DIRECTORS' REPORT

30 JUNE 2023

The Directors of My Foodie Box Limited (Company) present their report, together with the financial statements for the full year ended 30 June 2023.

Directors

The names of the Directors in office at any time during the full year and to the date of this report are:

Name	Position	Appointed / Ceased
Bryan Hughes	Executive Chairman	2 October 2017
Mai (Parisrat) Hughes	Executive Director and CEO	2 October 2017
Guy Perkins	Non-Executive Director	8 September 2021
Shane Wee	Non-Executive Director	10 November 2021 / 17 November 2022

Company Secretary

The following person held the position of Company Secretary during and to the date of this report:

Name	Position	Appointed
Kyla Garic	Company Secretary	8 September 2021

Principal Activity

The Company is a food technology and logistics business. The principal activity of the Company during the year was the development, preparation, and delivery of meal kits to Western Australian households, with a vision to use its existing technology platform to expand its services and product offering to become a broader, national, e-commerce business.

Dividends

There were no dividends paid, recommended, or declared during the current or previous financial year.

Review of operations

The loss for the year amounted to \$4,181,974 (30 June 2022: loss of \$3,472,640). Refer to the statement of profit and loss and other comprehensive income for further information.

2023 has been a challenging year for MBX. We started the year focussed on growth and by October 2022 we were achieving month on month growth of over 30%. All systems were working well and handling this growth but it came at a burn rate of approximately \$400,000 per month. The intention was to scale up and then consolidate but that required additional funding. Unfortunately the equity capital markets collapsed in 2022 and there was no prospects of raising the additional funds required. This change in the external environment necessitated a change in strategy for MBX. The Company transitioned from a growth strategy to a profitability strategy in November 2022. Since that time the Company has consolidated, restructured and reduced costs. The monthly overheads have been reduced from over \$350,000 to under \$100,000. Margins have been improved and subject to subleasing additional warehouse space which has been freed up in the restructure, the business will operate at break even. Having regard to the various factors noted above, the Board is of the view that it may be in the best interests of shareholders that the MBX business be privatised and continue as a private company without the corporate and compliance overheads associated with being a publicly listed company. As noted in the Company's 17 October 2023 ASX announcement, the Company is in advanced discussions regarding a potential management buyout and privatisation of the business which would see the purchaser acquire 100% of the business and assets of the Company as well as take on all of its liabilities (save for specified corporate costs) (**Proposed Transaction**). Discussions on the Proposed Transaction are advanced but incomplete, and there is no guarantee that the transaction will proceed.

If the Proposed Transaction proceeds, MBX will continue to be listed on the ASX and its primary undertaking will be to identify and assess potential acquisition opportunities to facilitate the relisting of the Company on ASX (**Re-Compliance Transaction**).

Significant changes in the state of affairs

There have been no significant changes to the state of affairs.

Matters subsequent to the end of the financial year

On 12 July 2023, the Company issued 96,074,816 fully paid ordinary shares and 96,074,816 free attaching options on conversion of Promissory Note holders and an additional 4,293,936 fully paid ordinary shares and 4,293,936 free attaching options in settlement of interest payable on the Promissory Notes as approved at Annual General Meeting held on 12 April 2023.

On 17 October 2023, the Company announced that it was in advanced discussions regarding the Potential Transaction and that it had secured \$60,000 in loan funding to provide working capital whilst the Company advanced those discussions. In early November, the Company entered into loan agreements with various lenders under which the lenders agreed to loan \$480,000 to the Company, conditional on finalisation of these financial statements, a formal agreement in relation to the Potential Transaction being signed and the Company being reinstated to trading on ASX. The loans bear 10% interest per annum and are repayable in cash on the earlier of 3 years from drawdown and date of completion of a Re-compliance Transaction. Lenders will be issued 1 option for every 2c loaned, each with an exercise price equal to a 50% premium to the capital raising to be undertaken in connection with a Re-compliance Transaction expiring 3 years from issue. Some of the loans are secured against the assets of the Company.

Apart from the above, there are no other matters or circumstance that have arisen since 30 June 2023 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Likely developments and expected results of operations

As noted above, the Company is advanced discussions regarding the Potential Transaction to privatise the business. Discussions are advanced but incomplete, and there is no guarantee the transaction will proceed. The Company will keep the market updated in accordance with its continuous disclosure obligations. The business is finalising a sublease on half the space in the warehouse and that sublease is the last material item in the restructure and restores the business to profitability.

Environmental regulation

The Company aims to comply with the identified regulatory requirements in each jurisdiction in which it operates. There have been no known material breaches of the environmental regulations.

Employee Share Option Plan

The Company has established and maintains the My Foodie Box Limited Employee Securities Incentive Plan (**Plan**) to provide ongoing incentives to Eligible Participants of the Company. Eligible Participants means a person that:

- is an 'eligible participant' (as that term is defined in ASIC Class order 14/1000) in relation to the Company or an Associated Body Corporate; and/or
- has been determined by the Board to be eligible to participate in the plan from time to time.

The purpose of the Plan is to assist in the reward and motivation of Eligible Participants and link the reward of Eligible Participants to shareholder value creation and it is designed to align the interest of Eligible Participants more closely to the interests of shareholders by providing an opportunity for Eligible Participants to receive an equity interest in the Company in the form of securities. There were no Options issued to key management personnel or their related parties under the Plan during the 2023 financial year (2022: Nil Options).

Remuneration report (audited) (continued)

Non-executive Director fee arrangements

The Board policy is to remunerate non-executive Directors at a level to comparable companies for time, commitment, and responsibilities. Directors' fees cover all main Board activities, and non-executive Directors may receive additional remuneration for other services (including being a member of any separate Board committee) provided to the Company. The Board has not established retirement or redundancy schemes in relation to non-executive Directors.

All non-executive Directors enter into a service agreement with the Company in the form of a Letter of Appointment. The letter summarises the board policies and terms, including remuneration, relevant to the office of Director.

The maximum aggregate amount of fees that can be paid to non-executive Directors is presently limited to an aggregate of \$500,000 per annum and any change is subject to approval by shareholders at the General Meeting.

Fees for non-executive Directors are not linked to the performance of the Company, however, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company. Non-executive Directors may also receive equity-based compensation in the form of shares or options.

Consultancy Agreements with Executive Directors

On 15 November 2021, the Company entered into a consultancy agreement with Bryan Hughes pursuant to which it agreed to engage Mr. Hughes to act as an Executive Director (B Hughes Consultancy Agreement). As at 30 June 2023 there was a balance owing in trade & other payables totalling \$51,566.

On 15 November 2021, the Company entered into a consultancy agreement with Mai Hughes pursuant to which it agreed to engage Ms. Hughes to act as an Executive Director (M Hughes Consultancy Agreement). As at 30 June 2023 there was a balance owing in trade & other payables totalling \$127,075.

Share Buy-back

On 19 November 2021, the Company entered into a share buy-back agreement with a shareholder (Seller) for 6,700,000 shares. The buy-back amount is at 25% of the volume weighted average price of the shares over the five days preceding the share buy-back on which shareholder approval is given. These shares will be bought back by the Company if the Company fails to meet the Performance Milestone, which is achieving audited revenue that is equal to or exceeds \$7,000,000 in either the financial year ending 30 June 2022 or the financial year ending 30 June 2023. For the purposes of this Performance Milestone, audited revenue refers to revenue as independently audited by the Company's auditors excluding revenue derived from (1) one-off or extraordinary items; (2) government grants, allowances rebates or handouts; or (3) revenue or profit that has been "manufactured" to achieve the performance milestone. Bryan Hughes and Mai Hughes are the shareholders of the Seller and are also related parties of the Company by virtue of being Directors, meaning the Buy-Back Agreement represents a related party arrangement.

Convertible Loan Agreements

The Company notes that Director's related party and Guy Perkins, entered into Convertible Loan Agreements with the Company pursuant to which a total of 500,000 worth of Convertible Notes is subscribed. These Loan Agreements constitute related party agreements by virtue of Bryan Hughes and Guy Perkins being Directors of the Company. Refer to Note 21 Other Liabilities, for details on the facility.

Short term loan

A related party of a Director provided short term funding to assist in the Company's operations. As at 30 June 2023, \$1,047,191 (2022: Nil) was due and payable under this agreement. The amount is included within trade and other payables as at 30 June 2023. All transactions were made on normal commercial terms and conditions and at market rates or less.

This concludes the remuneration report, which has been audited.

Shares under option

Indemnity and insurance of officers

The Company has entered into a deed of indemnity, insurance and access with each of its Directors. Under these deeds, the Company will agree to indemnify each officer to the extent permitted by the Corporations Act against any liability arising as a result of the officer acting as an officer of the Company. The Company will also be required to maintain insurance policies for the benefit of the relevant officer and allow the officers to inspect board papers in certain circumstances.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 28 to the financial statements.

The Directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The Directors are of the opinion that the services as disclosed in note 28 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Going Concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial statements, the Company incurred a net loss after tax of \$4,181,974 and had cash outflows from operating activities of \$3,336,963 for the year ended 30 June 2023. As at that date, the Company had net current liabilities of \$1,818,288 and net liabilities of \$2,071,140. These factors indicate a material uncertainty which may cast significant doubt as to whether the Company will continue as a going concern and therefore whether it will reduce its assets and extinguish its liabilities in the normal course of business and at the amount stated in the financial report.

Notwithstanding the above, the Directors believe that it is reasonably foreseeable that the Company will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- The business has been restructured to be now operating at break even;
- Related party creditors amounting to \$1,047,191 have signed a deed poll where they will not seek repayment for 12 months;
- Subsequent to the reporting date, the Company secured \$60,000 in loan funding to provide working capital. In addition, the Company has entered into loan agreements under which it (subject to the satisfaction of the conditions to drawdown), will raise \$480,000 in debt funding; and
- The Company is in advanced discussions in relation to a proposed transaction under which the purchaser will acquire 100% of the MBX business and assume its liabilities (save for specified corporate costs). If this proposed transaction completes, the Company will essentially be a cash box entity with minimal operating costs and in a position where it can raise further funds, through debt and equity, to pursue a new project(s).

Accordingly, the Directors believe that the Company will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in preparation of the financial report.

The financial statements do not include any adjustment relating to the recoverability and classification of recorded asset amounts, nor the amounts or classification of liabilities that might be necessary should the Company not be able to continue as a going concern.

Note 1. Significant accounting policies (continued)

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Revenue recognition

The Company recognises revenue as follows:

Revenue from contracts with customers involving sale of goods

The Company derives revenue from the sale of meal kits and other household staple grocery items to its customers. Revenue is recognised when goods are transferred to customers which depicts the transfer to the customer of the goods promised and is measured at an amount that reflects the consideration received and to which the Company expects to be entitled in exchange for the goods delivered.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Government grants

Government grants are recognised when there is reasonable certainty that the grant will be received and all grant conditions are met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to depreciable assets are credited to deferred income and are recognised in profit or loss over the period and in the proportions in which depreciation expense on those assets is recognised.

Government grants include amounts received or receivable under the Federal Government's Cash Flow Boost Scheme, which provides a temporary subsidy to eligible businesses significantly affected by coronavirus (Covid-19).

Income tax

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill.

Deferred income tax is also not recognised if it arises from the initial recognition of an asset or liability in a transaction.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognized directly in equity.

Note 1. Significant accounting policies (continued)

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, and short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within borrowings in current liabilities on the statement of financial position.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance.

Inventories

Inventories are measured at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Note 1. Significant accounting policies (continued)

Investments and other financial assets (continued)

Impairment of financial assets

The Company recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the Company's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss.

Plant and equipment

Plant and equipment

Plant and equipment is measured at cost, less accumulated depreciation and any accumulated impairment losses. Costs include expenditures that are directly attributable to the acquisition of plant and equipment items.

Depreciation

The depreciable amount of all plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held available for use, consistent with the estimated consumption of the economic benefits embodied in the asset.

Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Class of fixed asset	Useful lives	Depreciation basis
Warehouse equipment	4-20 years	Diminishing value
Commercial kitchen	5-15 years	Diminishing value
Improvements	40 years	Straight line
Motor vehicles	12 years	Diminishing value
Office equipment	5-10 years	Diminishing value
Computer equipment	2-4 years	Diminishing value
Cool rooms and refrigeration units	5 years	Diminishing value

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Note 1. Significant accounting policies (continued)

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Company has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Intangible assets

Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually.

IT software development costs

Costs incurred in developing IT software are initially recognised as an asset and are subsequently amortised over their estimated useful lives commencing from the time the asset is available for use. The amortisation method applied to an intangible asset is consistent with the estimated consumption of economic benefits of the asset. Subsequent to initial recognition, IT software development costs recognised as an intangible asset are measured at cost, less accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised over a useful life of 5 years on a straight line basis. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset.

Impairment of non-financial assets

An impairment loss is recognised when the carrying amount of an asset or cash generating unit exceeds the asset's or cash generating unit's recoverable amount. The recoverable amount of an asset or cash generating unit is defined as the higher of its fair value less costs to sell and value in use (where 'value in use' is determined as the present value of the future cash flows expected to be derived from an asset or cash-generating unit).

Impairment losses in respect of individual assets are recognised immediately in profit or loss unless the asset is measured at a revalued amount, in which case the impairment loss is treated as a revaluation decrease and is recognised in other comprehensive income to the extent that it does not exceed the amount in the revaluation surplus for the same asset. Impairment losses in respect of cash generating units are allocated first against the carrying amount of any goodwill attributed to the cash generating unit with any remaining impairment loss allocated on a pro rata basis to the other assets comprising the relevant cash generating unit.

A reversal of an impairment loss for an asset measured at cost is recognised in profit or loss. A reversal of an impairment loss for an asset measured at a revalued amount is treated as a revaluation increase and is recognised in other comprehensive income, except to the extent that an impairment loss on the same asset was previously recognised in profit or loss, in which case a reversal of that impairment loss is also recognised in profit or loss.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Contract liabilities

Contract liabilities represent the Company's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the Company recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the Company has transferred the goods or services to the customer.

Note 1. Significant accounting policies (continued)

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

The component of the convertible notes that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs.

On the issue of the convertible notes the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond and this amount is carried as a non-current liability on the amortised cost basis until extinguished on conversion or redemption. The increase in the liability due to the passage of time is recognised as a finance cost. The remainder of the proceeds are allocated to the conversion option that is recognised and included in shareholders equity as a convertible note reserve, net of transaction costs. The carrying amount of the conversion option is not remeasured in the subsequent years. The corresponding interest on convertible notes is expensed to profit or loss.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Provisions

Provisions are recognised when the Company has a present (legal or constructive) obligation as a result of a past event, it is probable the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for Financial leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Note 1. Significant accounting policies (continued)

Employee benefits (continued)

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided by the Company.

Equity-settled transactions are awards of shares, or options over shares, that are provided by the Company in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Company receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Company or recipient, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Company or recipient and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Note 1. Significant accounting policies (continued)

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividends

Dividends are recognised when declared during the financial year.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 1. Significant accounting policies (continued)

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the financial reporting period ended 30 June 2023. The Company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share based payments

The Company initially measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using an appropriate valuation model taking into account the terms and conditions upon which the instruments were granted. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them, as well as an assessment of the probability of achieving non-market based vesting conditions. The probability of achieving non-market based vesting conditions of performance rights is assessed at each reporting period. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 24.

Note 3. Operating segment

The financial statements have been prepared under one operating segment. The Company is a food technology business focused on preparing and delivering meal kits to customers in Western Australia, with intentions to expand both its offerings and its markets.

To raise funds for working capital the Company conducted a convertible note raising which raised \$500,000. Under this raising, the Company entered into convertible loan agreements with Directors, Bryan Hughes and Guy Perkins. Subject to shareholder approval, these convertible loans are convertible into Shares at a conversion price of 5.3c per share.

The Company also raised funds for working capital under a Promissory note raising to raise \$500,000. Each note has a face value of \$1.00 with an interest rate of 10% per annum. The notes have a maturity date of 24 months from the date of issue.

The convertible loan Agreements were entered into with related parties. Refer to Note 30 for further information.

NOTES TO THE FINANCIAL STATEMENTS

30 JUNE 2023

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital. On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

Refer to Note 11 on the share buy-back.

Capital risk management

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

The capital risk management policy remains unchanged from the 30 June 2022 Financial Report.

Note 25. Dividends

There are no dividend proposed or paid for the financial year ended 30 June 2023 (2022: Nil).

Note 26. Financial instruments

Financial risk management objectives

The Company is exposed to the following financial risks in respect to the financial instruments that it held at the end of the reporting period:

- (a) Interest rate risk
- (b) Credit risk
- (c) Liquidity risk
- (d) Fair values compared with carrying amounts

The Board of Directors have overall responsibility for identifying and managing operational and financial risks.

Interest rate risk

The Company is exposed to interest rate risk in relation to its borrowings. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. The Company manages its interest rate risk through the use of fixed rate borrowings. Undertaking arrangements on fixed interest terms ensures the Company is not exposed to any unnecessary risk resulting from changes and fluctuations in prevailing market rates.

The following table outlines that Company's exposure to interest rate risk in relation to future cashflows and the effective weighted average interest rates on classes of financial assets and financial liabilities:

Financial instruments Interest bearing

Financial Instruments	Interest Bearing	Weighted average interest rate	
2022	\$		
Cash at bank	2,295,813	0.0%	
Hire purchase liability	41,676	9.9%	Fixed

Loans from related party	247,594	0%	
Unsecured Loans	212,070	13.45% to 14.59%	Fixed
	<u>843,240</u>		

No other financial assets or financial liabilities are expected to be exposed to interest rate risk.

Sensitivity

There is no impact on the loss after tax as the Company's borrowings are obtained on fixed interest terms.

NOTES TO THE FINANCIAL STATEMENTS

30 JUNE 2023

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance sheet date of recognised financial assets is the carrying amount of those assets, net of any allowance for impairment of those assets, as disclosed in statement of financial position and notes to financial statements.

The Company does not have any material credit risk exposure to any single counterparty or group of counterparties under financial instruments entered into by the Company.

(i) Cash and cash equivalents

Credit risk for cash and cash equivalents is managed by holding all cash deposits with major Australian banks with a minimum credit rating of AA assigned by reputable credit rating agencies.

(ii) Other receivables

The Company's receivable balances relate to amounts owing from the Australian Taxation Office and from the Directors of the Company (refer to Note 9 for further information). The Company regularly monitors amounts receivable from related parties and their expected recoverable amounts. Given the nature of the amount receivable, the Company believes it will be recovered.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of loans and other available lines of credits. The Company manages its liquidity risk by monitoring forecast cash flows from operating and financing activities.

The following table outlines the Company's remaining contractual maturities for non-derivative financial instruments. The amounts presented in the table are the undiscounted contractual cash flows of the financial liabilities, allocated to time bands based on the earliest date on which the Company can be required to pay.

	< 6 months	6-12 months	1-5 years	Total contractual cash flows	Carrying Amount

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

NOTES TO THE FINANCIAL STATEMENTS

30 JUNE 2023

Fair values compared with carrying amounts

The fair value of financial assets and financial liabilities approximates their carrying amounts as disclosed in statement of financial position and notes to financial statements.

Note 27. Fair value measurement

The following tables detail the Company's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
30 Jun 2023				
Asset				
Financial asset at fair value through profit or loss	-	-	-	-
Total asset	-	-	-	-

30 June 2022

Asset				
Financial asset at fair value through profit or loss	-	103,000	-	103,000
Total asset	-	103,000	-	103,000

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

Derivative financial instruments have been valued using quoted market rates. This valuation technique maximises the use of observable market data where it is available and relies as little as possible on entity specific estimates.

Note 28. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by RSM, the auditor of the Company and its network firms:

	2023 \$	2022 \$
Audit and review services – RSM Australia Partners	70,500	58,000
Other services – RSM Australia Pty Ltd		
Investigating Accountant report	-	12,000

Note 29. Commitments, Contingent Assets & liabilities

There are no contingent liabilities or assets as at 30 June 2023 (30 June 2022: Nil).

There are no commitments as at 30 June 2023 (30 June 2022: Nil).

Note 30. Related party transactions

Consultancy Agreements with Executive Directors

On 15 November 2021, the Company entered into a consultancy agreement with Bryan Hughes pursuant to which it agreed to engage Mr. Hughes to act as an Executive Director (B Hughes Consultancy Agreement). As at 30 June 2023 there was a balance owing in trade & other payables totalling \$58,029.

On 15 November 2021, the Company entered into a consultancy agreement with Mai Hughes pursuant to which it agreed to engage Ms. Hughes to act as an Executive Director (M Hughes Consultancy Agreement). As at 30 June 2023 there was a balance owing in trade & other payables totalling \$127,075.

Share Buy-back (Refer to Note 11)

On 19 November 2021, the Company entered into a share buy-back agreement with a shareholder (Seller) for 6,700,000 shares. The buy-back amount is at 25% of the volume weighted average price of the shares over the five days preceding the share buy-back on which shareholder approval is given. These shares will be bought back by the Company if the Company fails to meet the Performance Milestone, which is achieving audited revenue that is equal to or exceeds \$7,000,000 in either the financial year ending 30 June 2022 or the financial year ending 30 June 2023. For the purposes of this Performance Milestone, audited revenue refers to revenue as independently audited by the Company's auditors excluding revenue derived from (1) one-off or extraordinary items; (2) government grants, allowances rebates or handouts; or (3) revenue or profit that has been "manufactured" to achieve the performance milestone. Bryan Hughes and Mai Hughes are the shareholders of the Seller and are also related parties of the Company by virtue of being Directors, meaning the Buy-Back Agreement represents a related party arrangement.

Convertible Loan Agreements

The Company entered into Convertible Loan Agreements with Bryan Hughes and Guy Perkins, which a total of \$500,000 worth of Convertible Notes were subscribed. Refer to Note 21 Other Liabilities, for details on the facility.

Short term loan

A related party of a Director provided short term funding to assist in the Company's operations. As at 30 June 2023, \$1,047,191 (2022: Nil) was due and payable.

NOTES TO THE FINANCIAL STATEMENTS

30 JUNE 2023

Note 31. Events after the reporting period

On 12 July 2023, the Company issued 96,074,816 fully paid ordinary shares and 96,074,816 free attaching options on conversion of Promissory Note holders and an additional 4,293,936 fully paid ordinary shares and 4,293,936 free attaching options in settlement of interest payable on the Promissory Notes as approved at Annual General Meeting held on 12 April 2023.

On 17 October 2023, the Company announced that it was in advanced discussions regarding the Potential Transaction and that it had secured \$60,000 in loan funding to provide working capital whilst the Company advanced those discussions. In early November, the Company entered into loan agreements with various lenders under which the lenders agreed to loan \$480,000 to the Company, conditional on finalisation of these financial statements, a formal agreement in relation to the Potential Transaction being signed and the Company being reinstated to trading on ASX. The loans bear 10% interest per annum and are repayable in cash on the earlier of 3 years from drawdown and date of completion of a Re-compliance Transaction. Lenders will be issued 1 option for every 2c loaned, each with an exercise price equal to a 50% premium to the capital raising to be undertaken in connection with a Re-compliance Transaction expiring 3 years from issue. Some of the loans are secured against the assets of the Company.

Apart from the above, there are no other matters or circumstance that have arisen since 30 June 2023 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Note 32. Share-based payments

During the financial year, 10,000,000 options were issued. On 18 August 2022, 900,000 Performance Management options ceased with a resignation of personnel. On 9 December 2022, 1,000,000 Non-Executive Director options ceased with a resignation of personnel. **INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MY FOODIE BOX LIMITED**

Opinion

We have audited the financial report of My Foodie Box Limited (the Company) which comprises the statement of financial position as at 30 June 2023, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Company's financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1, which indicates that the Company incurred a net loss after tax of \$4,181,974 and had cash outflows from operating activities of \$3,336,963 for the year ended 30 June 2023. As at that date, the Company had net current liabilities of \$1,818,288 and net liabilities of \$2,071,140. These conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed this matter
Revenue Refer to Note 4 in the financial statements <p>The Company has recognised revenue from contracts with customers of \$5,455,413 for the year ended 30 June 2023.</p> <p>We considered revenue to be a key audit matter as it is the most significant account balance in the statement of profit or loss and other comprehensive income.</p> <p>Management judgement is required in determining the timing of revenue recognition, given the delivery terms and the related timing of when control of goods passes to the end customer.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> Assessing whether the revenue recognition policies are in compliance with the Australian Accounting Standards; Gained an understanding of management's controls related to revenue recognition; Testing, on a sample basis, revenue transactions to sales invoices, delivery documentation and cash receipts to ascertain the occurrence and accuracy of revenue recognised; Testing, on a sample basis, sales transactions before and after the reporting date to ascertain that revenue is recognised in the correct financial year; and Assessing the disclosures in the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2023 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2023.

In our opinion, the Remuneration Report of My Foodie Box Limited, for the year ended 30 June 2023, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

ASX LISTING RULE 4.10.19

The Company has used its cash and assets in a form readily convertible to cash that it had at the time of listing on the ASX in January of 2022 in a way consistent with its business objectives.

The shareholder information set out above was applicable as at 27 October 2023.

Introduction

My Foodie Box Limited (**Company**) has established a corporate governance framework, the key features of which are set out in this statement. In establishing its corporate governance framework, the Company refers to the recommended corporate governance practices for ASX listed entities set out in the ASX Corporate Governance Council Principles and Recommendations (**Principles and Recommendations**).

This Corporate Governance Statement discloses the extent to which the Company, for the period 1 July 2022 to 30 June 2023 (**Reporting Period**), has followed the recommendations set by the ASX Corporate Governance Council in its publication Corporate Governance Principles and Recommendations – 4th Edition (**Recommendations**). The Recommendations are not mandatory, however the Recommendations that will not be followed have been identified and reasons provided for not following them along with what (if any) alternative governance practices the Company intends to adopt in lieu of the recommendation.

The Company has adopted a Corporate Governance Plan which provides the written terms of reference for the Company's corporate governance duties.

Due to the current size and nature of the existing Board and the magnitude of the Company's operations, the Board does not consider that the Company will gain any benefit from individual Board committees and that its resources would be better utilised in other areas as the Board is of the strong view that at this stage the experience and skill set of the current Board is sufficient to perform these roles. Under the Company's Board Charter, the duties that would ordinarily be assigned to individual committees are currently carried out by the full Board under the written terms of reference for those committees.

The information in the statement is current at 02 November 2023 and was approved by a resolution of the Board on the 02 November 2023.

Corporate governance policies and procedures

The Company has adopted the following suite of corporate governance policies and procedures (together, the Corporate Governance Plan):

Corporate Governance

- Statement of Values
- Board Charter
- Corporate Code of Conduct
- Audit and Risk Committee Charter
- Remuneration Committee Charter
- Nomination Committee Charter
- Environmental social and governance committee Charter
- Performance Evaluation Policy
- Continuous Disclosure Policy
- Risk Management Policy
- Trading Policy
- Diversity Policy
- Whistleblower Protection Policy
 - Summary of protections under the Corporations Act
 - Summary of protections under the Taxation Administration Act
 - Designated Disclosure Officers – Key Contacts
- Anti-Bribery and Anti Corruption Policy
- Shareholder Communication Strategy
- Environmental, Social and Governance Policy
- Privacy Policy

The Company's Corporate Governance Plan is available on the Company's website at <https://www.myfoodiebox.com.au/>

CORPORATE GOVERNANCE STATEMENT

Recommendations	Comply	Explanation
Principle 1: Lay solid foundations for management and oversight		
Recommendation 1.1 A listed entity should have and disclose a charter which: <ul style="list-style-type: none"> (a) sets out the respective roles and responsibilities of the board, the chair and management; and (b) includes a description of those matters expressly reserved to the board and those delegated to management. 	Yes	The Company has established the respective roles and responsibilities of its Board, Chair and management, and those matters expressly reserved to the Board and those delegated to management, and has documented this in its Board Charter. The Board Charter further sets out Directors' access to Company records and information, details of the Board's relationship with management, details of the Board's performance review and details of the Board's disclosure policy and is included within the Company Corporate Governance Plan, which is disclosed on the Company's website.
Recommendation 1.2 A listed entity should: <ul style="list-style-type: none"> (a) undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director; and (b) provide security holders with all material information relevant to a decision on whether or not to elect or re-elect a director. 	Yes	<ul style="list-style-type: none"> (a) The Board undertakes appropriate checks (including checks in respect of character, experience, education, criminal record and bankruptcy history (as appropriate)) before appointing a person, these checks were undertaken for all Directors appointed. The checks undertaken are set out in the Nomination Committee Charter. In the event of an unsatisfactory check, a Director is required to submit their resignation. (b) Under the Nomination Committee Charter, all material information relevant to a decision on whether or not to elect or re-elect a Director must be provided to security holders in the Notice of Meeting containing the resolution to elect or re-elect a Director.
Recommendation 1.3 A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.	Yes	The Nomination Committee Charter outlines the requirement to have a written agreement with each Director and senior executive of the Company which sets out the terms of that Director's or senior executive's appointment. <p>The Company has a written agreement with each of its Directors, and senior executives.</p>
Recommendation 1.4 The Company Secretary of a listed entity should be accountable directly to the Board, through the Chair, on all matters to do with the proper functioning of the Board.	Yes	The Board Charter outlines the roles, responsibility and accountability of the Company Secretary. In accordance with this, the Company Secretary is accountable directly to the Board, through the Chair, on all matters to do with the proper functioning of the Board.
Recommendation 1.5 A listed entity should: <ul style="list-style-type: none"> (a) have a diversity policy which includes requirements for the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them; (b) disclose that policy or a summary of it; and (c) disclose as at the end of each reporting period: <ul style="list-style-type: none"> (i) the measurable objectives for achieving gender diversity set by the board in accordance with the entity's diversity policy and its progress towards achieving them; and 	No	The Company has a Diversity Policy, which is disclosed on the Company's website, as part of the Corporate Governance Plan. However, the Diversity Policy does not include requirements for the Board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the Company's progress in achieving them. The Board has not set measurable objectives for achieving gender diversity. <p>Given the Company's stage of development and the number of employees, the Board considers it is not practical to set measurable objectives for achieving gender diversity at this time.</p>

Recommendation 2.5 The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.	No	The Board Charter provides that, where practical, the Chair of the Board should be an independent Director and should not be the CEO/Managing Director. The Chair of the Board is Mr Hughes. Mr Hughes is an Executive of the Company and is not considered to be an independent Director, he is not the CEO/Managing Director. The Board does not have an independent Chair because it was not feasible due to the Company's current size and Board structure.
Recommendation 2.6 A listed entity should have a program for inducting new directors and providing appropriate professional development opportunities for continuing directors to develop and maintain the skills and knowledge needed to perform their role as a director effectively.	Yes	In accordance with the Company's Board Charter, the Nominations Committee (or, in its absence, the Board) is responsible for the approval and review of induction and continuing professional development programs and procedures for Directors to ensure that they can effectively discharge their responsibilities. The Company Secretary is responsible to help organise and facilitate inductions and professional development of directors including receiving briefings on material developments in laws, regulations and accounting standards relevant to the Company.
Principle 3: Instil a culture of acting lawfully, ethically and responsibly		
Recommendation 3.1 A listed entity should articulate and disclose its values.	Yes	The Company is committed to conducting all of its business activities fairly, honestly with a high level of integrity, and in compliance with all applicable laws, rules and regulations. The Board, management and employees are dedicated to high ethical standards and recognise and support the Company's commitment to compliance with these standards. The Company's statement of values (which forms part of the Corporate Governance Plan) is available on the Company's website.
Recommendation 3.2 A listed entity should: <ul style="list-style-type: none"> (a) have a code of conduct for its directors, senior executives and employees; and (b) ensure that the board or a committee of the Board is informed of any material breaches of that code 	Yes	The Company's Corporate Code of Conduct applies to the Company's Directors, senior executives and employees. Principle 4: Safeguard the integrity of corporate reports		
Recommendation 4.1 The board of a listed entity should: <ul style="list-style-type: none"> (a) have an audit committee which: <ul style="list-style-type: none"> (i) has at least three members, all of whom are non-executive directors and a majority of whom are independent directors; and (ii) is chaired by an independent director, who is not the chair of the board, and disclose: <ul style="list-style-type: none"> (iii) the charter of the committee; (iv) the relevant qualifications and experience of the members of the committee; and (v) in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its financial reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner. 	Yes	<p>The Company does not have a separate Audit and Risk Committee.</p> <p>Given the current size and composition of the Board, the Board believes that there would be no efficiencies gained by establishing a separate Audit and Risk Committee. Accordingly, the Board performs the role of the Audit and Risk Committee.</p> <p>Although the Board does not have a separate Audit and Risk Committee, it had adopted an Audit and Risk Committee Charter, which is disclosed on the Company's website.</p> <p>Items usually required to be discussed by an Audit and Risk Committee will be marked as separate agenda items at Board meetings when required, and when the Board convenes to address matters as the Audit and Risk Committee it will carry out the functions which are delegated to it in the Company's Audit and Risk Committee Charter. The Board will deal with conflicts of interest that occur when it performs the functions of an Audit and Risk Committee by ensuring that any Director with a conflicting interest is not party to the relevant discussions.</p> <p>The Board will be responsible for the initial appointment of the external auditor and the appointment of a new external auditor when any vacancy arises. Candidates for the position of external auditor must demonstrate complete independence from the Company through the engagement period. The Board may otherwise select an external auditor based on criteria relevant to the Company's business and circumstances. The performance of the external auditor will be reviewed on an annual basis by the Board.</p>
Recommendation 4.2 The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.	Yes	<p>The Company's Audit and Risk Committee Charter requires the CEO and CFO (or, if none, the person(s) fulfilling those functions) to provide a sign off on these terms.</p> <p>The Board will receive a signed declaration from the CFO and CEO in accordance with Recommendation 4.2 prior to the approval of the Company's financial statements.</p>
