## Exhibitor Presentation - PTR Positioned for Growth

---

**Petratherm Limited** (ASX: PTR) (“**PTR**” or “**the Company**”) is pleased to release the following Company Exhibitor Presentation for the RIU Fremantle Explorers Conference (13-15 February 2024). PTR is a critical minerals explorer focused on the discovery of world-class copper-gold-uranium and rare earth (REE) deposits.

PTR has defined several high-priority Iron-Oxide Copper-Gold targets at its Mabel Creek and Woomera Projects located in the Olympic Copper-Gold Province of South Australia.

Exploration drilling at the Comet Project Area, in the northern Gawler Craton of South Australia has delineated three major REE occurrences. The Meteor, Artemis and Comet East REE Prospects occur at shallow depths, include high-grade blankets of mineralisation showing good lateral extent and ore thickness. Less than 10% of the project area has been explored for REE’s and a systematic program of advancement of current prospects, testing of new areas and metallurgical recovery test work is ongoing.

This announcement has been authorised for release on the ASX by the Company’s Board of Directors.
