- Russell Baskerville Non-Executive Chairman
- Mark Waller Managing Director
- Winton Willesee Non-Executive Director
- Nathan Kerr Executive Director

PRINCIPAL ACTIVITIES

The principal activities of the Group during the financial year were providing online taxation preparation (and other life administration) software and services in Australia, offering a range of other financial services.

DIVIDENDS PAID OR RECOMMENDED

The Directors of the Company do not recommend the payment of a dividend in respect of the current financial year ended 31 December 2023 (2022: Nil).

OPERATING RESULTS

The consolidated Group's net loss after providing for income tax for the year ended 31 December 2023 amounted to \$2,599,477 (31 December 2022: \$6,907,854).

REVIEW OF OPERATIONS

2023 marked the first full financial year of being ASX listed for One Click Group. Since listing the Company has continued to execute on its business plan.

In its first full year of being listed the business was able to materially grow revenues to \$3.9m which is 2.4 times the 2022 revenue of \$1.6m. Importantly the revenue at this level covers the running costs of the Company excluding marketing costs which are designed to increase revenue further. This is demonstrating the scalability of the business model employed by the Company.

One Click Group consists of two fintech platforms; One Click Life and One Click Verify.

One Click Life www.oneclicklife.com.au

One Click Life is creating a financial hub for individuals to manage all their life's finances in a simple, low-cost format from their mobile phone. One Click Life has over 120k registered users and growing rapidly with user numbers increasing by almost 55k users last calendar year.

One Click Verify www.oneclickverify.com.au

One Click Verify is a digital identity verification platform allowing businesses to digitally identify their customers as part of an onboarding or transaction process. One Click Verify has a growing number of customers using the platform to digitally identify their clients.

DIRECTORS' REPORT

Financial Review

The key focus of 2023 was increasing the registered user numbers on the One Click Life platform and generating revenue from both existing and new users through the completion of an online tax return. During this time we were also able to focus on expanding the product suite and commence building out annuity revenue streams through additional products offered on the One Click Life platform and the One Click Verify platform. This has seen revenue expand to a record \$3.9m in 2023 (\$1.6m 2022).

Operating expenses for 2023 totalled \$3.4m creating a \$0.5m operating margin before marketing expenses for the year.

Marketing expenses for 2023 totalled \$2.3m. Importantly with the marketing efforts we were able to grow revenue by \$2.3m when compared to 2022.

The resultant EBITDA loss was \$1.9m in 2023.

	\$('000)
Revenue	3,853
Operating Expenses	<u>3,401</u>
Margin After Opex	<u>452</u>
Marketing Expenses	<u>2,347</u>
EBITDA/(Loss)	<u>(1,895)</u>

The financial summary above further validates the business model employed by the Company. That is to continue to increase revenue via marketing spend while the business model does not require a material increase in operating expenditure each year as the products offered on the One Click Life platform are not labour intensive and are designed to be delivered in a scalable format.

DIRECTORS' REPORT

One Click Life

One Click Life is creating a financial hub for individuals to manage all their life's finances in a simple, low-cost format from their mobile phone.

We will continue to expand the products available on the One Click Life platform. The aim in bringing new products to market is to allow our customers to manage all of their financial lives in a simple, low-cost format from their mobile phones. We will also continue to optimise the suite of products already available on the One Click Life platform in an ongoing continuous improvement cycle.

One Click Life is designed with three core modules, our competencies.

Module 1 Individual **Tax** Returns. Our tax products are mature and are the reason most new users register on the one Click Life platform. We will continue to invest in the quality of this product given the opportunity we have to impress our customers in their first interaction with us.

Module 2 is our **Lending** competency. This commenced generating revenue in the June quarter of 2023. The product is now receiving regular personal loan, car finance and mortgage applications solely from the platform's existing user base. We will continue to improve the products available within this module and we anticipate this will continue to contribute towards improving Average Revenue Per User on the platform.

Module 3, under construction, is **Financial Services** and is set to be the third core competency of the One Click Life platform. This will encompass superannuation, investing and associated products and services. Work has commenced to create this competency and we currently derive small amounts of revenue from the products that are live in this module.

DIRECTORS' REPORT

Across the One Click Life platform we seeing a rapid growth in user numbers as well as Average Revenue Per User (ARPU) and subsequently revenue.

User numbers growing:

Shift to digital professional services is accelerating. Combined with a mature marketing function we are generating significant growth in user numbers.

81% growth in users since 31 Dec 2022

Growing ARPU:

Additional products generating revenue in CY2023 and contributing to growth in Average Revenue Per User (ARPU).

33% growth in ARPU since 31 Dec 2022

Significant growth in revenue:

Combination of the growth in user numbers and ARPU has resulted in a significant growth in revenue with CY2023 Revenue of \$3.9m.

2.4x growth in revenue since 31 Dec 2022

In 2023 we saw user numbers grow by almost 55k with ARPU growing from \$25 to \$32 in the space of 12 months as a result of the introduction of new products to the One Click Life platform. The continuing expansion of both the products available on the platform and the users on the platform is expected to continue to grow the revenue for this platform.

One Click Verify

In response to the requirement for the One Click Life platform to identify its tax customers, during its development phase, the Company established a digital identity verification product within the One Click Life platform. Upon developing a very succinct customer onboarding process, it was decided to replicate this part of the One Click Life onboarding experience into its own platform, One Click Verify, capable of being commercialised.

One Click Verify is an all-in-one identity verification platform that makes it simple for businesses to engage in commerce with their customers digitally via mobile, desktop or PC, in Australia or overseas.

One Click Verify is a comprehensive and secure way to comply with Know Your Customer (KYC) and Anti-money laundering (AML) obligations when onboarding or transacting with a client. One Click Verify is designed to completely automate your organisation's identity verification and AML program requirements from first customer contact via phone, email and or face to face through to finalising a commercial engagement.

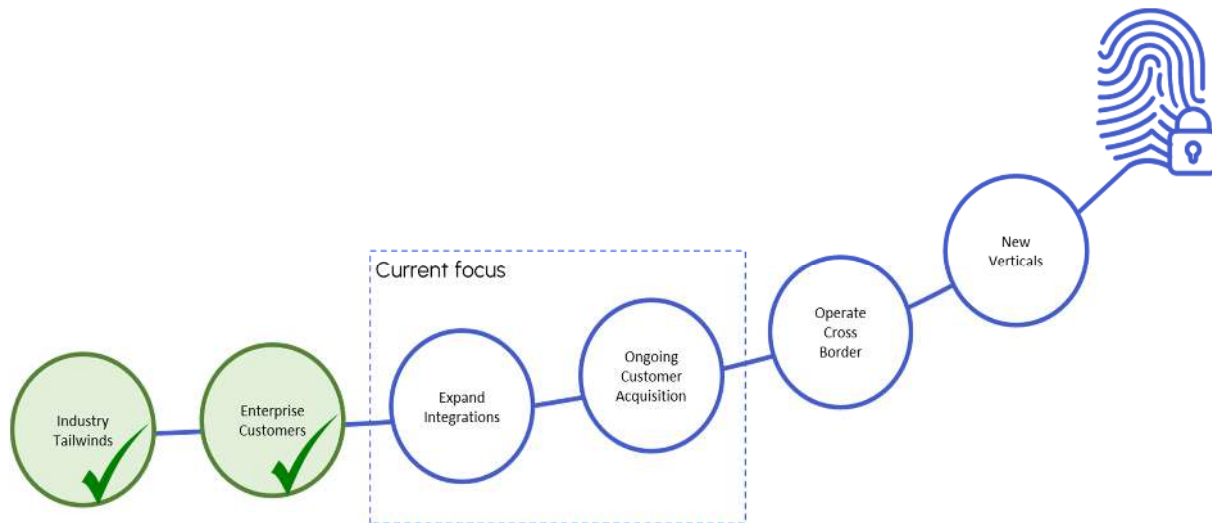

One Click Verify is IRESS XPlan integrated for digital identification of clients in the financial services industry. The solution is designed for seamless and secure transfer of client information in a simple process without having to store client data or identity documents.

One Click Verify is an approved Gateway Service Provider connected to Department of Home Affairs (Attorney General's Office) and the ATO enabling speedy verification of identity document information inclusive of biometrics liveness and likeness check. One Click Verify is one of the only Australian Gateway Service Providers to be IRAP certified by the Australian Signals Directorate.

One Click Verify enables businesses to engage with clients overseas, quickly identifying them using passport and biometric liveness and likeness check creating a global solution for a customer's client base identity verification requirements.

DIRECTORS' REPORT

The focus for continuing commercialisation of One Click Verify is expanding the integrations available and continuing to grow the number of customers using the platform to digitally identify their clients.

During 2023 the Company launched and commenced growing the number of users on the One Click Verify platform. This activity is continuing to build transaction volume and with it an annuity revenue stream. The platforms charge model is a transaction charge (an identity verification) on the platform. Sales efforts are split between expanding the number of customers using the platform as well as targeting integrations with other platforms to assist with the distribution of the products available on the platform.

For more information on the One Click Verify platform: <https://oneclickverify.com.au/>

The Company would like to thank all the shareholders who have supported the Company through the year during the commercialising its One Click Life and one Click Verify platforms. The Board looks forward to continuing to keep you updated regularly with news in the year ahead.

MATERIAL BUSINESS RISK

As a Company in its growth phase, the Company's operations have historically been loss making as it deploys capital to marketing and development and seeks to grow its user base and expand its product offering. The Company is striving towards its operations being profitable in future financial periods without the need to raise more capital, however, there is always a risk that this may not occur. If the Company requires to raise additional capital this could be dilutive to current shareholders. If the Company requires capital and is unable to secure additional funding, this could delay, suspend or reduce the scope of the Company's business strategy and could have a material adverse effect on the Company's operating and financial performance.

The ongoing success of the Company will depend on its continued relationships with existing customers. The Company puts considerable effort into maintaining a high-quality product that its customers find simple to use. The ongoing use of this product and payments of fees to the Company are important for its continued success. The Company attracts new customers via its marketing efforts and has been able to scale up marketing efforts at a commercial cost point to date. If the Company can no longer achieve this its business model will be at risk.

DIRECTORS' REPORT

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than detailed in the review of operations, there were no other significant changes in the state of affairs of the Company during the financial year.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

No matter or circumstances have arisen since 31 December 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

AGM

The Company will hold its next Annual General Meeting ('AGM') on 22 May 2024.

In accordance with ASX Listing Rule 3.13.1, the closing date for the receipt of nominations from persons wishing to be considered for election as a director of the Company is 2 April 2024.

Any nominations must be received in writing no later than 5.00pm (WST) on 2 April 2024 at the Company's registered office.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

ENVIRONMENTAL REGULATION

The Company is not subject to any significant environmental regulation under Australian Commonwealth or State law.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED)

The remuneration report details the key management personnel remuneration arrangements for the Company, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the Group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness;
- acceptability to shareholders;
- performance linkage / alignment of executive compensation; and
- transparency.

The Board, fulfilling the role of the Nomination and Remuneration Committee, is responsible for determining and reviewing remuneration arrangements for its directors and executives. The performance of the Group depends on the quality of its directors and executives. The remuneration philosophy is to attract, motivate and retain high performance and high-quality personnel.

The Board has structured an executive remuneration framework that is market competitive and complementary to the reward strategy of the Company.

DIRECTORS' REPORT

The reward framework is designed to align executive reward to shareholders' interests. The Board have considered that it should seek to enhance shareholders' interests by:

- having value creation and capital growth in advance of economic profit as a core component of plan design;
- focusing on sustained growth in shareholder wealth, consisting of growth in share price and eventually dividends, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value; and
- attracting and retaining high calibre executives.

Additionally, the reward framework should seek to enhance executives' interests by:

- rewarding capability and experience;
- reflecting competitive reward for contribution to growth in shareholder wealth; and
- providing a clear structure for earning rewards.

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors' remuneration

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed from time to time by the Board fulfilling its role as the Nomination and Remuneration Committee. The Board may, from time to time, receive advice from independent remuneration consultants to ensure non-executive directors' fees and payments are appropriate and in line with the market. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not entitled to vote on the determination of his own remuneration. Given the nature of the Company and the more hands-on role the non-executive directors' play in the operations of the Company non-executive directors may receive share options or other incentives.

ASX listing rules require the aggregate non-executive directors' remuneration be determined periodically by a general meeting, with any increase to the aggregate remuneration to be subject to shareholder approval.

Executive directors' remuneration

The Group aims to reward executives based on their position and responsibility, with a level and mix of remuneration which has both fixed and variable components.

The executive remuneration and reward framework has four components:

- base pay and non-monetary benefits;
- short-term performance incentives;

DIRECTORS' REPORT

- share-based payments; and
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed regularly by the Board fulfilling the role of Nomination and Remuneration Committee based on the overall performance of the Company and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other benefits where it does not create any additional costs to the Company and provides additional value to the executive.

The short-term incentives ('STI') program has yet to be finalised. Once adopted it will be designed to align the targets of Company with the performance hurdles of executives. STI payments will be granted to executives based on specific annual targets and key performance indicators ('KPI's') being achieved.

The long-term incentives ('LTI') include equity-based payments. Equity securities are awarded to executives with vesting conditions and expiry dates aligned to the Company's business plans and targets. The details of the current vesting conditions and targets are as follows and further detailed in the section on service agreements found below.

There are currently no outstanding unissued Options or Performance Rights.

Options

At the 2023 Annual General Meeting held on 24 May 2023, shareholders approved the issue of options to the Directors. The options were issued on 21 June 2023.

Indemnity and insurance of officers

The Company has indemnified the directors and executives of the Company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in Note 22 to the financial statements.

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in Note 22 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of the Financial Statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(a) General Information

One Click Group Limited ('Company') or ('Entity') is a public Company limited by shares, incorporated and domiciled in Australia. The Consolidated Financial Report of the Company as at and for the year ended 31 December 2023 comprises the Company and its subsidiaries (together referred to as the 'Consolidated Entity' or 'Group').

One Click Group Limited is a taxation preparation software and service provider in Australia, offering a range of other financial services. The One Click Life platform aims to enable Australians to manage their financial lives conveniently on their mobile phones in a simple and cost-effective format. One Click Verify provides businesses a safe means of commerce through digital identifying clients and anti money laundering checks.

(b) Basis of Preparation

The financial report is a general-purpose financial report which has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. One Click Group Limited is a for profit entity for the purpose of preparing the Financial Statements.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB'). Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied.

The Financial Statements were approved by the Board of Directors on 27 February 2024.

Historical cost convention

The financial report has been prepared on an accrual basis and is based on historical costs *modified* by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. All amounts are presented in Australian dollars.

(c) Going Concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a loss of \$2,599,477 and had net cash outflows from operating activities of \$2,260,711 for the year ended 31 December 2023.

The Board believes that there are reasonable grounds to believe that the Company will be able to continue as a going concern and that it is appropriate for it to adopt the going concern basis in the preparation of the financial report after consideration of following factors:

- The Company anticipates its revenue to continue to increase from tax and other products;
- The Company has the ability to issue additional equity securities under the Corporations Act 2001 to raise further working capital; and
- The Company has the ability to curtail administrative, marketing and overhead cash outflows as and when required.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Accordingly, the Board believes that the Company will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

(d) Impact of the adoption of new or amended Accounting Standards and Interpretations

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(e) Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Financial Statements requires Management to make judgments, estimates and assumptions that affect the reported amounts in the Financial Statements. Management continually evaluates its judgments and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgments and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognised in the Financial Statements are outlined below:

(i) Share based payments.

The Group measures the cost of equity settled transactions with employees by reference to the fair value of equity instruments at the date at which they are granted. The fair value is determined using an appropriate valuation model, inputs used in valuing share-based payments, including options, are estimates.

(ii) Amortisation of intangible assets

Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems. Costs capitalised include external direct costs of materials and services and employee costs. Assets in the course of construction include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the Group has an intention and ability to use the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(f) Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in note 27.

(g) Principles of consolidation

The financial statements incorporate the assets and liabilities of all subsidiaries of the One Click Group Limited as at 31 December 2023 and the results of all subsidiaries for the year then ended. One Click Group Limited and its subsidiaries together are referred to in these financial statements as the 'Consolidated Entity' or 'Group'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

(h) Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(i) Revenue recognition

Revenue from contact with customer

Revenue rises mainly from service contracts. To determine whether to recognise revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

The Group often enters into transactions involving the Group's products and services. In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when the Group satisfies performance obligations by transferring the promised goods or services to its customers. The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than a period of time is required before the consideration is due.

Services revenue

Revenue from the provision of services is recognised when the service has been provided. Each service is deemed a separate performance obligation. The transaction price is allocated to each obligation based on contract prices. Revenue from services is predominantly recognised on the basis of the value of the work completed at a point in time.

Transaction price and contract modifications

The transaction price is the amount of consideration to which the company expects to be entitled to under the customer contract and which is used to value total revenue and is allocated to each performance obligation. The determination of this amount includes "fixed remuneration", (for example lump sum, schedule of rates or pricing for services) and "variable consideration".

The main variable consideration elements are claims (contract modifications) and consideration for optional works and provisional sums each of which needs to be assessed. Contract modifications are changes to the contract approved by the parties to the contract.

The right to the consideration to be provided from contractually generating an enforceable right once the enforceable right has been identified. The Group applies the guidance given in AASB 15 in relation to variable consideration. This requires assessment that is highly probable that there will not be a significant reversal of revenue in the future.

The measurement of additional consideration arising from claims is subject to a high level of uncertainty, both in terms of the amount that customers will pay and the collection times, which usually depend on the outcome of negotiations between the parties or decisions taken by judicial/arbitration bodies. The Group considers all relevant aspects in circumstances such as the contract terms, business in negotiating practices of the sector, the Group's historical experiences with similar contracts and consideration of those factors that affect the variable consideration that are out of control of the Group or other supporting evidence when making the above decision.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Loss making contracts

A provision is made for the difference between expected cost of fulfilling a contract and expected on and portion of the transaction price whether forecast costs are greater than forecast revenue. The provision is recognised in full in a period in which the loss-making contract is identified under AASB 137 *Provisions, Contingent Liabilities and Contingent Assets*.

Under AASB 137, the assessment of whether a provision needs to be recognised takes place at the contract level and there are no segmentation criteria to apply. As a result, there are some instances where loss provisions recognised in the past have not been recognised under AASB 15 because the contract as a whole is profitable.

In addition, when two or more contracts entered into at or near the same time are required to be combined for accounting purposes, AASB 15 requires the Group to perform the assessment of whether the contract is onerous at the level of the combined contracts. The Group also notes that the amount of loss accrued in respect of a loss contract under AASB 111 takes into account an appropriate allocation of construction overheads. This contrasts with AASB 137 where loss accruals may be lower as they are based on the identification of 'unavoidable costs'.

(j) Interest and dividend income

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividend income, other than those from investments in associates, are recognised at the time the right to receive payment is established.

(k) Government grant

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Government assistance which does not have conditions attached specifically relating to the operating activities of the Group is recognised in accordance with the accounting policies above.

(l) Intangible assets, research and development

Internally generated software

Internally developed software is capitalised at cost less accumulated amortisation. Amortisation is calculated using the straight-line basis over the asset's useful economic life which is generally four to seven years. Their useful lives and potential impairment are reviewed at the end of each financial year.

Software under development

Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems. Costs capitalised include external direct costs of materials and services and employee costs. Assets in the course of construction include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the Group has an intention and ability to use the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Impairment testing of intangible assets.

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

(m) Plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	3-7 years
---------------------	-----------

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

(n) Financial instruments

(i) Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument. Financial assets are derecognized when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognized when it is extinguished, discharged, cancelled or expires.

(ii) Classification and initial measurement

Financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

Financial assets are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)
- fair value through other comprehensive income (FVOCI)

In the periods presented, the Group does not have any financial assets categorized as FVOCI.

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognized in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(iii) Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Impairment of financial assets

AASB 9's impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. This replaced IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortised cost and FVOCI, trade receivables, contract assets recognised and measured under AASB 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

Recognition of credit losses is no longer dependent on the Group first identifying a credit loss event. Instead, the Group considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').
- 'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(o) Trade and other receivables and contract assets

Trade receivables are initially recognized at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

Other receivables are recognized at amortised cost, less any allowance for expected credit losses.

Contract assets are recognized when the consolidated entity has transferred goods or services to the customer but where the consolidated entity is yet to establish an unconditional right to consideration.

The Group makes use of a simplified approach in accounting for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

(p) Trade and other payable

Trade and other payables, including accruals, are recorded when the Group is required to make future payments as a result of purchases of assets or services provided to the Group prior to the end of financial period. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised at cost.

(q) Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(r) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification. An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

(s) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(t) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(u) Dividends

Dividends are recognised when declared during the financial year and no longer at the discretion of the Company.

(v) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(w) Provisions

Provisions are recognised when the consolidated entity has a present (legal or constructive) obligation as a result of a past event, it is probable the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

(x) Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contribution to defined contribution superannuation plans are expensed in the period in which they are incurred.

(y) Goods and Services Tax

Revenues, expenses and assets are recognised net of GST except where GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authorities are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(z) Share based payments

Share-based payments which have been granted to employees and third parties comprise of share rights and share options.

Share rights

The value of share rights granted to key management personnel in a year is recognised as an employee benefit expense with a corresponding increase in equity (share-based payments reserve). In the year in which the share rights become vested, the value of share rights which have vested will be recognised in share capital reserve.

Upon issue of the related shares, the value in the share capital reserve is transferred to share capital. The basis for the value recognised for each share right is the price at the time when the terms of the grant are agreed between the Group and the counter party.

Share options

The fair value of options granted to key management personnel, employees and third-party service providers is recognised as an employee benefit expense with a corresponding increase in equity (share-based payments reserve). The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is determined using an appropriate valuation model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of the options granted excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable.

At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised in each period takes into account the most recent estimate.

This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(aa) Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the cost of the asset. All other finance costs are expensed in the period in which they are incurred.

(bb) Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

2. SEGMENT INFORMATION

Primary Reporting Format – Business Segments

The Group has one geographical location which is Australia. The Group operates a financial technology platform to handle financial administration tasks such as lodging tax returns, wills and private health insurance.

Identification of reportable operating segments

The operating segment identified is based on the internal reports that are reviewed and used by the Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments. The CODM reviews EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements. The information reported to the CODM is on at least a quarterly basis.

The numerical reconciliation between tax expense and the accounting loss before income tax multiplied by the Group's applicable income tax rate is as follows:		
Accounting (loss) before income tax	(2,599,477)	(6,907,854)
Income tax expense/(benefit) calculated at the Group's applicable tax rate	649,869	1,726,964
Tax effect of non-deductible expenses and non-assessable income (permanent differences)	(27,252)	(1,018,580)
Tax effect of the de-recognition of tax losses and timing differences	(622,617)	(708,384)
Income tax (expense)/benefit	-	-

Historical tax losses not brought to account are estimated at \$9,841,602 (2022: \$9,640,753).

The benefit of the estimated income tax losses of \$2,903,570 have not been brought to account as Deferred Tax Asset.

The benefit for tax losses will only be obtained if:

- the Group derives future assessable income of a nature and an amount sufficient to enable the benefit from the deductions for the losses to be realised;
- the Group continues to comply with the conditions for deductibility imposed by Law; and
- no changes in tax legislation adversely affect the ability of the Group to realise these benefits.

8. FINANCIAL RISK MANAGEMENT

i. Overview

The financial risks arising from the Group's operations comprise market, liquidity and credit risk. These risks arise in the normal course of business, and the Group manages its exposure to them in accordance with the Group's portfolio risk management strategy.

The objective of the strategy is to support the delivery of the Group's financial targets while protecting its future financial security and flexibility by taking advantage of the natural diversification provided by the scale, diversity and flexibility of the Group's operations and activities.

This note presents information about the Group's exposure to each of the above risks, their objectives, policies and processes for measuring risk and the management of capital.

The Group's Risk Management Framework is supported by the Board. The whole Board is responsible for approving and reviewing the Group's Risk Management Strategy and Policy. Management is responsible for monitoring appropriate processes for identifying, monitoring and managing significant business risks faced by the Group and considering the effectiveness of its internal control system.

The Board has established an overall Risk Management Policy which sets out the Group's system of risk oversight, management of material business risks and internal control.

The Group holds the following financial instruments:

ii. Financial Risk Management Objectives

The overall financial Risk Management Strategy focuses on the unpredictability of the finance markets and seeks to minimise the potential adverse effects on financial performance and protect future financial security.

iii. Credit Risk

Credit risk is the risk of the financial loss to the Group if counterparty to a financial instrument fails to meet its contractual obligations and the risk arises principally from the Group's cash and cash equivalents, deposits with banks and financial institutions, and receivables.

Cash at bank is placed with reliable financial institutions. For banks and financial institutions, the Group banks only with financial institution with high quality standing or rating.

The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared risk characteristics and the days past due. Trade receivables are written off when there is no reasonable expectation of recovery. Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk at the reporting date was:

	CONSOLIDATED	
	31 December 2023 (\$)	31 December 2022 (\$)

Cash at bank – Commonwealth Bank	47,913	344,097
	1,096,263	2,786,490

iv. Liquidity Risk

Liquidity risk arises from the financial liabilities of the Group and the Group's subsequent ability to meet their obligations to repay their financial liabilities as and when they fall due.

Ultimate responsibility for Liquidity Risk Management rests with the Board of Directors. The Board has determined an appropriate Liquidity Risk Management Framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and continuously monitoring budgeted and actual cash flows and matching the maturity profiles of financial assets, expenditure commitments and liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of the discounting is not significant.

Contractual maturities of financial liabilities	Less than 6 months (\$)	6 – 12 months (\$)	More than 12 months (\$)	Total (\$)	Carrying Amount (\$)

Total	626,436	-	-	626,436	626,436

v. Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates may affect the Group's income or the value of its holdings of financial instruments. The objective of Market Risk Management is to manage and control market risk exposures within acceptable parameters, while optimising return.

vii. Interest Rate Risk

The Group's exposure to interest rates primarily relates to the Group's cash and cash equivalents. As the Group has no significant interest-bearing assets, its income and operating cash flows are substantially independent of changes in market interest rates. The Group has a low level of interest-bearing liabilities and as such does not actively manage exposure to interest rate risk

Profile

At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments are:

Variable Rate Instruments

	CONSOLIDATED	
	31 December 2023 (\$)	31 December 2022 (\$)
Financial Assets	1,096,263	2,786,490
Financial Liabilities	(174,050)	(234,040)
	922,213	2,552,450

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The Group's exposure to interest rate risk and effective weighted average interest rate by maturing periods is set out in tables below. All cash balances are subject to a floating interest rate.

31 December 2023

	Weighted Average Effective Interest Rate	Cash Available for use
Cash and cash equivalents	1.51%	1,096,263
Financial liabilities	8%	-

31 December 2022

	Weighted Average Effective Interest Rate	Cash Available for use
Cash and cash equivalents	0.95%	2,786,490
Financial liabilities	8%	-

Cash Flow Sensitivity Analysis for Variable Rate Instruments

Up to the end of the reporting period, the Group did not have any hedging policy with respect to interest rate risk as exposure to such risk was not deemed to be significant by the directors since these assets are of a short-term nature. Management considers the potential impact on profit or loss of a defined interest rate shift that is reasonably probable at the end of the reporting period to be immaterial.

9. CASH AND CASH EQUIVALENTS

Cash and cash equivalents included in the Consolidated Statement of Cash Flows comprise the following Consolidated Statement of Financial Position amounts:

	CONSOLIDATED	
	30 December 2023 (\$)	31 December 2022 (\$)
Cash at Bank and on hand	1,091,263	2,781,490
Term Deposit	5,000	5,000
	1,096,263	2,786,490

The term deposit amount is used as security for credit cards. No amount of the Group's Cash at bank and on hand is restricted (31 December 2022: Nil). Refer to Note 9 Financial Risk Management for risk exposure analysis for Cash and cash equivalents.

(A) Software assets

The Group developed the One Click Life Platform, which provides taxation preparation software and services in Australia. Costs capitalised include costs directly attributable to the development of the asset. The Platform delivered to market has begun generating revenues.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(B) Amortisation

Amortisation is charged to the Statement of Profit or Loss using the straight-line basis over the estimated useful life of the intangible asset. The estimated useful life of the software intangible assets has been determined to be 5 years (2022: 6 years).

The residual value, the useful life and the amortisation method applied to the intangible asset are reviewed at each financial year end and adjusted if required.

DIRECTORS' DECLARATION

In the opinion of the Directors of One Click Group Limited (Group):

- (a) the Financial Statements, comprising the consolidated statement of profit or loss and other comprehensive income, consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity, and Notes set out on pages 29 to 64, are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2023 and of their performance, for the financial period ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and Corporations Regulations 2001; and other mandatory professional reporting requirements.
- (b) the Financial Report also complies with International Financial Reporting Standards as disclosed in Note 1; and
- (c) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

The Directors have been given the declarations required by Section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of the Directors.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF ONE CLICK GROUP LIMITED**

Opinion

We have audited the financial report of One Click Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Revenue Recognition - Cut Off	
<p>As disclosed in the consolidated statement of profit or loss and other comprehensive income, the Group has recognised revenue of \$3,852,693 for the year ended 31 December 2023.</p> <p>We determined revenue recognition in relation to cut off to be a key audit matter as the revenue balance is material to the Group and there are risks associated with the timing of revenue recognition.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Testing a sample of revenue transactions before and after the reporting date to assess whether revenue is recognised in the correct financial period; • Assessing the disclosures in the financial statements.
Going Concern	
<p>The Group incurred a loss of \$2,599,477 and had net cash outflows from operating activities of \$2,260,711 for the year ended 31 December 2023.</p> <p>The directors have prepared the financial report on the going concern basis. The directors' assessment of the Group's ability to continue as a going concern is based on a cash flow budget.</p> <p>We determined this assessment of going concern to be a key audit matter due to the significant judgments involved in preparing the cash flow budget, and the potential material impact of the results of management's assessment.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Critically assessing the directors' reasons as to why they believe it is appropriate to prepare the financial report on a going concern basis; • Assessing the current financial position of the Group; • Assessing the appropriateness and mathematical accuracy of the cash flow budget prepared by management; • Challenging the reasonableness of key assumptions used by management to prepare the cash flow budget; • Performing sensitivity testing on these assumptions; and • Assessing the adequacy of the going concern disclosures in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 31 December 2023 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 31 December 2023.

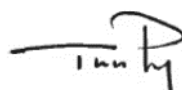

In our opinion, the Remuneration Report of One Click Group Limited, for the year ended 31 December 2023, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
