ENRG ELEMENTS LIMITED Formerly known as Kopore Metals Limited

LETTER FROM THE CHAIRMAN

Dear fellow Shareholders,

On behalf of the Board of Directors, it is my pleasure to present to you the Annual Report of ENRG Elements Limited (ENRG Elements or Company) for the financial year ended 30 June 2023, highlighting our accomplishments during the period.

I am proud to share the Company's achievements and insights that have shaped ENRG Elements' journey over the past year.

Company's Agadez Uranium Project (Agadez Project) has continued to deliver outstanding exploration success during the year, which resulted in a material update to the Mineral Resource Estimate (MRE) at the Takardeit Deposit within the Agadez Project, reporting an increase of 100% in the MRE to 31.1 Mt at a grade of 315 ppm U308 for 21.5 Mlbs (at a 17 ppm cut-off) in the Inferred category, as announced to ASX on 26 April 2023.

Our expansion continues with the Company being granted the Tarouadji lithium permit, located just 70km from our Agadez Project. This project strategically of for lithium a key component for clean energy solutions

positions us to tap into the growing demand for lithium, a key component for clean energy solutions.

We acknowledge the challenges posed by the recent coup in Niger, which has created uncertainty in the region. We are closely monitoring the situation and adapting our approach accordingly. However, we believe that Niger's long history of mining and uranium production will lead to clarification of the situation. Once this occurs, we are prepared to recommence our exploration efforts with renewed vigour.

Observably, the world is at the precipice of a profound transformation, with clean energy sources emerging as a powerful force in shaping the global energy landscape. ENRG Elements is well positioned at the intersection of this transformation, where the Company's focus on uranium and lithium exploration aligns seamlessly with the burgeoning demand for sustainable energy solutions. Our Agadez Project continues to be the cornerstone of our operations.

The growing global demand for clean energy has underscored the significance of nuclear power, strategically positioning the Company in this evolving market. As nations around the world seek to reduce carbon emissions and transition to cleaner energy sources, nuclear power has emerged as an essential component of the clean energy movement. Our adherence to high industry standards, while harnessing advanced technologies, has allowed ENRG Elements to identify an important uranium Resource with the potential to power a greener future.

In Botswana, geophysical studies undertaken during the past year have identified domal structures similar to those identified at Sandfire's Motheo Copper Mine. More recently, the Company announced the sale of the Ghanzi West Project for AU\$2.5 million, a strategic decision that bolsters our financial position. These funds will be instrumental in advancing our projects in Niger once the situation stabilizes, and in capitalizing on value-accretive opportunities to benefit our shareholders.

I extend my sincere gratitude to you, our shareholders, for your support as we undertake this journey together. And by no means as an afterthought, I sincerely thank our Managing Director, Caroline Keats, our staff and our extended family of professional contractors for their dedication to the Company's interests during the year.

Yours faithfully,

James Eggins Non-Executive Chairman

ENRG Elements Limited (ASX: EEL) (ENRG or the Company) is pleased to present its review of operations for the financial year ended 30 June 2023 (FY23).

Key activities and achievements for FY23 are summarised below.

Agadez Project, Niger

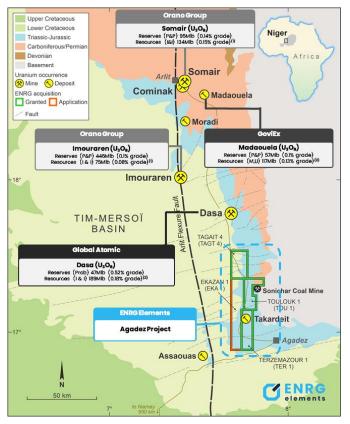

The Agadez Uranium Project (Agadez Project) comprises three (3) granted exploration permits (Permits) and one (1) exploration licence application in the highly prospective Tim Mersoi Basin, considered one of the world's major uranium producing areas. The Company completed the acquisition of the Agadez Project in May 2022 and continued advancement of the Agadez Project during FY23.

In June 2022, the Company commenced a 5,500m drilling program, comprising approximately 5,350m of mud rotary drilling and 150m of diamond core drilling focused on four key areas across the Terzemazour 1 (TER 1) Permit, being Takardeit Centre, the location of the current Inferred Mineral Resource Estimate (MRE) (Takardeit Deposit), Takardeit East, Takardeit North and Takardeit North-West (together the Takardeit Prospects).

In May 2022, the Takardeit Deposit MRE was updated from JORC 2004 to JORC 2012 guidelines to reflect an Inferred MRE of 16.5Mt at a grade of 295ppm eU308 for 10.7Mlbs (at 150ppm cut-off) (refer ASX Release – 30 May 2022).

Initial downhole gamma results from the drilling program were announced on 1 September 2022, confirming that mineralisation, occurring from surface to ~40m, extended beyond the current MRE at Takardeit and remained open in multiple directions. Significant downhole gamma result at Takardeit Centre included:

- KMP0048 2m at 2,266 eU₃O₈ from 22.7m;
- KMP0030 2m at 2,562 eU₃O₈ from 28.2m; and
- KMP0018 2m at 1,172 eU₃O₈ from 24.7m.

7m. Figure 1. Map of ENRG's Tenements and location of the Tim Mersoi Basin

On 2 February 2023, the Company announced that diamond core assays confirmed the previously announced downhole gamma logging results from the Agadez Project 2022 drill program.

In June 2022 the Company also commenced a rock chip sampling program on the Permits, with a focus on the areas identified by historical airborne radiometric geophysical surveys and sampling work previously undertaken.

As announced on 14 February 2023, the assay results from the rock chip sampling program delivered outstanding results and confirmed mineralisation throughout the tenement package, including $34.3\% U_3O_8$ and $26.1\% U_3O_8$. The results from the rock chip sampling will enable the Company to effectively 'calibrate' the airborne radiometric survey to allow for the planning of additional near surface drilling programs.

On 17 November 2022, the Company published an exploration target of between 90 and 130Mlb U_3O_8 , at a grade of between 300 and 400ppm U_3O_8 , based on an average mineralisation thickness varying between 2m and 5m (**Exploration Target**). The Exploration Target was based on a comprehensive review of historical drilling data, likely locations of mineralisation within the tenements and an analysis of the geological setting of the adjacent projects. It should be noted that the potential quantity and grade of the Exploration Target is conceptual in nature. Additionally, there has been insufficient exploration to estimate

Resources on the prospects located on the Company Permits (outside of the Takardeit Deposit) and it is uncertain if further exploration will result in the estimation of additional Mineral Resources on these prospects.

³ Global Atomic NI43-101 Technical Report, 9 January 2023. Mineral Resources for Dasa reported inclusive of any Ore Reserves.

¹ Numbers are on a 100% basis, Orano Annual Activity Report 2022. Mineral Resources are reported exclusive of any Ore Reserves.

² GoviEx NI43-101 Technical Report, 1 November 2022. Mineral Resources for Madaouela are reported inclusive of any Ore Reserves.

In order to test the Exploration Target, identify new areas of mineralisation across the tenements and extend the Takardeit Deposit, a drilling program has been designed which is expected to consist of 379 drill holes, for a total of 20,165m, with an average hole depth of 53m.

On 26 April 2023, reflecting the results from the 5,500m drilling program, the Company announced a 100% increase in the MRE of the Takardeit Deposit to 31.2Mt at a grade of 315 ppm U_3O_8 for 21.5 Mlbs U_3O_8 , in the Inferred category. The updated MRE reflects an increase in grade of 6.8% with a corresponding increase in tonnes, primarily due to the inclusion of Takardeit East, Takardeit Northeast and Takardeit Northwest as part of the total Deposit. The Mineral Resource has been reported above a cut-off grade of 175ppm U_3O_8 reflecting estimated processing costs and recoveries as well as projected product pricing.

Mineral Resource	Cut off	M Tonnes	Grade ppm eU₃O ₈	Mlb eU₃O8
Updated (JORC 2012)	175	31.1	315	21.5

Table 1. JORC (2012) Inferred MRE (figures may not add due to rounding.)

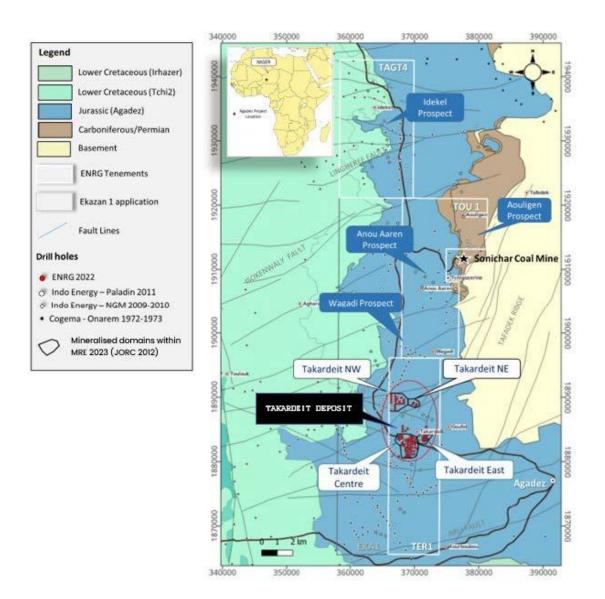

Figure 2. Geological map of the Permits showing the drill hole locations and main prospects.

On 11 May 2023, the Company announced positive results from an orientation electrical resistivity tomography (ERT) survey undertaken across the Takardeit Deposit, demonstrating a correlation with existing drilling data and historical geophysical surveys. By employing ERT, the Company gained the ability to identify additional targets and potentially shorten the timeframe required to expand the Company's resource base. The ERT survey results, particularly in terms of the orientation, clearly demonstrate the precise location, extent, geometry, and geostructural context of the principal Mousseden palaeochannel. These findings affirm the value of ground resistivity methods in assessing near-surface paleochannels and their structural influence.

Ghanzi West Copper-Silver Project, Botswana

As announced on 7 December 2022, an Airborne Electromagnetic (**AEM**) and Gravity Survey undertaken by New Resolution Geophysics was completed over the Kara prospect at the Ghanzi West Copper-Silver Project (**Ghanzi West Project**), in the emerging world class Kalahari Copper Belt of Botswana. Following a review of the new geophysical data, along with historical soil geochemistry and prior drilling results, three domal features were identified, similar to those discovered along strike by Sandfire Resources Ltd at its Motheo Copper Mine. Based on this work, multiple exploration drill targets have been identified. On 23 January 2023, the Company commenced an Induced Polarisation (**IP**) Survey aimed to prioritise drill targets at the Ghanzi West Project, as identified by the AEM and Gravity Survey.

The IP Survey was completed in March 2023 and as announced on 4 April 2023, the Company identified multiply high priority drill targets. The AEM and Gravity Survey and the IP Survey results will inform the next stage of exploration at Ghanzi West. On 25 September 2023, the Company announced it had entered into an agreement with AIM listed Kavango Resources Plc (Kavango), for the sale of 90% of its Ghanzi West Copper-Silver Project.

Virgo Project Botswana

On 13 September 2022, AIM listed Arc Minerals Limited (**Arc Minerals**), the 75% owner of Alvis-Crest (Proprietary) Limited (**Alvis Crest**), the holder of two prospecting licences (PL 135/2017 & PL 162/2017) in Botswana's Kalahari Copper Belt announced the renewal of the two prospecting licences, comprising the Virgo Project, for an additional two years until 30 September 2024. Arc Minerals advised the Company that following soil sampling programs which identified a copper anomaly on PL 162/2017, a drilling program comprising five RC and 2 diamond holes was undertaken. As at the date of this report, assays from this drilling program remain pending.

The Company retains a 25% interest in Alvis-Crest.

Horseshoe West Project

As announced in August 2022, the Company undertook a Dipole-Dipole Induced Polarisation (**DDIP**) survey at the Company's earn-in project at Horseshoe West (**HW Project**) in the Bryah Basin, Western Australia. The DDIP survey generated chargeability targets in areas of geochemical anomalism.

During FY23, the Company announced that it had made a strategic decision to further refine its focus on its Niger Uranium and Botswana Copper-Silver Projects (refer ASX release – 2 November 2022). As a result, the Company provided notice to Murchison Copper Mines Pty Ltd (**MCM**), a subsidiary of Horseshoe Metals Limited (ASX:HOR) to withdraw from the Farm-in and Joint Venture Agreement with MCM and Kopore (WA) Pty Ltd, a subsidiary of ENRG. In accordance with the terms of the Farm-in and Joint Venture Agreement, entered into on 25 January 2021, the Company provided the required 30 days advance notice of withdrawal, resulting in an effective withdrawal date of 30 November 2022.

Corporate

On 3 August 2022, the Company changed its name from Kopore Metals Limited to ENRG Elements Limited (ASX: EEL) following receipt of shareholder approval at the general meeting held on 28 July 2022. The new name reflected the Company's strategy and focus on developing its uranium and copper projects, supporting a carbon-neutral and electric future.

On 24 November 2022, 30,000,000 fully paid ordinary shares (Shares) in the Company were released from escrow.

On 15 February 2023, 1,232,395 Shares were issued to consultants of the Company for providing investor relations services. These Shares were issued under the Employee Securities Incentive Plan.

On 3 May 2023, 80,000,000 Shares were issued on conversion of Performance Shares following the satisfaction of the vesting conditions as set out in the Notice of Meeting dated 2 February 2023.

Capital Raisings

On 9 June 2023, the Company announced a non-underwritten share purchase plan (**SPP**) to raise up to \$1.5 million (before costs) through the issue of 120,000,000 Shares at an issue price of \$0.0125 each, with a 1-for-2 free-attaching option exercisable at \$0.019 each and expiring 18 months from the date of issue. However, on 1 August 2023, the Company

announced the withdrawal of the SPP in light of the current market conditions and the ongoing political uncertainty in the Republic of Niger.

Matters Subsequent to the End of the Period

Subsequent to the end of the period:

- 1. On 11 July 2023, the Company announced it was granted the Tarouadji 2 exploration permit in the largely underexplored Tarouadji area, located in the Agadez region of Niger (**Tarouadji Project**), which is prospective for lithium and tin minerals within a multiphase granitic settling in the Air Massif. Covering an area of 499.7km2, the Tarouadji Project represents a strategic increase in the Company's land-holding position in Niger, situated 70km east of the Company's Agadez Project. Ground reconnaissance work commenced at the Tarouadji Project in early August 2023 (refer ASX release 26 July 2023), with the initial phase of exploration beginning with a surface rock chip sampling campaign, focusing primarily on areas historically identified with lithium anomalies and pegmatitic material. This preliminary assessment of rock chip samples will guide the Company in formulating future exploration work.
- 2. On 28 July 2023, the Company provided an update on the ongoing political uncertainty in Niger, which remains fluid. The Company's personnel and assets remain safe. Niger is a major global uranium supplier, being the world's 5th largest producer of uranium between 2013 and 2022. The Tim Mersoi basin in Niger, hosts all the major deposits in the region, including by French owned uranium production company Orano SA (Orano) that hosts the Somair, Imouraren and Cominak (recently shut down) mines, the significant deposits held by TSX-listed Global Atomic Corporation (Global Atomic) and TSX-V listed Goviex Uranium Inc (Goviex), and the deposit owned by the Company. Following the recent coup in Niger, Orano, Global Atomic and Goviex have each announced that their activities in Niger are continuing. While the situation is dynamic, the Company's operations in Niger have not ceased. Instead, activities have been adjusted to adapt to the changing environment. The Board remains committed to developing its Agadez Project and Tarouadji Project and is dedicated to safeguarding the team and the integrity of the Company's assets in the region.
- 3. The Company announced the withdrawal of the SPP on 1 August 2023.
- On 12 September 2023, the Company advised that three Prospecting Licences (PL203/2016, PL204/2016 & PL205/2016), comprising part of the Company's wholly owned Ghanzi West Project, were renewed for a further two years, until 30 September 2025. The Ghanzi West Project covers a total area of 2,629.60 km².
- 5. On 25 September 2023, the Company announced that, through its wholly-owned subsidiary Global Exploration Technologies Pty Ltd, it has executed a binding Share Purchase Agreement with AIM listed Kavango Resources Plc (Kavango), for the sale of 90% of its Ghanzi West Copper-Silver Project (Ghanzi West Project) (Transaction). Kavango have agreed to purchase 90% of the issued capital of each of the Company's wholly owned subsidiaries Icon Trading Company Proprietary Ltd and Ashmead Holdings Proprietary Ltd for total, staged, cash consideration of A\$2.5 million, with completion being subject to customary conditions precedent. The Transaction aligns with the Company's strategy to monetise non-core assets to fund the advancement of its Agadez Uranium Project, the Tarouadji Lithium Project and identify additional value accretive opportunities for the Company. The material terms of the transaction include:
 - Total consideration of A\$2.5 million, comprising:
 - A\$1.5 million at Completion;
 - A\$500,000, 90 days post Completion;
 - A\$500,000, 180 days post Completion;
 - The Company's remaining 10% interest in the Target Companies will be free carried until the earlier of three years after Completion (provided that A\$3,000,000 is expended on the Licences during this period) and the date that a decision to mine is made.
 - Intercompany loans between the Company and the Target Companies will be assigned to Kavango at Completion.

Competent Persons Statement

The information relating to previous Exploration Results, Exploration Target and Mineral Resources outlined in this announcement was compiled by Mr. David Princep, an independent consultant employed by Gill Lane Consulting. Mr Princep is a Fellow of the Australasian Institute of Mining and Metallurgy and a Chartered Professional Geologist. Mr Princep has more than five years relevant experience in estimation of mineral resources and the mineral commodity, uranium. Mr Princep has sufficient experience relevant to the assessment of this style of mineralisation to qualify as a Competent Person as defined in the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves – The JORC Code (2012)". The Company confirms that the form and context in which the results are presented and all material assumptions and technical parameters underpinning the estimates in the original market announcement continue to apply and have not been materially modified from the original announcements.

Annual Mineral Resource and Ore Reserves Statement

The Company's Mineral Resource Estimate for the Takardeit Deposit at the Agadez Project in Niger, as at 30 June 2023 and the comparatives to 30 June 2022, are listed in the tables below. The Competent Person Statement this estimate relates to is included on page 9 of this Annual Report.

The Company's Mineral Resources inventory increased during FY23 due to an additional drilling program, as announced to the ASX on 26 April 2023. The Company confirms that it is not aware of any new information or data that materially affects the Mineral Resource as reported on 26 April 2023 and all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The Company carries out an annual review of its Mineral Resources and Ore Reserves, as required by the ASX Listing Rules. The review was carried out as at 30 June 2023.

Takardeit Inferred Mineral Resources as at 30 June 2023 (as released on 26 April 2023)

Mineral Resource	Cut off	M Tonnes	Grade ppm eU ₃ O ₈	Mlb eU ₃ O ₈
Update (JORC 2012)	175	31.1	315	21.5

Takardeit Inferred Mineral Resources as at 30 June 2022

Mineral Resource	Cut off	M Tonnes	Grade ppm eU₃O ₈	Mlb eU₃O ₈
Update (JORC 2012)	150	16.5	295	10.7

The updated Mineral Resource has been reported above a cut-off grade of 175ppm eU_3O_8 (previously 150ppm) reflecting estimated processing costs and recoveries as well as projected product pricing. The updated Mineral Resource reflects an increase in grade of 6.8% and an increase in contained metal of 101%.

Estimation Governance Statement

The Company ensures that all Mineral Resource and Ore Reserves estimations are subject to appropriate levels of governance and internal controls.

Exploration results are collected and managed by an independent competent qualified geologist. All data collection activities are conducted to industry standards based on a framework of quality assurance and quality control protocols covering all aspects of sample collection, topographical and geophysical surveys, drilling, sample preparation, physical and chemical analysis and data and sample management.

Mineral Resource and Ore Reserves estimates are prepared by appropriately qualified, independent Competent Persons. If there is a material change in the estimate of a Mineral Resource or Ore Reserves, the estimate and supporting documentation in question is reviewed by a suitable qualified independent Competent Persons and announced to the ASX in accordance with the Listing Rules.

The Company reports its Mineral Resources and Ore Reserves on an annual basis in accordance with JORC Code 2012.

Competent Person's Statement

The information on the Mineral Resources outlined in this announcement was compiled by Mr David Princep, an independent consultant employed by Gill Lane Consulting. Mr Princep is a Fellow of the Australasian Institute of Mining and Metallurgy and a Chartered Professional Geologist. Mr Princep has more than five years relevant experience in estimation of mineral resources and the mineral commodity uranium. Mr Princep has sufficient experience relevant to the assessment of this style of mineralisation to qualify as a Competent Person as defined in the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves – The JORC Code (2012)". Mr Princep approves of, and consents to, the inclusion of the information in this Annual Mineral Resource Statement and the Annual Mineral Resource Statement as a whole, in the form and context in which it appears.

Your Directors present their report together with the financial statements of the Group, being the Company and its controlled entities (collectively the **Group**), for the financial year ended 30 June 2023.

1. DIRECTORS

The names, qualifications, experience and special responsibilities of the Directors in office at any time during or since yearend are as follows. Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

JAMES EGGINS Non-Executive Chairman (Appointed 15 November 2021)

BA, LLB (Hons)

Mr Eggins previously held senior management roles at Queensland Mines Ltd, that developed and operated the Nabarlek uranium project in the Northern Territory; was General Manager and then Divisional Manager for Olympic Dam Marketing during his 15-year tenure with WMC Ltd and later, was the General Manager (Sales & Contract Administration) at Paladin Energy Ltd for seven years. Complementing forty years of uranium experience, Mr Eggins has also managed marketing and business development roles in mineral sands, refined copper, precious metals, and for the last seven years with Greenland Minerals Ltd, rare-earth minerals.

He has been involved with the mine-to-market supply chain for mines in Australia and Africa. Mr Eggins, who holds a BA from the University of Sydney and an LLB (Hons) from the Australian National University, Canberra, also served as Chair of the Uranium Information Centre and as a Board member of the World Nuclear Association.

Directorships held in other listed entities:

None

CAROLINE KEATS Managing Director (Appointed Non-executive director on 5 August 2021. Appointed Managing Director on 4 October 2021)

BBus, LLB (Hons)

Ms Keats is a focused business leader and corporate executive with 20 years of corporate/commercial experience. She has extensive experience working with assets in foreign jurisdictions, particularly Africa and has successfully liaised with foreign governments to improve understanding about operational and Australian corporate requirements and facilitated outcomes beneficial to mining projects, local communities and the local economy.

Ms Keats is legally qualified, having commenced her career as a lawyer at Blake Dawson Waldron (now Ashurst) and then at Blakiston & Crabb (now Gilbert & Tobin). She has since worked in senior management and executive roles at Paladin Energy Ltd, Mawson West Limited, MRX Technologies (a Siemens business) and she has held the Managing Director role at Tiger Resources Limited.

Directorships held in other listed entities:

Rincon Resources Ltd (ASX:RCR) - Non-executive Director. Appointed 6 December 2021, resigned 18 August 2022.

Currie Rose Resources Inc (TSX-V:CUI) - Non-executive Director. Appointed 11 April 2023 - to present.

QUINTON DE KLERK Non-Executive Director (Appointed 14 January 2022)

NHD, FAusIMM

Mr de Klerk is a highly qualified and accomplished mining engineer with more than 30-years' experience spanning operational roles in open pit and underground mining environments as well as consulting services across multiple jurisdictions and commodities.

Mr de Klerk has held senior positions with AngloGold Ashanti Ltd in South Africa, Namibia and Australia. He is currently the Head of Mining Engineering and a Director of Cube Consulting Pty Ltd where, for the past 16 years, he led the mining team in multiple feasibility studies, due diligence processes, Mineral Reserves CP responsibilities and audits. He has a demonstrated and respected capability in providing strategic direction and advice to executives and boards of junior and mid-tier mining companies.

In addition to being a qualified mining engineer, Mr de Klerk is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a graduate of the Australian Institute of Company Directors (AICD) Company Directors course.

Directorships held in other listed entities:

None

2. COMPANY SECRETARIES

The following persons held the position of Joint Company Secretary since the start of the financial year to the date of this report:

SARAH WILSON

Ms Wilson is an experienced company secretary with more than 10 years' experience in governance and compliance. She is an Executive Director of national corporate advisory firm Source Governance, and is currently company secretary to a number of ASX listed companies, across a variety of industries with a strong focus on resources.

SHANNON COATES

Ms Coates is a non-executive director and Chartered Secretary. She is a qualified lawyer and has over 20 years' experience in corporate law and compliance. Ms Coates is currently Managing Director of Source Governance, a national corporate advisory firm providing company secretarial and corporate advisory support to boards and various committees across a variety of industries including resources, oil and gas, manufacturing and technology.

3. DIRECTORS' MEETINGS

The number of Directors' meetings attended by each of the Directors of the Company who hold or held office during the financial year was:

	DIRECTORS MEETINGS				
	Number eligible to attend	Number Attended			
James Eggins	6	6			
Caroline Keats	6	6			
Quinton de Klerk	6 6				

As at the date of this report, the Company has not established Remuneration, Nomination, Audit or Risk Committees as the Directors believe the Company is not currently of a size, nor are its affairs of such complexity, as to warrant the establishment of these separate committees. Accordingly, all matters capable of delegation to such committees are considered by the full Board of Directors.

4. DIRECTORS' INTERESTS

The relevant interests of Directors in the shares and options of the Company up to the date of this report were as follows:

2023	Shares (Direct) No.	Shares (Indirect) No.	Options (Direct) No.	Options (Indirect) No.
James Eggins	7,000,000	-	-	-
Caroline Keats	22,500,000	-	-	-
Quinton de Klerk ¹	4,000,000	1,515,151	-	-
	33,500,000	1,515,151	-	-

1. 1,515,151 Shares held by BNP Paribas Nominees Pty Ltd HUB 24 Custodial Serv Ltd <DRP A/C>.

5. PRINCIPAL ACTIVITIES

The principal activity of the Group during the course of the financial year was uranium, copper/base metals exploration.

6. OPERATING RESULTS

For the 2023 financial year the Group delivered a loss after tax of \$5,275,174 (2022: \$4,542,384 loss).

7. REVIEW OF OPERATIONS

During the year, the Group continued its exploration of the prospecting licence portfolios. Refer to the detailed Operations Review on page 2 of the Annual Report.

8. DIVIDENDS

The Directors have not paid an interim dividend nor do they recommend the payment of a final dividend.

9. FINANCIAL POSITION

The net assets of the Group have decreased from 30 June 2022 by \$3,157,373 to \$1,564,836 at 30 June 2023 (2022: \$4,722,209). As at 30 June 2023, the Group's cash and cash equivalents decreased from 30 June 2022 by \$3,336,327 to \$812,665 at 30 June 2023 (2022: \$4,148,992) and had working capital of \$710,946 (2022: \$4,059,808), as noted in Note 9.

The Directors believe the Group is in a satisfactorily stable financial position to continue its current operations.

10. KEY BUSINESS RISKS

The Group is subject to various risk factors. Some of these are specific to its business activities while others are of a more general nature. Individually, or in combination, these risk factors may affect the future operating and financial performance of the Group.

a. OCCUPATIONAL HEALTH AND SAFETY RISKS

The Company seeks to ensure that it provides a safe workplace to minimise risk of harm to its employees and contractors. It achieves this through an appropriate safety culture, safety systems, training, and emergency preparedness.

b. EXPLORATION RISK

Exploration and Mineral Resource development incorporates a high degree of technical and geological risk. The natural endowment of the ground being explored is the limiting factor and there always remains a risk of insufficient natural endowment to make an economic discovery.

Detailed planning of exploration programs, with external consultant input where required, ensures the highest quality exploration targets are tested. The Board approves all exploration programs and budgets to achieve outcomes in the Company's (and shareholders) best interests, with regular reporting provided to the Board of the results of exploration programs.

The Company undertakes business development activities to source new projects for the Company with the objective of acquiring assets with a high potential for exploration success.

c. SUPPLIER RISK

The current economic climate has impacted both the cost and availability of key suppliers (drill contractors, analytical laboratories, labour hire, consultants etc) to allow the Company to conduct exploration activity in a timely manner.

In order to mitigate these risks, the Company:

- 1. Maintains contact with multiple suppliers for services; and
- 2. Plans activities ahead of time, taking into account Board approved budget allocations and work programs, to ensure sufficient notice of work can be provided.

d. MINERAL RESOURCES

The Mineral Resources for the Group's projects are estimates only and no assurance can be given that they will be realised.

e. GOVERNMENT CHARGES

The Group has assets in multiple jurisdictions namely, Botswana and Niger. The mining industry is subject to a number of Government taxes, royalties and charges. Changes to the rates of taxes, royalties and charges can impact on the future profitability of the Company. The Company maintains communications with relevant parties to mitigate potential increases.

f. LOSS OF KEY MANAGEMENT PERSONNEL

The resources sector is currently highly competitive with significant cost escalation and wage growth. The loss of key management personnel would impact the Company's ability to undertake activities in a timely manner.

The Board maintains regular contact with the Company's Executive and other personnel to ensure the Board is fully informed of all material business issues. The Company undertakes annual reviews for key roles to ensure competitive contracts are in place and has contractual notice periods in place to minimise business disruption.

g. ENVIRONMENTAL

The Group has environmental liabilities associated with its tenements which arise as a consequence of its operations. The Group monitors its ongoing environmental obligations and risks and implements rehabilitation and corrective actions as appropriate.

h. MARKET RISK

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments.

The Group is exposed to movements in market interest rates on short term deposits. The policy is to monitor the interest rate yield curve out to 120 days to ensure a balance is maintained between the liquidity of cash assets and the interest rate return. The Group does not have short or long-term debt, and therefore this risk is minimal.

i. COMMUNITY/SOCIAL RISKS

The Group operates in different jurisdictions with varying community, heritage and social laws and cultural practices. Community expectations are continually evolving and are managed through the development of robust strategies, maintaining strong relationships with communities and delivering on its commitments.

j. FINANCIAL RISKS

The Group recognises the importance of maintaining a strong balance sheet that enables flexibility to pursue strategic objectives. ENRG maintains policies which define appropriate financial controls and governance which seek to ensure financial risks are recognised, managed and recorded in a manner consistent with generally accepted industry practice and governance standards.

k. REGULATORY AND COMPLIANCE RISK

New or evolving regulations and international standards are outside the Company's control and are often complex and difficult to predict. The potential development of international opportunities can be jeopardised by changes to fiscal or regulatory regimes, adverse changes to tax laws, difficulties in interpreting or complying with local laws, material differences in sustainability standards and practices, or changes to existing political, judicial or administrative policies and changing community expectations.

I. ANTI-BRIBERY AND CORRUPTION RISK

The Group's business activities and operations are located in jurisdictions with varying degrees of political and judicial stability, including some countries with a relatively high inherent risk with regards to bribery and corruption. This exposes ENRG to the risk of unauthorised payments or offers of payments to or by employees, agents or distributors that could be in violation of applicable anti-corruption laws.

The Group has a clear Anti-bribery and Corruption Policy, and internal controls and procedures to protect against such risks. However, there is no assurance that such controls, policies or procedures will protect the Group from potentially improper or criminal acts.

m. CHANGES IN GOVERNMENT

A rise in nationalist sentiment presents an operational risk to the Group. Sovereign risk associated with changes of government, including coup d'états, can result in sanctions. Fiscal policy changes can materially impact the profitability of the Group.

n. SOVEREIGN AND GEOPOLITICAL RISK

The Company's projects are located in Niger and Botswana. Uncertainty exists as to the stability of the regulatory and political environment in Niger and Botswana and there is potential for sovereign events to have a material impact on the investment and security environment in the country. The Company cannot guarantee that the Government in Niger and Botswana will remain stable or supportive of the mining and resources sector and existing ownership structures. The Company manages sovereign risk through closely monitoring political developments and events.

11. SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no other significant changes in the state of affairs of the Group during the year ended 30 June 2023.

12. EVENTS SUBSEQUENT TO REPORTING DATE

There were no other events which occurred subsequent to the reporting date that are not covered in this Directors' Report or within the financial statements at Note 16.

13. LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Likely future developments in the operations of the Group are referred to in the Operations Review on page 2 of this Annual Report.

14. DIRECTORS' SHAREHOLDINGS, CONTRACTS AND BENEFITS

Since the end of the previous financial year no Director of the Company has received, or became entitled to receive a benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by Directors shown in the accounts) by reason of a contract made by the Company with the Director or with a firm of which the Director is a member, or a Company in which the Director has a substantial financial interest, other than as disclosed in the remuneration report below.

15. REMUNERATION REPORT (AUDITED)

The full Board currently fulfils the role of a Remuneration Committee in line with a Remuneration Committee Charter and in accordance with the Company's adopted remuneration policy.

15.1 REMUNERATION POLICY

This policy governs the operations of the Remuneration Committee. The Committee shall review and reassess the policy at least annually and obtain the approval of the Board.

a. EXECUTIVE REMUNERATION

The Company's remuneration policy for Executive Directors and senior management is designed to promote superior performance and long-term commitment to the Company. Executive Directors receive a base remuneration which is market related, and may be entitled to performance-based remuneration at the ultimate discretion of the Board.

Overall remuneration policies are subject to the discretion of the Board and can be changed to reflect competitive market and business conditions where it is in the interests of the Company and shareholders to do so.

Executive Directors' remuneration and other terms of employment are reviewed annually by the Remuneration Committee having regard to performance, relevant comparative information and expert advice.

The Committee's reward policy reflects its obligation to align Executive Directors' remuneration with shareholders' interests and to retain appropriately qualified executive talent for the benefit of the Company. The main principles of the policy are:

- i. reward reflects the competitive market in which the Company operates;
- ii. individual reward should be linked to performance criteria; and
- iii. Executive Directors should be rewarded for both financial and non-financial performance.

The total remuneration of executives and other senior managers consists of the following:

i. salary - Executive Directors and senior managers receive a sum payable monthly in cash;

ii. **bonus** - Executive Directors and nominated senior managers are eligible to participate in a bonus or profit participation plan if deemed appropriate;

iii. **long term incentives** - Executive Directors may participate in share option schemes with the prior approval of shareholders. Executives may also participate in employee share option schemes, with any option issues generally being made in accordance with thresholds set in plans approved by shareholders. The Board however, considers it appropriate to retain the flexibility to issue options to executives outside of approved employee option plans in exceptional circumstances; and

iv. **other benefits** - Executive Directors and senior managers are eligible to participate in superannuation schemes and other appropriate additional benefits.

Remuneration of other executives consists of the following:

- i. salary senior executives receive a sum payable monthly in cash;
- ii. bonus each executive is eligible to participate in a bonus or profit participation plan if deemed appropriate;

iii. **long term incentives** - each senior executive may, where appropriate, participate in share option schemes which have been approved by shareholders; and

iv. **other benefits** - senior executives are eligible to participate in superannuation schemes and other appropriate additional benefits.

15. REMUNERATION REPORT (AUDITED) (CONTINUED)

b. NON-EXECUTIVE REMUNERATION

Shareholders approve the maximum aggregate remuneration for Non-Executive Directors. The full Board recommends the actual payments to Directors and the Board is responsible for ratifying any recommendations, if appropriate. The maximum aggregate remuneration approved for Non-Executive Directors is currently \$300,000.

It is recognised that Non-Executive Directors' remuneration is ideally structured to exclude equity-based remuneration. However, whilst the Company remains small and the full Board, including the Non-Executive Directors, are included in the operations of the Company more closely than may be the case with larger companies, the Non-Executive Directors are entitled to participate in equity-based remuneration schemes subject to shareholder approval.

All Directors are entitled to have their indemnity insurance paid by the Company.

c. BONUS OR PROFIT PARTICIPATION PLAN

Performance incentives may be offered to Executive Directors and senior management of the Company through the operation of a bonus or profit participation plan at the ultimate discretion of the Board.

d. VOTING AND COMMENTS MADE AT THE COMPANY'S 2021 ANNUAL GENERAL MEETING ("AGM")

At the 2022 AGM, 87.23% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2022. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

e. ADDITIONAL INFORMATION

The loss of the Group for the five years to 30 June 2023 are summarised below:

	2023	2023 2022		2020	2019	
	\$\$		\$	\$	\$	
Sales revenue	-	-	-	-	-	
EBITDA	(5,275,174)	(7,329,043)	(1,159,088)	(1,139,506)	(2,724,961)	
EBIT	(5,275,174)	(7,328,997)	(1,159,207)	(1,139,625)	(2,730,502)	
Loss after income tax	(5,275,174)	(7,328,997)	(1,159,207)	(1,139,625)	(2,730,502)	

The factors that are considered to affect total shareholders return (TSR) are summarised below:

	2023	2022	2021	2020	2019
Share price at financial year end (\$)	0.011	0.032	0.027	0.007	0.009
Dividends declared (cents per share)	-	-	-	-	-
Basic loss per share (cents per share)	(0.57)	(0.65)	(0.19)	-	(0.60)

15.2 DETAILS OF REMUNERATION

Details of the nature and amount of each element of the emoluments of each of the key management personnel (**KMP**) of the Company for the year ended 30 June 2023 are set out in the following tables.

2023

The Steele Group		
The Steele Group, a Company where Mr Grant Ferguson is a director, provides consulting services in accordance with a service agreement. Mr Grant Ferguson resigned as a Director on 14 January 2022.	-	41,700

There have been no other transactions in addition to those described in the tables or as detailed in Note 18 Related Party Transactions.

15.6 OPTIONS ISSUED AS PART OF REMUNERATION

During the year, no options were granted to KMP of the Company as remuneration (2022: Nil).

15.7 SHARES ISSUED AS PART OF REMUNERATION

During the financial year ended 30 June 2022, loan shares were issued to Directors of the Company as remuneration, as set out below:

Following shareholders' approval, the Company issued 20,000,000 loan shares and 10,000,000 loan shares on 11 January 2022 and 4 March 2022 respectively (together **the Loan Share**) to the directors pursuant to the Company's Employee Securities Incentive Plan (**the Plan**), on the following terms:

Director	Number of Loan Shares	Date of issue	Date of Expiry	Exercise Price	Tranche
Caroline Keats	20,000,000	11 January 2022	11 January 2027	\$0.023	Tranche 1
James Eggins	6,000,000	4 March 2022	4 March 2027	\$0.024	Tranche 2
Quinton de Klerk	4,000,000	4 March 2022	4 March 2027	\$0.024	Tranche 2

15. REMUNERATION REPORT (AUDITED) (CONTINUED)

The material terms of the Loan and Loan Shares are as follows:

- i. The issue price of each Loan Share will be equal to the 10-day VWAP of the Company's Shares as at date of issue.
- ii. The related parties are to grant the Company a pledge of their respective Loan Shares and a charge over all dividends and other amounts paid or payable on their respective Loan Shares.
- iii. The respective Loans must be repaid on the earlier of:
 - Five years after issuance of the Loan Shares, and;
 - Three months after the relevant related party ceases to be eligible employee for any reason under the Plan; or
 - If determined by the Board to be repayable as a result of, or in anticipation of, a change of control event occurring in respect of the Company.
- iv. The related parties must not transfer, encumber or otherwise dispose of, or have a security interest granted over any Loan Share unless and until the respective Loan is repaid.
- v. The Company's sole recourse in the event that a Loan is not repaid will be limited to the respective Loan Shares and the Company may sell the Loan Shares or dispose of such number of Loan Shares for their market price as the Board determines in its absolute discretion.

15.8 SERVICE CONTRACTS OF KMP

The KMP terms are formalised in service agreements, a summary of which is set out below.

Name	Name Contact Duration		Termination Notice period by Executive	
Caroline Keats	On going	one month	three months	

All Non-Executive Directors were appointed by a letter of appointment.

END OF REMUNERATION REPORT

16. INDEMNIFYING OFFICERS

In accordance with the Constitution, except as may be prohibited by the *Corporations Act 2001* (Cth), every Officer of the Company shall be indemnified out of the property of the Company against any liability incurred by him/her in his/her capacity as officer or agent of the Company or any related corporation in respect of any act or omission whatsoever and howsoever occurring or in defending any proceedings, whether civil or criminal.

The Company has entered into Deeds of Indemnity and Access with each of its Directors (**Deeds**). Pursuant to the Deeds, the Company will indemnify each Director to the extent permitted by the Corporations Act against any liability arising as a result of the Director acting as an officer of the Company. The Company will be required under the Deeds to maintain insurance policies for the benefit of the relevant Director for the term of the appointment and for a period of 7 years after the relevant Director's retirement or resignation.

During the financial year, the Company paid a premium in respect of a contract insuring the Directors of the Company, the Company Secretaries and all executive officers of the Company and of any related body corporate against a liability incurred as such a Director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of any liability and the amount of the premium.

17. SHARES

As at the date of this report, there are 1,009,234,249 fully paid ordinary shares on issue.

18. OPTIONS

At the date of this report, there are 115,000,000 unissued ordinary shares of the Company under option as follows:

Unlisted options	Date of Expiry	Exercise price	Number
Unlisted Options	7 December 2023	\$0.045	14,000,000
Unlisted Options	19 November 2023	\$0.045	3,000,000
Unlisted Options	29 May 2024	\$0.036	10,500,000
Unlisted Options	1 February 2025	\$0.020	25,000,000
Unlisted Performance Options	24 May 2025	\$0.030	50,000,000
Unlisted Options	21 June 2025	\$0.035	12,500,000

18. OPTIONS (CONTINUED)

During the financial year to 30 June 2023, no options lapsed unexercised.

Option holders do not have any rights to participate in new issues of shares or other interests in the Company or any other entity.

19. INDEMNITY AND INSURANCE OF AUDITOR

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

20. ENVIRONMENTAL REGULATION

The Group is aware of its environmental obligations with regards to its exploration activities and ensures that it complies with all regulations when carrying out any exploration work. The Directors of the Group are not aware of any breach of environmental regulations for the year under review.

21. NON-AUDIT SERVICES

During the year, RSM Australia Partners, the Company's auditor, provided taxation compliance services, in addition to their statutory audits. Details of remuneration paid to the auditor can be found within the financial statements at Note 19.

In the event that non-audit services are provided by RSM Australia Partners, the Board has established certain procedures to ensure that the provision of non-audit services are compatible with, and do not compromise, the auditor independence requirements of the *Corporations Act 2001* (Cth). These procedures include:

- i. non-audit services will be subject to the corporate governance procedures adopted by the Company and will be reviewed by the Board to ensure they do not impact the integrity and objectivity of the auditor; and
- ii. ensuring non-audit services do not involve reviewing or auditing the auditor's own work, acting in a management or decision- making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

22. PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

23. AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under s.307C of the *Corporations Act 2001* (Cth) is set out on page 17.

24. AUDITOR

The auditor, RSM Australia Partners continues in accordance with s.327 of the Corporations Act 2001 (Cth).

This report of the Directors, incorporating the Remuneration Report, is signed in accordance with a resolution of Directors made pursuant to s.298(2)(a) of the *Corporations Act 2001* (Cth).

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the financial report of ENRG Elements Limited for the year ended 30 June 2023, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

The consolidated statement of cash flows is to be read in conjunction with the accompanying notes.

In preparing the 2023 financial statements, ENRG Elements Limited has grouped notes into sections under five key categories:

Section A: How the numbers are calculated	23
Section B: Risk	33
Section C: Group structure	36
Section D: Unrecognised items	39
Section E: Other Information	40

Significant accounting policies specific to each note are included within that note. Accounting policies that are determined to be non-significant are not included in the financial statements.

The financial report is presented in Australian dollars, except where otherwise stated.

The registered office and principal place of business of the Company is:

Address:	Suite 10, 44 Kings Park Road
	WEST PERTH WA 6005
Telephone:	+61 (0)8 6263 4400
Facsimile:	+61 (0)8 9481 7869

ENRG ELEMENTS LIMITED Formerly known as Kopore Metals Limited NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

SECTION A. HOW THE NUMBERS ARE CALCULATED

This section provides additional information about those individual line items in the financial statements that the Directors consider most relevant in the context of the operations of the entity, including:

(a) accounting policies that are relevant for an understanding of the items recognised in the financial statements.

These cover situations where the accounting standards either allow a choice or do not deal with a particular type of transaction.

- (b) analysis and sub-totals, including segment information; and
- (c) information about estimates and judgements made in relation to particular items.

NOTE 1 REVENUE AND OTHER INCOME

	2023	2022
	\$	\$
From continuing operations:		
Interest – unrelated parties	16,124	216
Total revenue and other income	16,124	216

Accounting Policy

Interest Revenue

Interest revenue is recognised in accordance with Note 3 Finance income and expenses.

Other income

Other income is recognised when the Group obtains control over the funds, which is at the time of receipt.

All revenue is stated net of the amount of GST (Note 24 Goods and Services Tax (GST)).

NOTE 2 LOSS BEFORE INCOME TAX

	Note	2023 \$	2022 \$
Loss before income tax has been determined after including the following		<u>,</u>	<u>२</u>
expenses:			
Employee benefit expense:			
Directors' fees		429,583	426,626
Salaries and Wages		149,229	44,844
Superannuation		51,680	36,456
Bonus		-	50,000
Leave Accruals		52,643	-
FBT Expense		35,719	-
Other		2,986	3,095
		721,840	561,021
Exploration and evaluation costs:			
Exploration and evaluation expenditure	6.2	1,389,263	989,117
Exploration assets purchased written off	11	-	4,135,839
		1,389,263	5,124,956

Accounting Policy

Wages and salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave are expected to be settled within 12 months of the reporting date and are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

NOTE 2 LOSS BEFORE INCOME TAX (CONTINUED)

Retirement benefit obligations: Defined contribution superannuation funds

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions onto a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution superannuation funds are recognised as an expense in the income statement as incurred.

Long service leave

Any liability for employee benefits relating to long service leave represents the present value of the estimated future cash outflows to be made by the employer resulting from employees' services provided up to the reporting date.

NOTE 3 OTHER SIGNIFICANT ACCOUNTING POLICIES RELATED TO ITEMS OF PROFIT AND LOSS

Finance income and expenses

Finance income comprises interest income on funds invested (including available-for-sale financial assets), gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss. Interest revenue is rrecognised on a time proportionate basis that considers the effective yield on the financial asset.

Financial expenses comprise interest expense on borrowings calculated using the effective interest method, unwinding of discounts on provisions, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets. All borrowing costs are recognised in profit or loss using the effective interest method.

NOTE 4 INCOME TAX

		2023	2022
		\$	Ş
4.1	The prima facie tax on loss from ordinary activities before income tax is reconciled to the income tax expense as follows:		
	Loss before income tax	(5,275,174)	(7,328,997)
	Prima facie tax payable on loss from ordinary activities before income tax		
	at 30% (2022: 30%)	(1,582,552)	(2,198,699)
	Capital-raising costs deductible	10,759	(45 <i>,</i> 650)
	Non-deductible expenses	42,682	134,333
	Share based payments	608,269	176,240
	Tax effect of discontinued operations	-	835,984
	Deferred tax asset not brought to account	920,842	1,097,792
	Income tax expense	-	-
4.2	Deferred tax liability		
	Exploration and evaluation expenditure – Australia Mining Properties	-	-
	Temporary differences – Australia	-	-
		-	-
	Off-set of deferred tax assets	-	-
	Net deferred tax liability recognised	-	-
4.3	Unrecognised deferred tax assets arising on timing		
	Tax Losses	4,894,248	5,410,116
	Temporary Differences	31,480	167,497
	Capital losses	2,265,565	1,931,381
		7,191,293	7,508,994
	Off-set of deferred tax liabilities	-	-
	Net deferred tax assets unrecognised	7,191,293	7,508,994

Net deferred tax assets have not been brought to account as it is not probable within the immediate future that tax profits will be available against which deductible temporary differences and tax losses can be utilised.

The Group has tax losses of \$23,866,044 (2022: \$20,796,569) that have the ability to be carried forward indefinitely for offset against future taxable profits of the Group. The recoupment of available tax losses as at 30 June 2023 are contingent upon the Group satisfying the following conditions:

- 1. deriving future assessable income of a nature and of an amount sufficient to enable the benefit from the losses to be realised;
- 2. the conditions for deductibility imposed by tax legislation continuing to be complied with and the Company meeting either its continuity of ownership test or in the absence of satisfying that test the Company can satisfy the same business test; and
- 3. there being no changes in tax legislation which would adversely affect the Group from realising the benefits from the losses.

In the event that the Group fails to satisfy these conditions above or the Commissioner of Taxation challenges the Group's ability to utilise its losses, the Group may be liable for future income tax on assessable income derived by the Company.

Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of Directors. These estimates consider both the financial performance and position of the Company as they pertain to current income taxation legislation, and the Directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that Directors' best estimate, pending an assessment by tax authorities in relevant jurisdictions.

Accounting Policy

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Non-cash financing and investing activities

2023

On 3 May 2023, 80,000,000 performance shares were converted to Fully Paid Ordinary Shares and 50,000,000 performance options vested and became exercisable on achievement of the vesting condition, as set out in the Notice of Meeting dated 2 February 2022.

2022

On 24 May 2022, the Company issued 120,000,000 ordinary shares, 80,000,000 performance shares and 50,000,000 performance options as part consideration pursuant to Share Sales Agreement to acquire Agadez Project in Niger.

Accounting Policy

For statement of cash flows presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

5.2 Other receivables

	2023 \$	2022 \$
Current		
GST refundable	22,746	44,696
Other receivables	59,001	247,626
	81,747	292,322
	2023	2022
	\$	\$
Non-Current		
Other receivables	211,595	-
	211,595	-

The Group's financial instruments consist mainly of deposits with banks, accounts receivables and payables and loans to subsidiaries. Risk exposure arising from current receivables is set out in Note 8.

Due to the short-term nature of the current receivables, their carrying amount is assumed to approximate their fair value.

The Group did not recognise any losses in profit or loss in respect of the expected credit losses for the year ended 30 June 2023.

NOTE 5 FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

Accounting Policy

Other receivables are generally due for settlement within periods ranging from 15 days to 30 days. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Allowance for expected credit losses of receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Group in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Group. The allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance.

The amount of the allowance for expected credit losses is recognised in the statement of profit or loss and other comprehensive income within other expenses. When another receivable for which an allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of profit or loss and other comprehensive income.

5.3 Other Assets

	2023	2022
	\$	\$
Current:		
Prepayments	20,259	14,775
	20,259	14,775

5.4 Trade and other payables

	2023	2022
	\$	\$
Current:		
Unsecured		
Trade payables	92,668	66,863
Other payables and accruals	111,057	329,418
Total unsecured liabilities	203,725	396,281

Accounting Policy

Trade payables are non-interest bearing and are normally settled on 30-day terms.

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade creditors and other payables are presented as current liabilities unless payment is not due within 12 months.

Trade and other payables are classified as financial liabilities. Financial liabilities are measured at amortised cost using the effective interest method.

5.5 Other Significant Accounting Policies related to Financial Assets and Liabilities

Investments and other financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income (**OCI**) or through profit or loss), and
- ii. those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

NOTE 5 FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (**FVPL**), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

i. Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- a. Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.
- b. FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the statement of profit or loss.
- c. *FVPL*: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and
- d. presented net within other gains/(losses) in the period in which it arises.

ii. Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment

The Group assesses on a forward-looking basis, the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

NOTE 6 NON-FINANCIAL ASSETS AND FINANCIAL LIABILITIES

6.1 Plant and equipment

	\$	\$
Furniture, fittings and equipment at cost	-	594
Less accumulated depreciation	-	(594)
	-	-
Motor vehicles at cost	-	27,775
Less accumulated depreciation	-	(17,723)
Motor vehicles disposed off	-	(10,052)
	-	-

Accounting Policy

Recognition and measurement

All plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation

Depreciation on plant and equipment is calculated using the straight-line method to allocate their cost or re-valued amounts, net of their residual values, over their estimated useful lives, as follows:

i. Furniture, fittings and equipment	5 years
ii. Motor vehicles	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Derecognition and disposal

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit or loss and other comprehensive income.

6.2 Mineral Exploration and Evaluation Expenditure

Accounting Policy

Exploration and evaluation expenditure

Exploration and evaluation expenditures are expensed as incurred.

Other Significant Accounting Policies related to Non-Financial Assets and Liabilities

Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Nonfinancial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Total contributions of equity net of transaction costs are \$154,745 for the year ended 30 June 2023 (2022: \$8,067,424).

- (a) Directors' loan shares issued pursuant to Employee Securities Incentive Plan approved at the Annual General Meeting held on 11 January 2022. Refer to note 21.1.1(a) Directors Loan Shares for details.
- (b) Performance Shares converted to Fully Paid Ordinary Shares on achievement of the vesting condition, as set out in the Notice of Meeting dated 2 February 2022.
- (c) Shares issued to consultant as consideration for service provided.

Terms and Conditions

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held. At shareholders meetings each ordinary share is entitled to one vote when a poll is called otherwise each shareholder has one vote on a show of hands.

Accounting Policy

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are not included in the cost of the acquisition as part of the purchase consideration.

NOTE 7 EQUITY (CONTINUED)

Options expired	7	-	-
Balance at end of the year		2,718,839	805,433

The share-based payment reserve records the value of options issued to Directors, employees or consultants.

SECTION B. RISK

This section of the notes discusses the Group's exposure to various risks and shows how these could affect the Group's financial position and performance.

NOTE 8 FINANCIAL RISK MANAGEMENT

8.1 Financial Risk Management Policies

The Group's financial instruments consist mainly of deposits with banks, short-term investments, and accounts receivables and payables, loans to subsidiaries. The Group does not speculate in the trading of derivative instruments. Risk management has focused on limiting liabilities to a level which could be extinguished by sale of assets if necessary.

The Group's activities expose it to a variety of financial risks; market risk (including fair value interest rate risk and price risk), credit risk, liquidity risk and cash flow interest rate risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group is engaged in mineral exploration and evaluation, and does not currently sell product and derives only limited revenue from interest earned.

Risk management is carried out by the Board as a whole and a formal risk management policy has been documented and implemented.

The Group holds the following financial instruments:

	2025	2022
	\$	\$
Financial Assets		
Cash and cash equivalents	812,665	4,148,992
Other receivables	293,342	292,322
	1,106,007	4,441,314
Financial liabilities		
Trade and other payables	203,725	396,281
	203,725	396,281
Net financial instruments	902,282	4,045,033

8.2 Specific Financial Risk Exposures and Management

(a) Market risk

(i) Foreign exchange risk

Foreign exchange risk arises from future commitments, assets and liabilities that are denominated in a currency that is not the functional currency of the Group being US dollar (USD), Botswana Pula and West Africa CFA franc (XOF). Currently there are no foreign exchange programs in place. The Group treasury function manages the purchase of foreign currency to meet operational requirements. The impact of reasonably possible changes in foreign exchange rates for the Group has the potential to be material. The Group monitors this risk on a regular basis.

(ii) Price risk

The Group is not exposed to securities price risk on investments held for trading or for medium to longer term as no such investments are currently held.

(b) Credit risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The Group does not have any material credit risk exposure to any single receivable or group of receivables.

The Group applies simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all receivables and contract assets.

Credit risk related to balances with banks and other financial institutions is managed by the Directors in accordance with approved Company policy.

າດາາ

2023

NOTE 8 FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Liquidity risk

Liquidity risk is the risk that the entity will not be able to meet its financial obligations as they fall due. The objective of the Group is to maintain sufficient liquidity to meet commitments under normal and stressed conditions.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, and the availability of funding through an adequate amount of committed credit facilities. Due to the lack of material revenue, the Group aims at maintaining flexibility in funding by maintaining adequate reserves of liquidity.

The Group did not have access to any undrawn borrowing facilities at the reporting date.

All liabilities are current and will be repaid in normal trading terms.

a. Contractual Maturities

The following are the contractual maturities of financial assets and liabilities of the Group:

	Greater Than 1					
	Within 1 Year		Ye	ar	Total	
	2023	2022	2023	2022	2023	2022
	\$	\$	\$	\$	\$	\$
Financial liabilities due for payment						
Trade and other payables	203,725	396,281	-	-	203,725	396,281
Total contractual outflows	203,725	396,281	-	-	203,725	396,281
Financial assets						
Cash and cash equivalents	812,665	4,148,992	-	-	812,665	4,148,992
Other receivables	293,342	292,322	-	-	293,342	292,322
Total anticipated inflows	1,106,007	4,441,314	-	-	1,106,007	4,441,314
Net inflow on financial instruments	902,282	4,045,033	-	-	902,282	4,045,033

It is not expected that the cash flows included in the maturity analysis could occur significantly later or at significantly different amounts.

Cash flow and interest rate risk

From time to time the Group has significant interest-bearing assets, but they are as a result of the timing of equity raising and capital expenditure rather than a reliance on interest income. The interest rate risk arises on the rise and fall of interest rates. The Group's income and operating cash flows are not expected to be materially exposed to changes in market interest rates in the future and the exposure to interest rates is limited to the cash and cash equivalents balances. As such, this is not considered a material exposure and no sensitivity analysis has been prepared.

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is below.

2023	Floating interest rate \$	Fixed interest maturing in 1 year or less \$	Non-interest bearing \$	Total \$
Financial assets				
Cash and cash equivalents	807,665	5,000	-	812,665
Other receivables	-	-	293,342	293,342
	807,665	5,000	293,342	1,106,007

Financial Liabilities				
Trade and other payables	-	-	203,725	203,725
	-	-	203,725	203,725

NOTE 8 FINANCIAL RISK MANAGEMENT (CONTINUED)

2022	Floating interest rate \$	Fixed interest maturing in 1 year or less \$	Non-interest bearing \$	Total \$
Financial assets				
Cash and cash equivalents	4,143,992	5,000	-	4,148,992
Other receivables	-	-	292,322	292,322
	4,143,992	5,000	292,322	4,441,314
Weighted average interest rate	0.76%	0.10%	N/A	
Financial Liabilities				
Trade and other payables	-	-	396,281	396,281
	-	-	396,281	396,281

Net fair value of Financial Assets and Liabilities

The net fair value of cash and cash equivalents and non-interest bearing monetary assets and financial liabilities approximates their carrying values.

a. Fair value hierarchy

AASB 13 Fair Value Measurement: Disclosures requires disclosure of the fair value measurements by level of the following fair value measurement hierarchy:

- i. Level 1 quoted prices (unadjusted) in active markets for identical assets and liabilities;
- ii. Level 2 inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- iii. Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs)

All financial assets are classified as Level 1 and their value has been calculated in line with accounting policy note 24.8 Fair Value.

NOTE 9 CAPITAL MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that they may continue to provide returns for shareholders and benefits for other stakeholders. The capital structure of the Group consists of equity attributable to equity holders of the parent comprising issued capital, reserves and accumulative losses.

Due to the nature of the Group's activities, being mineral exploration, the Group does not have ready access to credit facilities, with the primary source of funding being equity raisings. Therefore, the focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet exploration programs and corporate overheads. The Group's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required.

The Group is not subject to any externally imposed capital requirements.

The working capital position of the Group at 30 June 2023 and 30 June 2022 is as follows:

	Note	2023	2022
		\$	\$
Cash and cash equivalents	5.1	812,665	4,148,992
Other receivables	5.2	81,747	292,322
Trade and other payables	5.4	(203,725)	(396,281)
Working capital position		690,687	4,045,033

SECTION C. GROUP STRUCTURE

This section provides information which will help users understand how the Group structure affects the financial position and performance of the Group as a whole. In particular, there is information about:

- (a) changes to the structure that occurred during the year as a result of business combinations and the disposal of a discontinued operation
- (b) transactions with non-controlling interests, and
- (c) interests in joint operations.

A list of significant subsidiaries is provided in Note 10

NOTE 10 INTEREST IN SUBSIDIARIES

	Country of	Percentage Owned	
	Incorporation	2023	2022
	incorporation	%	%
Alvis-Crest Holdings (Pty) Ltd(1)	Botswana	25	25
Ashmead Holdings (Pty) Ltd	Botswana	100	100
Icon-Trading Company (Pty) Ltd	Botswana	100	100
Global Exploration Technologies Pty Ltd	Australia	100	100
Kopore (WA) Pty Ltd	Australia	100	100
EF Niger Exploration SARL	Niger	100	100

(1) The Company sold its 75% equity in Alvis-Crest Holdings (Pty) Ltd to 25% (refer Note 12). The remaining equity holding (25% at 30 June 2023) is recognised and measured as an associate (Refer Note 13).

Investments in subsidiaries are accounted for at cost and have been written down to nil.

NOTE 11 ASSET ACQUISITION

30 June 2022 (Completed in prior year)

EF Niger Exploration SARL

On 24 May 2022, the Company completed the 100% acquisition of the Agadez Project in Niger (Agadez or the Project) following the Company entering into a binding share sale agreement (ASX Release – 9 December 2021) with Endeavour Finance AG (Endeavour), via the acquisition of Endeavour's wholly owned subsidiary EF Niger Exploration SARL (EF Niger).

The consideration for the acquisition was satisfied through the payment of US\$100,000 and the issuance of 120,000,000 Shares at \$0.02 per share. The Company also has issued 80,000,000 Performance Shares to Endeavour (or its nominees), expiring 24 May 2027 and 50,000,000 Performance Options to Endeavour (or its nominees) exercisable at \$0.03 each and expiring on 24 May 2025. The Performance Shares and Options have vested as the Company has declared a Mineral Resource Estimate of at least 16Mlb of U_3O_8 (at a minimum grade of 200ppm U_3O_8) on a part of the Permits. On 26 April 2023, the Company announced a Mineral Resource update, with the Takardeit Deposit at the Agadez Project holding a shallow Inferred Mineral Resource of 31.1 Mt at a grade of 315ppm U_3O_8 for 21.5 Mlbs U_3O_8 in the Inferred category.

As the acquisition of EF Niger Exploration SARL is not deemed a business combination, the transaction is accounted for as an asset acquisition for the net assets acquired.

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capitalised cost of the asset.

NOTE 11 ASSET ACQUISITION (CONTINUED)

	As at	
	24 May 2022	
	\$	
Fair value of identifiable assets and liabilities acquired are as follows:		
Exploration assets	4,135,839	
Cash	83	
Other intangible assets	204,587	
Payables	(249,520)	
Net assets at completion	4,090,989	
Purchase consideration:		
Shares issued	4,200,000	
Cash	140,509	
Debts assigned	(249,520)	
Total purchase consideration at completion	4,090,989	
	As at	
	24 May 2022	
	\$	
Net cash inflow on acquisition:		
Cash acquired	83	
Net cash inflow from investing activities	83	

Exploration assets acquired amount to \$4,135,839 was written off subsequently to the profit or loss in according to the Company's policy as disclosed in Note 6.2 Exploration and evaluation expenditure.

NOTE 12 DISCONTINUED OPERATIONS

Sale of Alvis-Crest (Proprietary) Limited (Alvis)

On 24 March 2021, the Company entered into a binding term sheet to sell 75% equity in Alvis to AIM listed ARC Minerals Limited (AIM: ARCM) (ARC).

On 11 November 2021, the Company completed the sale of 75% of the issued capital in its wholly owned subsidiary, Alvis-Crest (Proprietary) Limited.

Comparative balances in the Statement of Profit or Loss and Other Comprehensive income have been adjusted for this disposal.

Operating results of the business are not included in operating segment disclosed in note 22 Segment Reporting.

Financial information relating to the discontinued operation to the date of sale is set out below:

The financial performance of the discontinued operation to the date of sale, which is included in the profit/(loss) from the discontinued operations per the statement of comprehensive income, is as follows:

	2023	2022
	\$	\$

Closing net assets (carrying amount of investment)	642,295	662,401

Accounting Policy

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the entity but is not control or joint control of those policies. Investments in associates are accounted for in the consolidated financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost (including transaction costs) and adjusted thereafter for the post- acquisition change in the Group's share of net assets of the associate. In addition, the Group's share of the profit or loss of the associate is included in the Group's profit or loss.

The carrying amount of the investment includes, when applicable, goodwill relating to the associate. Any discount on acquisition, whereby the Group's share of the net fair value of the associate exceeds the cost of investment, is recognised in profit or loss in the period in which the investment is acquired.

Profits and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate.

When the Group's share of losses in an associate equal or exceed its interest in the associate, the Group discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. Upon the associate subsequently making profits, the Group will resume recognising its share of those profits once its share of the profits equals the share of the losses not recognised.

SECTION D. UNRECOGNISED ITEMS

This section of the notes provides information about items that are not recognised in the financial statements as they do not (yet) satisfy the recognition criteria.

In addition to the items and transactions disclosed below, there are also unrecognised tax amounts - see note 4 Income Tax.

NOTE 14 COMMITMENTS

The Group does not have any capital expenditure commitments as at 30 June 2023 and 30 June 2022

NOTE 15 CONTINGENT ASSETS AND LIABILITIES

The Directors are not aware of any other contingent liabilities that may have arisen from the Groups operations as at 30 June 2023 and 30 June 2022.

NOTE 16 EVENTS SUBSEQUENT TO REPORTING DATE

Subsequent to the end of the period:

- 1. On 11 July 2023, the Company announced it was granted the Tarouadji 2 exploration permit in the largely underexplored Tarouadji area, located in the Agadez region of Niger (**Tarouadji Project**), which is prospective for lithium and tin minerals within a multiphase granitic settling in the Air Massif. Covering an area of 499.7km2, the Tarouadji Project represents a strategic increase in the Company's land-holding position in Niger, situated 70km east of the Company's Agadez Project. Ground reconnaissance work commenced at the Tarouadji Project in early August 2023 (refer ASX release 26 July 2023), with the initial phase of exploration beginning with a surface rock chip sampling campaign, focusing primarily on areas historically identified with lithium anomalies and pegmatitic material. This preliminary assessment of rock chip samples will guide the Company in formulating future exploration work.
- 2. On 28 July 2023, the Company provided an update on the ongoing political uncertainty in Niger, which remains fluid. The Company's personnel and assets remain safe. Niger is a major global uranium supplier, being the world's 5th largest producer of uranium between 2013 and 2022. The Tim Mersoi basin in Niger, hosts all the major deposits in the region, including by French owned uranium production company Orano SA (**Orano**) that hosts the Somair, Imouraren and Cominak (recently shut down) mines, the significant deposits held by TSX-listed Global Atomic Corporation (**Global Atomic**) and TSX-V listed Goviex Uranium Inc (**Goviex**), and the deposit owned by the Company. Following the recent coup in Niger, Orano, Global Atomic and Goviex have each announced that their activities in Niger are continuing. While the situation is dynamic, the Company's operations in Niger have not ceased. Instead, activities have been adjusted to adapt to the changing environment. The Board remains committed to developing its Agadez Project and Tarouadji Project and is dedicated to safeguarding the team and the integrity of the Company's assets in the region.
- 3. The Company announced the withdrawal of the SPP on 1 August 2023.
- On 12 September 2023, the Company advised that three Prospecting Licences (PL203/2016, PL204/2016 & PL205/2016), comprising part of the Company's wholly owned Ghanzi West Project, were renewed for a further two years, until 30 September 2025. The Ghanzi West Project covers a total area of 2,629.60 km².
- 5. On 25 September 2023, the Company announced that, through its wholly-owned subsidiary Global Exploration Technologies Pty Ltd, it has executed a binding Share Purchase Agreement with AIM listed Kavango Resources Plc (Kavango), for the sale of 90% of its Ghanzi West Copper-Silver Project (Ghanzi West Project) (Transaction). Kavango have agreed to purchase 90% of the issued capital of each of the Company's wholly owned subsidiaries Icon Trading Company Proprietary Ltd and Ashmead Holdings Proprietary Ltd for total, staged, cash consideration of A\$2.5 million, with completion being subject to customary conditions precedent. The Transaction aligns with the Company's strategy to monetise non-core assets to fund the advancement of its Agadez Uranium Project, the Tarouadji Lithium Project and identify additional value accretive opportunities for the Company. The material terms of the transaction include:
 - Total consideration of A\$2.5 million, comprising:
 - A\$1.5 million at Completion;
 - A\$500,000, 90 days post Completion;
 - A\$500,000, 180 days post Completion;
 - The Company's remaining 10% interest in the Target Companies will be free carried until the earlier of three years
 after Completion (provided that A\$3,000,000 is expended on the Licences during this period) and the date that a
 decision to mine is made.
 - Intercompany loans between the Company and the Target Companies will be assigned to Kavango at Completion.

There were no other significant events after the end of the reporting year.

SECTION E. OTHER INFORMATION

This section of the notes includes other information that must be disclosed to comply with the accounting standards and other pronouncements, but that is not immediately related to individual line items in the financial statements.

2023 2022

NOTE 20 LOSS PER SHARE (CONTINUED)

Weighted average number of ordinary shares outstanding during the year used in calculation of basic loss per share

The Group does not report diluted earnings per share where options would not result in the issue of ordinary shares for less than the average market price during the period (out of the money). In addition, the Group does not report diluted earnings per share on annual losses generated by the Group. At the end of the 2023 financial year, the Group had no unissued shares under options that were out of the money which are anti-dilutive (2022: Nil).

Accounting Policy

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share

Potential shares as a result of options outstanding at the end of the year are not dilutive and therefore have not been included in the calculation of diluted earnings per share.

NOTE 21 SHARE-BASED PAYMENTS

	Note	2023	2022
		\$	\$
The following share-based payment arrangements were entered			
into during the year:			
Amortisation of Loan Shares issued to Directors	21.1.1 (a)	79,156	32,880

21.1 Share-based payment arrangements

21.1.1 Share-based payments recognised in profit and loss

(a) Directors Loan Shares [30 June 2022]

Following shareholders' approval, the Company issued 20,000,000 Loan shares and 10,000,000 Loan shares on 11 January 2022 and 4 March 2022 respectively to the directors pursuant to the Company's Employee Securities Incentive Plan ("the Plan"), on the following terms:

FOR THE YEAR ENDED 30 JUNE 2023

NOTE 21 SHARE-BASED PAYMENTS (CONTINUED)

Director	Number of Loan Shares	Date of issue	Date of Expiry	Exercise Price	Tranche
Caroline Keats	20,000,000	11 January 2022	11 January 2027	\$0.023	Tranche 1
James Eggins	6,000,000	4 March 2022	4 March 2027	\$0.024	Tranche 2
Quinton de Klerk	4,000,000	4 March 2022	4 March 2027	\$0.024	Tranche 2

The material terms of the Loan and Loan Shares are as follows:

- i. The issue price of each Loan Share will be equal to the 10-day VWAP of the Company's Shares as at date of issue.
- ii. The related parties are to grant the Company a pledge of their respective Loan Shares and a charge over all dividends and other amounts paid or payable on their respective Loan Shares.

iii. The respective Loans must be repaid on the earlier of:

- Five years after issuance of the Loan Shares, and;
- Three months after the relevant related party ceases to be eligible employee for any reason under the Plan; or
- If determined by the Board to be repayable as a result of, or in anticipation of, a change of control event occurring in respect of the Company.
- iv. The related parties must not transfer, encumber or otherwise dispose of, or have a security interest granted over any Loan Share unless and until the respective Loan is repaid.
- v. The Company's sole recourse in the event that a Loan is not repaid will be limited to the respective Loan Shares and the Company may sell the Loan Shares or dispose of such number of Loan Shares for their market price as the Board determines in its absolute discretion.

The loan shares issued to Directors were valued at \$79,156 (2022: \$32,880)

(b) Director Options [30 June 2022]

Following shareholders' approval, the Company issued 14,000,000 Options to the Company's previous Directors on 7 December 2018, on the following terms:

Number of Options	Date of Expiry	Exercise Price
<i>6,000,000</i> ⁽¹⁾	7 December 2023	\$0.045
<i>8,000,000⁽²⁾</i>	7 December 2023	\$0.045

(1) Unquoted options issued to the Directors were valued at \$nil (2022: \$nil) and had no vesting conditions.

(2) Unquoted options issued to the Director were valued at \$nil (2022: \$4,283) and had the following vesting conditions:

- i) 1/3 of options issued vest 12 months after the date of issue
- ii) 1/3 of options issued vest 24 months after the date of issue
- iii) 1/3 of options issued vest 36 months after the date of issue

(c) Director Options [30 June 2022]

Following shareholders' approval, the Company issued 8,000,000 Options to the Company's previous Managing Director, Simon Jackson (or his Nominee), on 29 May 2019, on the following terms:

Number of Options	Date of Expiry	Exercise Price
<i>8,000,000</i> ⁽¹⁾	29 May 2024	\$0.036

(1) Unquoted option issued to Simon Jackson (or his nominee) were valued at \$nil (2022: \$4,712) and had the following vesting conditions:

- i) 1/3 of options issued vest on 29 May 2020
- ii) 1/3 of options issued vest on 29 May 2021
- iii) 1/3 of options issued vest on 29 May 2022

FOR THE YEAR ENDED 30 JUNE 2023

NOTE 21 SHARE-BASED PAYMENTS (CONTINUED)

(d) Corporate advisory fees - Unlisted options [30 June 2022]

The Company issued 25,000,000 Options to corporate advisors on 4 June 2021, on the following terms:

Number of Options	Date of Expiry	Exercise Price
25,000,000 ⁽¹⁾	1 February 2025	\$0.020

(1) Unquoted option issued to the corporate advisors were valued at \$131,816 (2022: \$322,591) and had the following vesting conditions:

- i) 12,500,000 options issued vesting subject to the ENRG Board electing to proceed with the JV Stage 1 (51%) or share price achieving a 10-day VWAP of \$0.03 and commencement of an exploration program on the Horseshoe West Project.
- ii) 12,500,000 options issued vesting subject to the ENRG Board electing to proceed with the JV Stage 2 (70%) or share price achieving a 10-day VWAP of \$0.04 and commencement of an exploration drilling program on the Horseshoe West Project.

The Company issued 2,500,000 Options to a corporate advisor on 4 April 2022, on the following terms:

Number of Options	Date of Expiry	Exercise Price
2,500,000	29/05/2024	\$0.036

Unquoted option issued to the corporate advisor were valued at \$nil (2022: \$32,000)

The Company issued 12,500,000 Options to a corporate advisor on 21 June 2022, on the following terms:

Number of Options	Date of Expiry	Exercise Price
12,500,000	21/06/2025	\$0.035

Unquoted option issued to the corporate advisor were valued at \$nil (2022: \$191,000)

(e) Shares issued to consultants in lieu of services [30 June 2023]

In consideration for services provided by consultants the Company issued 1,232,395 ordinary shares at a deemed issue price of \$0.0284 per share on 15 February 2023.

(f) Performance rights issued contractors and staff [30 June 2023]

4,122,295 Performance Rights were issued as a long-term incentive to key contractors who provide technical services to the Company and 2,192,341 Performance Rights issued to an employee of the Company on 19 August 2022:

Number of Options	Date of Expiry	Exercise Price
6,314,636	19/08/2027	\$0.00

The options issued were valued at \$183,124 (2022: \$nil) and had the following vesting conditions:

- i) 1/3 of options issued vest on 19 August 2025
- ii) 1/3 of options issued vest on 19 August 2025
- iii) 1/3 of options issued vest on 19 August 2025

(f) Options issued as consideration [30 June 2023]

Performance Options were issued on achievement of the vesting condition, as set out in the Notice of Meeting dated 2 February 2022.

Number of Options	Date of Expiry	Exercise Price
50,000,000	24 May 2025	\$0.03

NOTE 21 SHARE-BASED PAYMENTS (CONTINUED)

21.1.2 Share-based payments recognised in equity

(a) Capital raising costs – Shares

30 June 2022

In consideration for services provided by corporate advisors the Company issued:

- 3,121,212 ordinary shares at a deemed issue price of \$0.033 per share on 10 June 2022.
- 1,703,864 ordinary shares at a deemed issue price of \$0.031 per share on 26 June 2022.

21.2 Fair value of loan shares issued during the year

No new loan shares were issued during the year.

21.3 Fair value of options grants during the year

No new options were issued during the year.

Accounting Policy

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using a Black-Scholes model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of ENRG Elements (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of profit or loss and other comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

Key Estimate - Share-based payments

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instrument at the date at which they are granted. The fair value of options granted is measured using either the Binomial or Black-Scholes option pricing model. The model uses assumptions and estimates as inputs. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 21.2 and 21.3.

21.4 Movement in share-based payment arrangements during the year

A summary of the movements of all Company options issued as share-based payments is as follows:

NOTE 21 SHARE-BASED PAYMENTS (CONTINUED)

	2023		2022	
	Number of Options	Weighted Average Exercise Price (cents)	Number of Options	Weighted Average Exercise Price (cents)
Outstanding at the beginning of the year	65,000,000	3.2	50,000,000	5.4
Performance options vested upon meeting vesting conditions	50,000,000	3.0	-	-
Granted in lieu of corporate advisors' fees	-	-	15,000,000	3.5
Expired	-	-	-	-
Outstanding at year-end	115,000,000	3.1	65,000,000	3.1
Exercisable at year-end	115,000,000	3.1	65,000,000	3.2

i. No share-based payment options were exercised during the year.

ii. The weighted average remaining contractual life of share-based payment options outstanding at year end was 1.95 years (2022: 2.25 years).

NOTE 22 SEGMENT REPORTING

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of business category and geographical areas. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics. The Group considers that it has only operated in one segment, being the exploration business.

Basis of accounting for purposes of reporting by operating segments

Accounting policies adopted

The accounting policies used by the Group in reporting segments are in accordance with the measurement principles of Australian Accounting Standards.

Inter-segment transactions

All such transactions are eliminated on consolidation of the Group's financial statements.

Inter-segment loans payable and receivable are initially recognised at the consideration received/to be received net of transaction costs. If inter-segment loans receivable and payable are not on commercial terms, these are not adjusted to fair value based on market interest rates. This policy represents a departure from that applied to the statutory financial statements.

Segment assets

During the year ended 30 June 2023 and 30 June 2022, all assets were in the same business segment, which is the Group's exploration business.

Segment liabilities

During the year ended 30 June 2023 and 30 June 2022, all liabilities were in the same business segment, which is the Group's exploration business.

Revenue by geographical region

There is no revenue attributable to external customers for the year ended 30 June 2023 and 30 June 2022.

Assets by geographical region

During the year ended 30 June 2023 and 30 June 2022, all reportable segment assets are located in Africa and Australia, with the Group's financial assets located in Africa and Australia.

Guarantees entered into by ENRG Elements Limited

There are no guarantees entered into by ENRG Elements Limited for the debts of its subsidiaries as at 30 June 2023 and 30 June 2022.

Contingent liabilities of ENRG Elements Limited

The contingent liabilities of ENRG Elements Limited are the same as those for the Group disclosed in Note 15.

Commitments of ENRG Elements Limited

The commitments of ENRG Elements Limited are the same as those for the Group disclosed in Note 14.

NOTE 24 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

Reporting Entity

ENRG Elements Limited is a listed public company limited by shares, domiciled and incorporated in Australia. The Company's registered office is at Suite 10, 44 Kings Park Road, West Perth, Western Australia. These are the consolidated financial statements and notes of ENRG Elements Limited (the Company) and controlled entities (collectively the Group). The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity. The Group is a for-profit entity and is primarily involved in the exploration, development and mining of minerals.

The separate financial statements of ENRG Elements Limited, as the parent entity, have not been presented with this financial report as permitted by the Corporations Act 2001 (Cth).

Basis of accounting

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board (AAS Board) and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), and the *Corporations Act 2001* (Cth).

Australian Accounting Standards (AASBs) set out accounting policies that the AAS Board has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with AASBs ensures that the financial statements and notes also comply with IFRS as issued by the IASB.

The financial statements were authorised for issue on 29 September 2023 by the Directors of the Company.

NOTE 24 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Going Concern

The financial statements have been prepared on the going concern basis that contemplates the continuity of normal business activities and the realisation of assets and extinguishment of liabilities in the ordinary course of business.

As disclosed in the financial statements, the Group incurred a loss for the year of \$5,275,174 (2022: \$4,542,384 loss) and a net cash out-flow from operating activities of \$3,376,915 (2022: \$2,320,689 out-flow).

The Directors believe that there are reasonable grounds to believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report, after consideration of the following factors:

- a. The Group is in a net current asset position of \$922,541 at year end, which is considered sufficient to meet its liabilities as and when they become due and payable;
- b. The Group has the ability to curtail its exploration activities in order to conserve cash. The Group has the ability to raise further funds through capital raisings as and when required as it has successfully achieved in the past; and
- c. In September 2023, the Group has executed a binding Share Purchase Agreement for the sales of 90% of its Ghanzi West Copper-Silver Project for a total staged consideration amounted to A\$2.5 million as detailed in Note 16.

Comparative Figures

Where required by AASBs comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

Principles of Consolidation

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered (left) the Group during the year, their operating results have been included (excluded) from the date control was obtained (ceased).

Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the parent, ENRG Elements Limited (formerly known as Kopore Metals Limited), and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 10.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as non-controlling interests. The Group initially recognises non-controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary's net assets on liquidation at either fair value or at the non-controlling interests' proportionate share of the subsidiary's net assets. Subsequent to initial recognition, non-controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non-controlling interests are shown separately within the equity section of the statement of financial position and statement of comprehensive income.

Discontinued operations

A discontinued operation is a component of the Group that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the statement of profit or loss and other comprehensive income.

Goods and Services Tax (GST)

Goods and Services Tax (GST) is the generic term for the broad-based consumption taxes that the Group is exposed to such as: Australia (Goods and Services Tax or GST) and in Botswana and Namibia (Value-added tax or VAT), hereafter collectively referred to as GST.

NOTE 24 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the consolidated statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flow.

Foreign currency translation

The financial statements are presented in Australian dollars, which is ENRG Elements Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations are translated into Australian dollars using the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated into Australian dollars using the average exchange rates, which approximate the rates at the dates of the transactions, for the period. All resulting foreign exchange differences are recognised in other comprehensive income through the foreign currency reserve in equity.

The foreign currency reserve is recognised in profit or loss when the foreign operation or net investment is disposed of.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification. An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Use of estimates and judgments

The preparation of consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Judgements made by management in the application of AASBs that have significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed as follows:

Critical Accounting Estimates and Judgements

Judgements, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes assumptions concerning the future. All judgements, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. The resulting accounting estimates will, by definition, seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts and assets and liabilities within the next financial year are discussed below.

NOTE 24 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- i. Key estimate Taxation (refer note 4)
- ii. Key estimate Share-based payments (refer note 21)

Fair Value

Fair Value of Assets and Liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable AASB.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly unforced transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also considers a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

Fair value hierarchy

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly.	Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

The Group would change the categorisation within the fair value hierarchy only in the following circumstances:

- if a market that was previously considered active (Level 1) became inactive (Level 2 or Level 3) or vice versa; or
- if significant inputs that were previously unobservable (Level 3) became observable (Level 2) or vice versa.

When a change in the categorisation occurs, the Group recognises transfers between levels of the fair value hierarchy (i.e. transfers into and out of each level of the fair value hierarchy) on the date the event or change in circumstances occurred.

NOTE 24 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation techniques

The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- · Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2023 reporting periods and have not been early adopted by the Group. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

DIRECTORS' DECLARATION

The Directors of the Company declare that:

1. The financial statements and notes, as set out on pages 17 to 50, are in accordance with the Corporations Act 2001 (Cth) and:

(a) comply with Accounting Standards, Corporations Regulations 2001 and other mandatory professional reporting requirements;

(b) are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, as stated in notes to the financial statements; and

(c) give a true and fair view of the financial position as at 30 June 2023 and of the performance for the year ended on that date of the Group.

(d) the Directors have been given the declarations required by s.295(5)(a) of the Corporations Act 2001 (Cth);

2. in the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

abline her

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ENRG ELEMENTS LIMITED

Opinion

We have audited the financial report of ENRG Elements Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Going Concern Refer to Note 24 in the financial statements	
For the year ended 30 June 2023, the Group incurred a loss of \$5,275,174 and had net cash outflows from operating activities of \$3,376,915. The directors' have prepared the financial report on a going concern basis and believe that it is reasonably foreseeable that the Group will continue as a going concern. The directors' assessment of the Group's ability to continue as a going concern is based on a cash flow budget. We determined this assessment of going concern to be a key audit matter due to the significant judgments involved in preparing the cash flow budget.	 Our audit procedures included: Critically assessing the directors' reasons as to why they believe it is appropriate to prepare the financial report on a going concern basis; Evaluating the current financial position of the Group; Assessing the appropriateness and mathematical accuracy of the cash flow budget prepared by management; Challenging the reasonableness of the key assumptions used in the cash flow budget; In relation to the post reporting date event of the sale of 90% of the Group's Ghanzi West Copper-Silver Project, we obtained the signed share purchase agreement; and Assessing the adequacy of the going concern
Investment in Associate	disclosures in the financial report.
Refer to Note 13 in the financial statementsThe Group owns a 25% stake in Alvis-Crest Holdings(Pty) Ltd (Alvis) with a carrying value of \$642,295. The underlying assets held by Alvis, which support the value of the investment, are the exploration tenements, which, as at the date of this report, have not achieved commercialisation.We considered this to be a key audit matter due to significant management judgements involved in assessing the carrying value of the asset including:	 Our audit procedures included: Assessing that the accounting treatment of the 25% stake in Alvis is appropriate as at 30 June 2023; Obtaining evidence that the Alvis has valid rights to explore in the specific areas of interest; Assessing and evaluating management's assessment of whether indicators of impairment existed as at 30 June 2023;
 Determination of whether the exploration and evaluation expenditure can be associated with finding specific mineral resources and the basis on which that expenditure is allocated to an area of interest; Assessing whether exploration and evaluation activities have reached a stage at which the existence of economically recoverable reserves may be determined; and Assessing whether any indicators of impairment are present and if so, judgement applied to determine and quantify any impairment loss. 	 Assessing management's determination that exploration and evaluation activities have not yet reached a stage where the existence or otherwise of economically recoverable reserves may be reasonably determined; Enquiring with management and reading budgets and other documentation as evidence that active and significant operations in, or relation to, the area of interests will be continued in the future; and Assessing the disclosures in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2023 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <u>https://www.auasb.gov.au/auditors_responsibilities/ar2.pdf</u>. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2023.

In our opinion, the Remuneration Report of ENRG Elements Limited, for the year ended 30 June 2023, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
