About Midway Limited

Founded in 1980, Midway Limited is one of Australia's largest woodfibre processors and exporters with a strong and growing plantation and carbon management business. Midway's fibre is used in recyclable paper and packaging, plastic replacement products and coal replacing energy generation in the Asian region. The Company is building a plantation carbon management business to generate carbon abatement and emissions offsets solutions utilising its expertise in the process. Midway has woodchip processing and exporting operations at five major port locations in key forestry areas around Australia including: Bell Bay, Tasmania; Portland and Geelong in Victoria; Brisbane, Queensland; and Melville Island in the Northern Territory's Tiwi Islands.
