrangements entered into with customers and the estimation uncertainty involved in the revenue recognition.

Our procedures included, amongst others:

- Obtaining an understanding of and assessing each revenue stream to determine the appropriateness of policies and procedures in place regarding revenue recognition in accordance with accounting standard AASB 15 Revenue from Contracts with Customers;
- Testing a sample of revenue transactions to supporting documentation in order to:
  - Assessing whether revenue is being recognised in accordance with the Group's revenue recognition policies and the relevant accogniting standard; and
  - Assessing management's estimate of the Group's ability to satisfy performance obligations of each project at 31 March 2022 through corroboration to underlying supporting documentation;
- Performing a recalculation of the ability to meet the performance obligations for each significant contract; and
- Assessing the adequacy of the Group's disclosures within the financial statements.

### Capitalised software under development costs - Note 8(b)

Capitalised product development costs had a net carrying value of \$14,307,589 at 31 March 2022.

During the year the Group capitalised \$3,601,020 of project development costs. These intangible assets are being amortised over a 10 year period.

AASB 138 Intangible Assets sets out the specific requirements to be met in order to capitalise development costs. Intangible assets should be amortised over their useful economic lives in accordance with AASB 138.

This area is a key audit matter due to subjectivity and management judgement applied in the assessment of whether costs meet the development phase criteria described in AASB 138, the estimate of the assets' useful lives.

Our procedures included, but were not limited to:

- Assessing the Group's accounting policy in respect of software development costs for adherence to AASB 138;
- Evaluating management's assessment of each project for compliance with the recognition criteria set out in AASB 138, including discussing project plans with management and project leaders to develop an understanding of the nature and feasibility of key projects at 31 March 2022;
- Testing a sample of costs capitalised to supporting documentation to understand the nature of the item and whether expenditure was attributable to the development of the related asset and assessing compliance with the recognition criteria set out in AASB 138;
- Evaluating the appropriateness of the useful economic lives over which capitalised costs are being amortised; and
- Assessing the adequacy of related disclosure in the financial statements.

### Capitalised value of goodwill - Note 9

The Group has recorded goodwill totalling \$15,288,842 at 31 March 2022 across four Cash Generating Units. Goodwill is required to be assessed for impairment annually by management as prescribed by AASB 136 Impairment of Assets.

Management test goodwill annually for impairment by comparing their carrying amounts against their recoverable amounts determined by either, the greater of its fair value less costs to sell. or its value in use.

This area is a key audit matter due to the inherent uncertainty surrounding key inputs.

Our procedures included, but were not limited to:

- Enquiring with management to obtain and document an understanding of their process and controls related to the determination of cash generating units and the calculation of recoverable amounts;
- Evaluating the impairment calculations prepared by management against the requirements of AASB 136;
- Assessing management's assessment of impairment and management's value in use calculations;
- Assessing management's determination of four cash generating units;
- Involving our internal valuation specialists to:
  - Assess and evaluate the reasonableness of key assumptions, including discount rates, terminal growth rates, market evidence of industry earnings valuation multiples and forecast growth assumptions; and
- Assessing the adequacy of disclosures in the financial statements.

### Deferred Tax Assets - Note 6 and Note 8(c)

The Group recognised deferred tax assets of \$1,981,451 during the year ended 31 March 2022 arising from tax losses carried forward.

AASB 112 *Income Taxes* requires that deferred tax assets in relation to carried forward tax losses are only recognised if certain conditions under the tax law in the entity's jurisdiction are satisfied and if it is probable that sufficient taxable profits will be generated in order for the benefits to be realised. These benefits are realised by reducing tax payable on future taxable profits.

The recoverability of deferred tax assets was a key audit matter due to the significant judgements required to assess the probability that sufficient future taxable profits can be generated.

Our procedures included, but were not limited to:

- Examining the documentation prepared by management supporting the availability of tax losses that were recognised in accordance with each jurisdictions tax laws;
- Involving our internal taxation specialists to assess the work of managements experts on the availability of tax losses carried forward;
- Assessing managements forecasts of future taxable profits and reviewing the consistency of taxable profit forecasts to the cash flow forecasts prepared for the CGU impairment assessments;
- Challenging management's assumptions and estimates including those relating to forecast assessable income and deductible expenditure and other allowances; and
- Assessing the adequacy of disclosures in the financial statements.

### **Business Combination - Note 15**

On May 17 2021, PYG acquired 100% of the shares in Integrated Workforce Solutions ('IWS') for a total consideration of \$12,450,956, comprising of \$8,521,119 in cash and \$3,929,837 in shares.

AASB 3 Business Combinations requires significant judgement and estimates to be made in relation to:

 The fair value of the purchase consideration, including any contingent consideration;

Our procedures included, but were not limited to:

- Reading the underlying sale and purchase agreements to understand key terms and conditions of the transaction;
- Reviewing the work contained in the purchase price allocation valuation calculations, including review of managements expert's valuation assessment, to determine whether:
  - The intangible assets identified are appropriate;
  - The valuation methodologies used are reasonable; and

### How our audit addressed the key audit matter

- The fair value of assets and liabilities acquired, including separately identifiable intangible assets; and
- Evaluating the fair value of assets acquired during the provisional accounting period.

This is a key audit matter due to the significant judgement required as part of the determination of estimates when accounting for a business combination.

- Assumptions used are reasonable compared with external benchmarks and our knowledge of the Group and its industry:
- Review work contained in the purchase price allocation valuation calculation, including involvement of our GT Corporate Finance team to determine whether:
- The intangible assets identified are appropriate;
- The valuation methodologies used are reasonable;
- Assumptions used are reasonable compared with external benchmarks and our knowledge of the Group and its industry;
- Testing the mathematical accuracy of the underlying calculations; and
- Assessing the adequacy of the Group's disclosures with respect to the business acquisitions against the requirements of AASB 3.

### Information other than the financial report and auditor's report thereon

The Directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 31 March 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the financial report h

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <a href="https://www.auasb.gov.au/auditors">https://www.auasb.gov.au/auditors</a> responsibilites/ar1 2020.pdf. This description forms part of our auditor's report.

### Report on the remuneration report

### Opinion on the remuneration report

We have audited the Remuneration Report included in pages 18 to 22 of the Directors' report for the year ended 31 March 2022.

In our opinion, the Remuneration Report of PayGroup Limited, for the year ended 31 March 2022 complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
